NOTICE

The right is reserved to change the construction or material of any parts where it seems desirable to do so without incurring the obligation of installing such changes on units already delivered.
Additional publications pertaining to this model and to all other FIATALLIS products are available through FIATALLIS dealers. Publications are generally available in several languages.

INSTRUCTIONS FOR ORDERING PARTS

At the time this parts catalog was published the listed part numbers were current. It is our policy to constantly improve our machines and therefore, part numbers and design may change.
When ordering parts, verify part numbers through your dealer's microfiche and master numerical index which are up to date with all the latest part numbers.

ORDER PARTS FROM THE DEALER COVERING THE LOCAL TERRITORY

Orders for spare parts must include the following data (see page 4):

- Model, Serial Number, Engine model, Engine serial number, marked on engine block.
- Specify the part number (shown on Spare Parts Catalog list), possibly completed by it description. If parts refer to an assembly which has a model or serial number, also include this information.
- Give post office address, town, county and state where parts are to be shipped.
- Also specify whether material is to be shipped by freight, express or parcel post.
- Confirm all telephone or telegraph orders in writing.

Parts can only be returned to/through the dealer from whom the parts were purchased and **must have prior written authorisation.** Each return will be treated individually.
Unless claims for shortages or errors are made immediately upon receipt of goods, they will not be considered.
When broken goods are received, a full description of the damage should be made by the carrier agent on the freight bill.
FIATALLIS responsibility is limited, and ceases upon completion of sale conditions provided for each delivery.

HOW TO USE THE CATALOG

To locate parts correctly, consult the alphabetical index on page 3/3 or the numerical index on page 6. Both indexes will refer to the subgroup number in which the part is listed. The parts catalog is divided into major sections as listed on page 10, identified by the alpha digit of the subgroup number.

The catalog's illustrations and parts lists will provide the following information:

(1a) and (1b) Subgroup number.

(2a) and (2b) Sheet number, used when one subgroup covers several sheets.
(2c) Indication that the parts list takes more than one page (in the example page 1 of 2).

(3a) and (3b) Subgroups followed by / after the number indicates an optional or special equipment.

(4) **Updating indication.** Example indicates that the last revision of this subgroup was made in February, 1981.

(5) **Subgroup title.**

(6a) Symbol indicating that a Repair Kit is included in the subgroup. In the example, the Kit, Item 12, includes items 2 through 4(6b). The itemized components of each kit are listed on page 9 and are also identified as individual items (6c).

(7a) **Item.** Key number cross referring the illustration item (7b) to the relevant part number (8).

(7c) The item number can be replaced by a subgroup number (example L304) meaning that that item is listed in another subgroup.

(8) **Part number.** Number for ordering parts.

(9a) **QTY.** Total quantity of parts for one unit.

(9b) —. The quantity to be established as required.

(10) **Code.** Translation code for reference to the dictionary (lexicon) provided separately for interpretation of the description in languages other than English and Italian.

(11) **Description.** Description of the part in English and Italian. In case of modifications, the part description is completed by EFFECTIVE SERIAL NUMBER INDICATIONS and DIRECTIONS FOR REPLACEMENT (as applicable).

Examples of Effective Serial Number Indications:
(12a) **PRIOR TO UNIT NO. 00201,** install on machines with serial numbers up to 00201.

(12b) **UNIT NO. 00201 AND UP,** install on machines with serial number from 00201 and up.

Examples of Directions for Replacement:
(13a) and (13b) **Series 46C and 56M,** indicates the whole subgroup or a specific part number is used on units identified by these product codes (see page 4).

Other useful indications may be provided under DESCRIPTION (11) such as:

