THE PERFECT CHOICE

YT182 / YT222 / YT202-EV

- Designed for moving trailers in distribution centres, transport depots, container terminals and airports
- If your application requires extensive reversing you may consider the TT-series which features a 180° swivelling seat
- The YT222 has a more powerful engine than the YT182 models
- Our worldwide distributor network and our efficient spare parts service ensure professional after-sales support

Yard tractors

https://truckmanualshub.com/

YT-series
4x2 Yard tractors

1. Batteries and pneumatic system
2. Convenient, comprehensive access to vehicle information without the need for a laptop computer or other equipment
3. Clearly marked relays and fuses, all accessible in one central compartment
4. Standard feature: sound insulation material to ensure low noise level
5. The increased interior cabin space offers a high degree of comfort and an excellent working environment for the driver

https://truckmanualshub.com/

6. Hydraulic oil level
7. Easy topping up engine oil
8. Transmission oil level
9. Coolant level
10. Optional: rear axle air suspension for extra driver comfort
11. Optional: safety support behind the cabin

YT202-EV
Fully electric drive

The Terberg YT202-EV is a fully electric yard tractor designed for moving trailers in distribution centers, transport depots, container terminals, etc. Fully electric drive means the vehicle is economical to operate and does not lead to emissions at the point of use. The electric motor requires less maintenance than a diesel engine and is quieter.
