RENAULT TRUCKS T X-PORT, THE SOLUTION BUILT TO LAST

With Renault Trucks T X-PORT, you get **a recent used vehicle whose origin, age and mileage are certified.**

Renault Trucks T X-PORT is equipped with reinforced air and diesel filtration and raised suspension to carry out its mission successfully **in all operating conditions.**

To fulfil its mission efficiently over the long term, even with diesel with a high sulphur content, the Renault Trucks T X-PORT engine is converted in our factories and complies **100 % with the Euro 3 emission standards** without the use of AdBlue.

This "Euro 3 Certified" solution, developed by our engineers, guarantees power and torque and is certified by an independent body with the same requirements as for a new engine.

This vehicle has been inspected, selected and prepared by our specialists applying the manufacturer's strict standards, with no compromise on quality. The on-board computer has been fully reconfigured to give you the benefit of all its functionalities from the very first mile.

Finally, your vehicle has been updated in the manufacturer's documentation and **is recognized throughout the Renault Trucks network.**

Performance and robustness make the Renault Trucks T X-PORT your partner, ready to increase your business now... and for the long term!

1. Euro 6 after-treatment system replaced by Euro 3
2. Reinforced air filtration
3. Reinforced diesel filtration
4. Vehicle software updated and manufacturer's documentation updated
5. Ground clearance increased by 30 mm

RECOGNIZED BY ALL RENAULT TRUCKS SITES