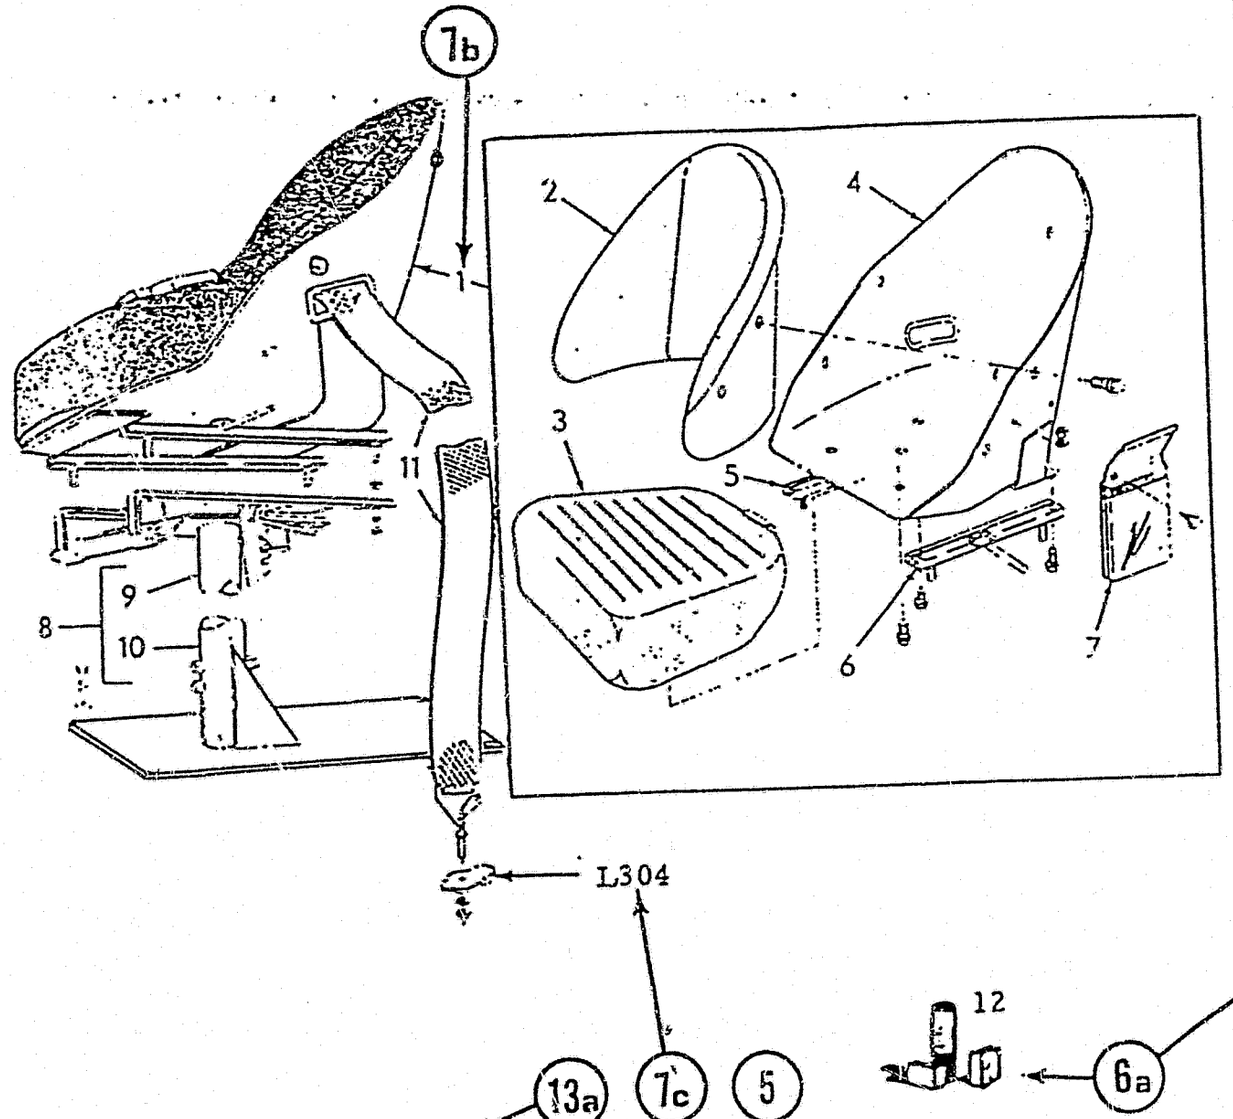

(14) (M101/2) REFER TO THIS SUBGROUP.

(15) **Includes item(s) 2 through 7(2-7)** i.e., if this part is ordered, all items 2 through 7 will be included.

(16) **Standard part dimensional data.** Notice also that attaching parts such as bolts, nuts, rivets, screws, washers, etc., are immediately following the itemized parts which they attach.

(17a) and (17b) **Foot notes.** Identified with a letter preceding the part number (i.e., a73073262). Please do not use the letter prefix when ordering the part.

