ABOUT US

Ningbo Chohift Forklift Co., Ltd is a national high-tech enterprise, located in Ninghai, where is known as the base of pallet trucks production in China. Our company mainly produces series of electric pallet trucks, electric stackers, hand pallet trucks, lift tables and other material handling equipments.

Our company has a professional team with 24 years' rich experience of logistics equipment design and manufacture, and has got several patents of pallet trucks and electric products.

Under the leadership of Chairman Chu Guanghui, we insist on the tenet of "advanced technology, reputation first", take focus on enterprise brand and quality construction, strive to create a "first" leading team everywhere. We have advanced production equipments, perfect craft, more than 50 sets of advanced large intelligent equipments, and more than 10 sets of advanced special testing equipments; we adopt advanced international standards as the technical indexes of our products. Our advanced design ideas can rival the international first-class.

We have more than 100 staff, and 20 professional engineers and technicians, including 19 senior titles. With advanced management systems and software, we reduce intermediate links, and improve the work efficiency.

Our company has passed ISO9001:2008 quality system authentication, 4 categories, 20 series of products and more than 100 varieties, which are widely used in various places of modern logistics, most of them get CE and GS certification of TÜV AUSTRIA.

"Chohift" always follows the spirit of enterprise "Innovation for development, quality for survival", holds the service concept "production turns around sale, sale turns around the market". Meanwhile, we aim at the international high-end market, committed to fostering a superlour brand, to be among the world's famous logistics warehousing equipment manufacturing industry.

www.chohift.com www.chohift.com.cn

"We met in CEMAT ASIA last year, I was attracted by their exquisite design at first sight, but what gives me deeper impression is the reliable quality after several cooperations".

— a customer from Thailand

"After comparison almost every booth here, I chose chohift finally, it turns out it is one of the most wise decision I ever made".

— a customer from Philippine

"I am here to visit our old partner, and going to see their new design products, they always give me surprise".

— a customer from AU

"We have cooperated so many years, there is nothing worrying about to cooperation with them, due to the reliable quality and excellent after-sale service".

— We are from Russia.

UNSHAKEN PURSUIT OF PERFECTION

Cholift always driven by the the concept of "Passionate Pursuit of Perfection".
Our mission is to meet the enormous challenges,
For our highly discerning customers, we provide first-class quality, top
technology, perfect feeling, and incomparable personalized service.
The spirit of innovation and dedication leads us to explore, to innovate, and to
surpass continuously.
We foresee the future!

Hand Pallet Truck

SBA Hand pallet truck

INNOVATION DESIGN

>Reduce maintenance cost >Improve working efficiency >Increase truck service life

- High reliability, suitable for a variety of environments. It can be used for 3~5years under normal maintenance.
- The first design of forging & casting integral pump, which prevents any loosening and leakage.
- High-strength alloy steel carefully rafted, increased loading capacity.
- Set the active safety valve to prevent overloading of operation.
- 54mm fork thickness ensures high capacity.

Model		SBA		
Load capacity/rated load	Q(kg)	2500	3000	3500
Load centre distance	c(mm)	500	500	500
Steering wheel	mm	Φ180*50	Φ180*50	Φ180*50

Fork dimensions	s/e/l	54/160/1150	54/160/1150	54/160/1150
Distance between fork-arms	b ₅ (mm)	520/550/685	520/550/685	520/550/685
Turning radius	W ₄ (mm)	1249/1319	1249/1319	1249/1319

type 2 pump

Pump Option

type 3 pump

type 4 pump

type 5 pump

Optimized round fork tips ensures easy operation;
54mm fork thickness ensures high capacity;
Curve design on the fork tips help pallets entry in/out.

With copper bushin , no need to add grease, reduce maintenance cost.

- With overloading safety valve.
- Chrome plate piston.
- Different fork length are available.
- Fork frame "C" piece design ensure high capacity.
- Option: rubber wheel, nylon wheel, polyurethane wheel.

SBA-E2

Hand pallet truck

- Galvanized pump & base, with leaking proof design.
- With overloading safety valve.

SBA-E

Hand pallet truck

Casting pump, with leaking proof design.

Galvanized pump for option

SBA50

Heavy duty pallet truck

- Capacity **5000kg**.
- Strengthened forks for a realible quality.
- 5mm thickness high rigidity steel plate.

