L&T-Komatsu Limited

Bellary Road, Byatarayanapura
BANGALORE - 560 092,
INDIA

FOREWORD

When ordering a spare part, specify the part number, part name, and quantity required, and also specify your machine model code, machine serial number, engine serial number and the service meter reading.

This Parts Book describes not only standard items but also optional equipment and attachments. To order a part, please contact your nearest L&T-Komatsu distributor.

This Parts Book contains the information and special symbols as follows:

Figure and list	When you open the Parts Catalogue you will find an illustration on the left page (even-numbered page) for the spare parts group. Each individual part in the group is given an index number. On the right page, the component parts of the group are listed in the order of the index numbers shown on the illustration page. The part number, part name, and applicable machine serial number are given for each part.
FIG. No.	The FIG. No. is the number of the illustration shown on the page. It is not the spare part number. The numbers are not always continuous.
INDEX	This is the same as the index number in the illustration. The parts are listed in index number order.
PART No.	The number given in the PART No. column is the part number for the part shown. It is the code used when ordering that part it is important that there is no mistake in this code number when ordering.
DESCRIPTION	This gives the name of part that has the part number listed. The mark "." is put in front of the part name of an assembly part and the item is entered following the assembly. If a part marked with "." is a sub assembly, its components are marked ". ." Example: ELEMENT ASSEMBLY, AIR CLEANER . ELEMENT ASSEMBLY, OUTER . . ELEMENT, OUTER . . NUT, WI NG . . WASHER
Q'TY (Quantity)	This specifies the number of pieces used for one machine. However, if a part is included in the assembly and/or component, the quantity per such assembly and/or component is specified.
SERIAL No.	Applicable engine serial number is indicated for the engine volume. In the chassis volume, this indicates the machine serial number in which the part is used.
Symbols and codes	Symbols and codes are used in the PART No. and DESCRIPTION columns, and represent the following:  The part specified in the line above can be used instead of this part.

Symbols and Codes

This part can be used instead of the part specified in the line immediately above.

This part and the part specified in the line immediately above are interchangeable.

The part specified in the DESCRIPTION column can be used instead of this part if it is used as a set.

This shows discontinued part. The part specified in the above line is supplied instead.

This shows a discontinued part. The part specified in the DESCRIPTION column is supplied instead as a set.

This part cannot be supplied as an individual part. It is supplied as an assembly.

This part cannot be supplied as an individual part. It is supplied as an assembly. However, it is supplied as an individual part by an authorized distributors only.

This indicates a part group. The part marked with this symbol is not considered a supply part.

The parts surrounded by this line are components of the part group specified in the above line.

G-1, G-2

These indicate categories of part groups.

KIT

This indicates kit parts. For kit parts, refer to the service kit tables provided in this Parts Book

This indicates a part supplied as semi-finished. It requires additional work before installation.

PAINT (1) This indicates parts shipped painted with undercoat.

PAINT (2) This indicates parts supplied with different colors from the original color of your machine.

(A)

This code indicates special parts for cold weather 'A:' specification (-30°C) machines.

(B)

This indicates special parts for cold weather "B" specification (-50°C) machines.

TRAVEL AND LOWER PIPING

PC130-7

L&T-KOMATSU

		INDEX	PART NUMBER	DESCRIPTION	QTY	SERIAL No.
 The diagram illustrates the travel piping system for the PC130-7. It features a Travel Motor at the top and a Swivel Joint at the bottom. The system consists of various hoses, unions, O-rings, bands, and a grommet. Callouts 1 through 18 identify specific components: 1 and 3 are unions; 1a, 2, 3a, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, and 18 are O-rings, hoses, bands, and a grommet respectively. The hoses are labeled with their lengths (e.g., 1750MM, 1650MM, 1850MM). The bands are labeled with their part numbers (e.g., 08034-00823, 08034-20536). The grommet is labeled with its part number (203-62-67160).		1	02781-00522	UNION.....	4	NL 50001-