Terms such as RIGHT, LEFT, FRONT AND REAR refer to the direction of machine forward travel.

ATTENTION

FIATALLIS se réserve le droit de modifier la construction ou le matériau de toute pièce, si cela se révèle nécessaire, sans devoir effectuer ces modifications sur les engins déjà livrées.
D'autres publications concernant ce modèle et tous les autres modèles FIATALLIS sont disponibles chez les Concessionnaires. En général, ces publications sont disponsibles en plusieurs langues.
Pour trouver ces publications, se référer au catalogue des publications techniques 604.07.026. Des exemplaires du catalogue sont disponibles près au des Concessionnaires FIATALLIS.

INSTRUCTIONS POUR LA COMMANDE DES PIECES DE RECHANGE

Les numéros des pièces indiqués dans ce catalogue sont mis à jour à la date de l'édition de la publication. Nous nous efforçons constamment d'améliorer les machines et, par conséquent, les numéros de pièces et les illustrations peuvent être périmés.
Au moment de passer une commande des pièces de rechange, contrôler les numéros de pièces chez Votre Concessionaire, qui dispose des informations mis à jour.

PASSER TOUTE COMMANDE DE PIECES DE RECHANGE CHEZ LE CONCESSIONNAIRE DE VOTRE REGION

Les commandes de pièces de rechange doivent comporter les indications suivantes (voir page 4):

- Modèle de la machine, Numéro du châssis (Code de production et Numéro de l'engin), Type du moteur, Numéro du moteur estampillé sur le bloc-cylindres.
- Indiquer le numéro de la pièce désirée (indiquée sur les listes du catalogue), accompagné si possible de sa description. Si les pièces se rapportent à un groupe possédant son propre numéro de modèle ou de série, indiquer aussi ce dernier.
- Indiquer dans l'addresse, le bureau de poste, la ville, le département et le pays où les pièces de rechange doivent être envoyées.
- Indiquer de plus le mode d'expédition du matériel (par mer, par terre, par avion, exprès ou colis postal).
- Confirmer par écrit toutes les commandes anticipées par téléphone ou télégraphe.

En cas de renvois de pièces, ils pourront être effectués seulement au/ou par l'intermédiaire du Concessionnaire chez lequel les pieces ont été achetées et ils devront être autorisés au préalable par écrit. Tout renvoi sera examiné individuellement.
Les réclamations pour manques et erreurs, qui ne seront pas présentées immédiatement à la réception de la marchandise, ne seront pas acceptées.
En cas de réception de marchandise endommagée, une description complète doit être présentée par l'agenty transporteur sur le bordereau d'expédition.
La responsabilité de FIATALLIS se limite et cesse au moment de l'exécution des conditions de vente prévues pour chaque fourniture.

Consulter les page 3/15 de l'Index alphabétique ou l'index numérique de la page 6 pour selectionner les pieces détachées correctes. Ces deux vous renvoient au numéro du sous-groupe acguel cette pièce appartient. Comme énuméré à la page 10, ce catalogue de pièces détachées comporte plusieurs sections qui sont identifiées par la lettre préfixe des numéros des sous-groupes.

Par ses illustrations et ses listes de pièces détachées, ce catalogue vous offre l'information suivante:

(1a) et (1b) Numéro du sous-groupe.

(2a) et (2b) Numéro de la page respective, quand plusieurs pages sont nécessaires pour le sous-groupe.

(2c) Ceci indique que la liste de pièces détachées en question se compose de plusieurs pages (se reporter à l'exemple page 1 de 2).

(3a) et (3b) Tout sous-groupe suivit d'un / à la suite de son numéro, indique un équipement soit à option, soit spécial.

(4) Indique une information complémentaire. L'exemple indique que la dernière révision date du février 1983.

(5) Titre des sous-groupes.

(6a) Ce symbole indique que un jeu-réparation fait partie de ce sous-groupe. Dans l'exemple, le jeu, repère 12, se compose des pièces 2 à 4 (6b). A la page 9, le contenu de chaque jeu est énuméré, chaque pièce étant aussi identifiée individuellement (6c).

(7a) Repère. Numéro clé pour coordonner la pièce de l'illustration (7b) avec le numéro qui la désigne (8).