Model	SBA-E (SBA-E2)		
Load capacity/rated load	Q(kg)	2500	3000
Load centre distance	c(mm)	500	500
Steering wheel	mm	Φ180*50	Φ180*50
Fork wheel single	mm	Φ70*60	Φ70*60
Fork wheel tandem	mm	Φ70*80	Φ70*80
Lifting height	h_2 (mm)	190	190
Lowered height	h_{L2} (mm)	75	75
Overall length	l_1 (mm)	1534/1604	1534/1604
Fork dimensions	s/e/l	54/150/1150	54/150/1150
Distance between fork-arms	b_1 (mm)	520/550/685	520/550/685
Turning radius	W_0 (mm)	1249/1319	1249/1319

Model	SBA50		
Load capacity	Q(kg)	5000	5000
Load centre distance	c(mm)	500	500
Tyre size, front	mm	Φ200	Φ200
Tyre size, rear	mm	Φ80	Φ80
Lifting height	h_2 (mm)	207	207
Lowered fork height	h_{L2} (mm)	88	88
Overall length	l_1 (mm)	1620	1620
Fork dimensions	s/e/l	57/160/1220	57/160/1150
Distance between fork-arms	b_2 (mm)	685	550
Net weight	kg	110	110

SBA-D20

Hand pallet truck

- Welding pump, with leaking proof design.
- With overloading safety valve.
- Chrome plate piston.
- Different fork length are available.
- Option: rubber wheel, nylon wheel, polyurethane wheel.

Smart
2000KG

* End user from Thailand

Optimized round fork tips ensures easy operation;
54mm fork thickness ensures high capacity;
Curve design on the fork tips help pallets entry in/out.

- Lowering position:**
pull up the finger tip control handle to lower the truck.
- Neutral position:**
stay the position during move.
- Lifting position:**
pull down the tip control, press the pump to raise the truck.

Model	SBA-D20	
Load capacity/rated load	Q(kg)	2000
Load centre distance	c(mm)	500
Net weight	kg	55-65
Tyre size, front	mm	Φ160*50
Tyre size rear	mm	Φ70*60
Lifting height	h ₂ (mm)	190
Height of tiller in drive position min./max.	h _{1,4} (mm)	1234/1224
Lowered height	h _{1,3} (mm)	75
Fork dimensions	s/e/l	54/150/1150
Distance between fork-arms	b ₂ (mm)	520/550/685
Aisle width for pallets 1000x1200 crossways	A ₂₁ (mm)	1730/1800
Aisle width for pallets 800x1200 lengthways	A ₂₂ (mm)	1780/1800

SBJ

Reel pallet truck

- Ergonomically designed handle with rubber grip, used for move reels, cable drums, coils, rolls etc.

SBA-T

Traverse pallet truck

- Designed for moving long loads down narrow aisles.
- Traverse movement effects when the fork height up to 180mm, and turn the handle by an angle of 90 degrees.
- Traverse movement provides more flexibility and convenience of applications as condition changes.

SBB

Pallet truck with brake

- Brake system can have the pallet trucks stop on the slope.
- Make a wider application for the hand pallet truck.

SBA-L

Low profile pallet truck

- Special size pallet truck can be produced as per customer's request.

Model		SBJ	SBA-T	SBB	SBA-152	SBA-160

SBK

Super wide pallet truck

- Different fork size can be produced according to customer request. Max. fork length reach 3000mm.

SBA-G

Galvanized pallet truck

- Ideal for wet and cold warehouse.
- Standard with nylon wheels.
- With press relief valve and overloading valve.

SBA-S

Stainless steel pallet truck

- Ideal for food, chemical, pharmaceutical.
- Enclosed fork tips.
- With press relief valve and overloading valve.

HLT1C

High Lift Scissor Truck

Single Piston

- Supporting legs and adjustable stabilizers extended to the floor automatically when the forks reach a height of 420mm, to ensure the max. stability.
- With quick lift function when loading below 150kg.

- The descending speed always keeps same regardless the truck with or without loading, which prevents cargo damage from fast descending.
- Capacity: 1000kg / 1500kg.

Option Handle

Model		HLT1C	HLT1	HLT1.5
Rated Capacity	kg	1000	1000	1000
Min./Max. Fork Height	mm	85/800	85/800	85/800
Fork Width	mm	540	680	520
Fork Length	mm	1150	1150	1140

SPA Lift Table 150/300/500

- High quality hydraulic ensures reliable long life.
- Designed as per CE requirements.

- With protection bracket and brakes on rear wheel.
- With overload protection.

SJZ Full Electric Lift Table

- Red emergency button to ensure safety option.
- With voltmeter design.
- With overload protection.
- Meeting CE standard.

Option Handle

Handle 1

Handle 2

SPA Lift Table 1000/1500

- Option for the board

SPK 1000 Lift Table

ALT Aluminum Lift Table

- Smart lift table.
- portability design, easy to carry.