(7c) Un numéro de pièce peut être remplacé par le numéro d'un sous-groupe (voir exemple L304) ce qui signifie que cette pièce fait partie d'un outre sous-groupe.

(8) Numéro de pièce. Ce numéro doit être utilisé pour la commande de pièces détachées.

(9a) Quantité. Quantité globale pour un engin.

(9b) —. Quantité à définir selon le besoin.

(10) Code. Code de référence pour traduction dans le dictionnaire (lexique) offert séparément pour l'interprétation de la description dans un langage autre que l'anglais ou l'italien.

(11) Description Nom anglais ou italien de la pièce. En cas de changement, au nom de la pièce s'additionnent L'INDICATION D'UN NUMERO EFFECTIF DE FABRICATION et les INSTRUCTIONS DE LEUR SUBSTITUTION (le cas échéant).

Exemples d'instructions de l'effectivité de numéros de fabrication:
(12a) AVANT L'ENGIN NO. 00201, doit s'installer sur engins dont le numéro de fabrication est avant 00201.

(12b) ENGINS DU NO. 00201 ET SUIVANTS, doit être installé sur les engins dont le numéro de fabrication est 00201 et au-dessus.

Exemples d'instructions pour substitutions:
(13a) et (13b) Séries 48C and 58M; cela informe que le sous-groupe entier ou un numéro spécifique de pièce détachée est utilisé pour les engins qui sont identifiés par ces codes (voir la page 4).

D'autres informations utiles peuvent être offertes dan la colonne DESCRIPTION (11) comme suit:

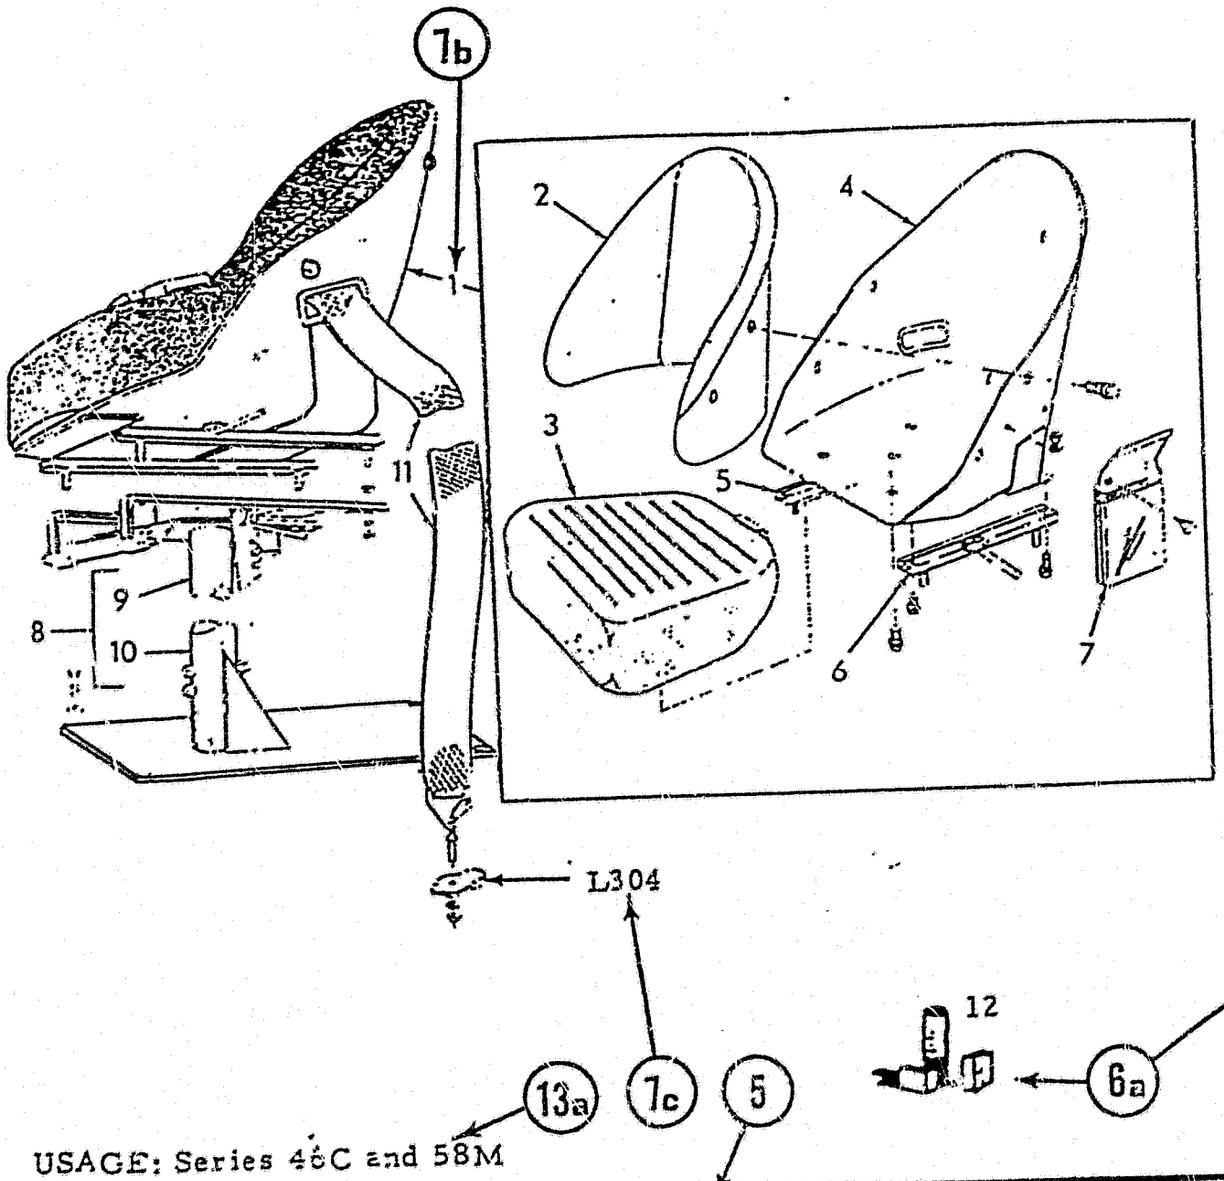

(14) (M101/2) VOIR CE SOUS-GROUPE.

(15) Les repères 2 à 7 sont inclus, cela veut dire que sous ce numéro les pièces correspondant aux repères 2 à 7 seront aussi inclues.

(16) Caractéristiques des pièces standard. A ramarquer que les pièces qui servent à fixer, telles que boulons, écrous, rivets, vis, rondelles, etc., apparaissent directement à la suite de la liste des pièces qu'elles attachent.

(17a) et (17b) Commentaire. S'identifie par une lettre précédant le numéro de pièce (par exemple: a73073262). Cette lettre ne fait pas partie du numéro de la pièce, donc ne pas l'utiliser à l'occasion de la commande de cette pièce.

Les formes tels que DROITE, GAUCHE, AVANT ET ARRIERE sont définis par la direction de l'engin quand celui-ci est en marche avant.

ADVERTENCIA

FIATALLIS se reserva el derecho de modificar la construcción o el material de cualquier pieza, si ello resultase deseable, pero sin obligarse a aplicar tales modificaciones a las unidades ya en servicio.
Otras publicaciones referentes a éste modelo, lo mismo que a todos los otros modelos FIATALLIS, son disponibles en los Concesionarios. Tales publicaciones, por lo general, son disponibles en diversas lenguas.
Para conocer tales publicaciones consúltese el catálogo de las publicaciones técnicas 604.07.026. Ejemplares de éste catálogo están disponibles en los Concesionarios FIATALLIS.

COMO SE PIDEN LOS RECAMBIOS

Los números de catálogo de las piezas reseñadas en esta publicatión están al dia a la fecha de la impresión de la misma. Nuestra politica estriba en el afán de mejorar constantemente las máquinas, y por lo tanto, los números de piezas y los ilustraciones a veces pueden ser caducadas. Con motivo, pues, de ir a encargar piezas de repuesto, verifique los números de catálogo con su Concesionario, el cual dispone de las infomaciones puestas al dia.