SDA Hand Stacker

Reliable performance with easy maintenance

- High quality mast steel ensures rigidity, durability.
- Integral pump, which prevents loosening, leak-proof.
- High efficiency pump, operating lighter, more comfortable.
- Lifting speed keeps smooth regardless of loading weight, which is safe to use.

Single mast

SDA1016

Double mast

SDA1025/SDA1030

- The stacker can be lifted by handle or foot pedal.
- Hand control valve precises control convenience.
- Set the active safety valve to prevent overloading of use.
- Maintenance-free design, ensures security, reduces service cost.

QBA15

1500kg Electric Pallet Truck

- Smart design, easy pass in narrow pathway.
- High efficiency with low price.
- Low maintenance structure.
- High reliability in quality, with 18 month warranty.

QBA20C

2000kg Electric Pallet Truck

- AC drive system, long battery service.
- Emergency power off ensures operation safety.
- Vertical motor gives smaller turning radius and easy maintenance.
- With creep speed control function.

QBA20Z

Electric Reel Pallet Truck

Unique fork design specifically for handling reel goods, which can effectively prevent the cargo from rolling. Easy to use, saves time and effort, is the ideal tool for moving heavy equipment.

Precision electronic limit switches, control of the maximum lifting height, to prevent damage to the motor.

Truck circuit lines in nylon casing, wiring clean and corrosion-resistant, oil resistant, abrasion resistant.

The design of integrated micro-switches, easy for replacement.

Display with hour time and battery status, to remind the operator to charge battery in time.

Controller self-diagnosis system, make troubleshooting easier.

Emergency reverse switch.

Emergency power-off disconnect.

Ergonomic design of the German Frei handle for easy operation, reliable quality.

BDA

Semi-electric Stacker

Lever-assisted steering, reduces labor intensity, the service time is also increased by 3 times to chain steering.

- Strong mast material ensure high capacity.
- Explosion-proof valve in the pump, to avoid rapid decline to ensure the operator's safety.
- Over-discharge protection device greatly extends battery life.
- Foot brake is simple and easy to maintain.

Forks size:

- 1) Type A fixed forks 550x1150mm.
- 2) Type B forged forks 200~800mmx1070mm.
- 3) Type C adjustable forks 290~850(930)mmx1070mm.
- 4) Different forks size are available for each type.

Lifting height:

1600mm, 2500mm, 3500mm
(double mast)

4500mm, 5000mm, 5500mm
(triplex mast)

- Double lift cylinder design, ensure accurate and smooth lift;
- Unique wide-view mast design greatly increase operator vision;
- With explosion-proof valve at the bottom of cylinder, even if the pipe burst, the mast will not rapidly decline.

Power Steering
SYSTEM

Good Performance

AC drive system gives precise control, longer battery life; Aluminum cover, good heat dissipation for longer service life.

Top-class hydraulic pump, low noise, low vibration, good sealing, lower speed automatic adjustments to ensure smooth and reliable decline.

Precision electronic limit switches, control of the maximum lifting height, to prevent damage to the motor;

Back body cover can be disassembled quickly and easily, by removing the four bolts. The parts can be checked and replaced in the shortest time.

Easy Maintenance

AC drive motor, no carbon brushes, free maintenance, reducing maintenance costs. Vertical drive motor make the inspection and repair more convenient, which performance much better than the transverse motor.

The design of integrated micro-switches, easy for replacement.

Battery cover is easy to open, convenient to add distilled water or electrolyte of the battery.

Display with hour time and battery status, to remind the operator to charge battery in time.

Controller self-diagnosis system, make troubleshooting easier.

Safe & Reliable

Emergency reverse switch.

Emergency power-off disconnect.

Ergonomic design of the control handle for easy operation.

Steel Jack

Model: SJL/SJ/MJ
Cap.: 1500~10000kg

- Steel jack MJ is developed in accordance with the latest safety regulation.
- With milled rack, geared wheels and tempered parts of driving gear.
- Suitable for lifting loads of any type. Lifting either with fixed toe or on clawed head.
- Safety crank with folding handle.

Shop Crane

Model: SA
Cap.: 500/1000kg

- Euro type.
- Heavy duty design.
- Relief valve to prevent overload.
- 25% overload testing before delivery.

Model: SC-A
Cap.: 500/1000/2000kg

- Foldable Type.
- Larger capacity than normal shop cranes at 3 position.
- Chrome plated lifting piston-rod and pump piston-rod.
- Forged heavy duty swivel hook.

Model: DG360A
Cap.: 360kg

Aerial Work Platform

- Canbus technology
- Proportional controls
- Safety brackets
- Low voltage alarm
- Emergency down button
- Charger protection
- Controller temperature protection
- Over loading protection