PEDIR LOS RECAMBIOS AL CONCESIONARIO DE SU REGION

Los pedidos de piezas de repuesto tienen que incluir los datos siguientes (véase página 4):

- Modelo de la máquina, Número de fabricación del chasis (Codigo del producto y Número de serie) Modelo del motor, Número de fabricación del motor (punzonado en el bloque de cilindros).
- Indicar el número de catálogo de cada pieza encargada - tal cual figura en las listas del catálogo - posiblemente acompañado de la descripción que corresponde. Si los recambios pertenecen a un conjunto que posee su propio número de modelo o de serie, indíquense incluso tales datos.
- En la dirección indíquense la oficina de correos, la ciudad, provincia y nación a donde han de remitirse los recambios.
- Además, indíquense el moto de expedición del material: transporte marítimo, terrestre, aereo, expreso o paquete postal.
- Confirma per escrito todos los pedidos anunciados por teléfono y por cable.

Eventuales devoluciones de piezas podrán hacerse tan sólo allo por conducto del Concesionario al cual se han comprado las piezas, y deberán ser previamente autorizadas por escrito. Cada devolución se tomará en cuenta separadamente.
Las reclamaciones por faltas o errores no se tomarán en cuenta, a no ser que vengan efectuadas inmediatamente después de recibir la mercancia.
En caso de que se reciba mercancia que ha sufrido daños, una completa descripcion del daño deberia ser efectuada por el agente del transportista en el mismo documento de expedición.
La responsabilidad de FIATALLIS es limitada y cesa al compirse las condiciones de venta provistas para cada despacho.

Consultar el indice alfabético de las páginas 3/27 el indice numérico de la página 6 para encontrar los repuestos correctos. Ambos indices hacen referencia al número del subgrupo al cual el repuesto pertenece. Este catálogo de repuestos está compuesto de varias secciones enumeradas a la página 10 las cuales están identificadas con una letra ubicada antes del número del subgrupo.

Las ilustraciones y las listas de éste catálogo ofrecen las siguintes informaciones:

(1a) y (1b) Numéro del subgroupo.

(2a) y (2b) Numéro de la página cuando más de una página son necesarias para contener el subgrupo completo.

(2c) Indica que la lista de los repuestos llena más de una página (el ejemplo muestra la primera página de dos en total).

(3a) y (3b) Subgrupos cual numéro está seguido de una / indica que se trata de un equipo a opción o especial.

(4) Indica información complementaria. En el ejemplo, quiere decir que la última revisión de éste subgrupo ha sido hecha en el febrero de 1983.

(5) Titulo del subgrupo.

(6a) Simbolo que indica un Juego de Reparación como parte integra del subgrupo. En éste ejemplo, el juego, artículo 12, comprende los artículos 2 a 4, (6b). Los componentes de cada juego están enumerados uno por uno a la página 9 y también están identificados como artículos individuales (6c).

(7a) Artículo. Es la clave de referencia entre la ilustración (7b) y el número correspondiente del repuesto (8).

(7c) Al número del artículo se puede sustituir el número de un subgrupo (como L304 del ejemplo), lo que quiere decir que éste artículo es componente de otro grupo.

(8) Número del repuesto. Se debe utilizar para pedidos de repuestos.

(9a) Cantidad. Es la cantidad total de éstas piezas para la máquina.

(9b) La cantida a establecer según los requesitos.

(10) Código. Es la referencia para buscar en el dictionario (lexicón) provisto separadamente, la traducción de la descripción en idiomas otros que el inglés o italiano.

(11) Descripción. La descripción de la pieza aparece en inglés como en italiano. En el caso de una modificación, se agrega a la descripción de la pieza LA INDICACION DEL NUMERO EFECTIVO DE FABRICACION Y INFORMACION SOBRE SUSTITUCION (si es aplicable).

Ejemplos de informaciones de números efectivos de fabricación:
(12a) ANTES DE LA MAQUINA NO. 00201, debe instalarse sobre máquinas cuyo número de fabricación es inferior a 0020.

(12b) MAQUINAS NO: 00201 Y ADELANTE, debe instalarse sobre máquinas cuyo número de fabricación es 00201 y superior.

Ejemplos de informaciones sobre sustitución:
(13a) y (13b) Serie 48C and 58M, indica que el subgrupo completo o un numéro de pieza se usa para las máquinas identificadas con estos códigos de fabricación (referirse a la página 4).

Algunas otras útiles informaciones se pueden ofrecer bajo DESCRIPCION (11) como sigue:

(14) (M101/2) REFERIRSE A ESTE SUBGRUPO.

(15) Artículos 2 a 7, por ejemplo; al pedir ésta pieza, los artículos de 2 a 7 tambien estarán incluidos.

(16) Datos particulares a las piezas standard. También se debe anotar que las piezas tales como pernos, tuercas, remaches, tornillos, arandelas, etc., siguen directamente las piezas nombradas y fijadas por estos.

(17a) y (17b) Anotaciones. Están identificadas con una letra ubicada antes el número de la pieza (por ejemplo a73073262). Por favor no utilizar ésta letra cuando se hacen pedidos de repuestos.

Los términos como DERECHA, IZQUIERDA, ADELANTE Y ATRAS se comprenden teniendo en cuenta la dirección en la cual la máquina se mueve adelante.

HOSE PARTS - PEZZI PER TUBI FLESSIBILI - PIECES POUR FLEXIBLES - SCHLAUCHLIETUNG-ERSATZTEILE - PIEZAS PARA MANGUERAS

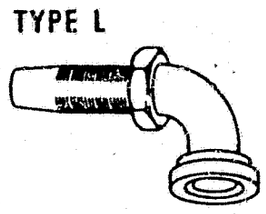

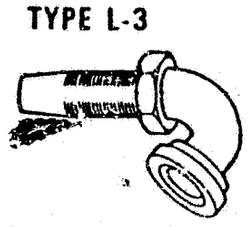

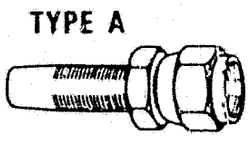

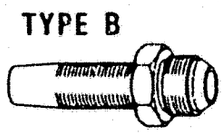

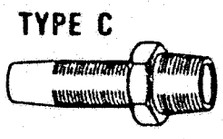

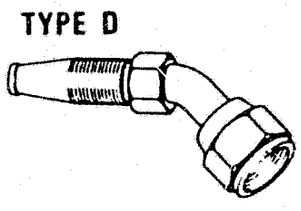

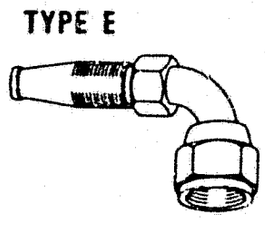

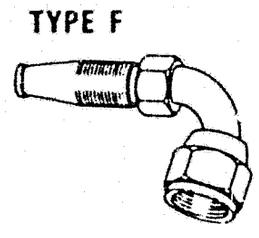

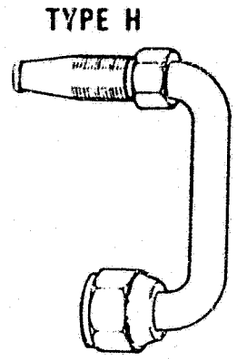

T-81433

NOTE: In the right hand column (2) the crimped-type hose assembly(fittings not reusable) is identified. Assembly number shown in the left hand column (1) indicates available replacement hose assembly(no crimped-type) with reusable components; the other columns indicate the components numbers for hose constructions in the field.

NOTA: La colonna (2) all'estrema destra identifica il tubo completo del tipo graffato dotato di raccordi non riutilizzabili. La colonna (1) all'estrema sinistra indica il tubo completo non graffato, dotato di raccordi riutilizzabili; le altre colonne riportano i numeri dei componenti per consentire la costruzione del tubo sul campo.

NOTE: La colonne (2) a l'extreme droite, indique le flexible complet plisse, muni de raccords non reutilisables. La colonne (1) a l'extreme gauche indique le flexible complet non plisse, muni de raccords reutilisables; les autres colonnes fournissent les numeros des composants permettant de construire le flexible sur place.

HINWEIS: In Spalt (2 ganz rechts) ist der komplette Schlauch der gefalteten Bauart mit nicht wieder anwendbaren Anschlussen angegeben. In Spalt (1, ganz links) ist der komplette, faltenlose Schlauch mit wieder anwendbaren Anschlussen angegeben. Die weiteren Spalte enthalten die Nummern der Bestandteile zum Zusammenbau des Schlauches auf dem Feld.

NOTA: La columna (2)a la derecha designa la manguera completa del tipo de solape y dotado de racores no recuperables. La primera columna (1) a la izquierda senala la manguera completa dotada de recores recuperables; las restantes columnas senalan los numeros de los componentes para facilitar la construccion del tubo en obras.
