Dear Kenworth customer:

Welcome to Kenworth's newest heavy-duty truck accessories catalog. Inside, many new and exciting products have been included in this latest edition, providing our customers with quality products at competitive prices.

One product in particular is Mirrex chrome and stainless products. Mirrex is synonymous with quality, beauty, and competitive prices.

Quality in stainless steel accessories is the result of several considerations. The first consideration is the selection of the sheet metal stock. There are several grades of stainless steel stock. The 304 grade of stainless steel has excellent corrosion resistant characteristics and is very ductile. This is the metal of choice for automotive products exposed to weather. Many of the Mirrex products use 304 stainless steel in the production of wheel simulators, top hats, and axle covers.

The next consideration is the tooling used to form the part. Stated simply fine tooling makes fine parts. Tooling effects the smoothness of the part surface. Some parts require multiple tools and compound press draws. Each draw of the press with a new tool increases the strength of the part. Tooling will effect the way a simulator fits onto a wheel and how the hand holes and stud holes line up with the wheel. In the final phase of tooling, extra time is used to roll the edges on parts to add strength, safety and smoothness. The hallmarks of excellent tooling are smooth lines, symmetry and excellent fit.

After the tooling is perfected, it is time for polishing. Stainless steel polishes to a mirror finish. When it comes to polishing, multiple-stage hand polishing occurs, to insure a uniform luster and shine to the finish of parts.

Please take time to view these new and exciting products in this catalog or visit <http://www.paccar.com/truckaccessories/kenworth> website to view the on-line Truck Accessories catalog.

Thank you for your continued support!

Truck Accessories

Table of Contents

Welcome to the Kenworth Accessories Catalog

The Kenworth Accessories Catalog offers a wide selection of products to dress up your truck:

Bumpers & Bumper Guides

Butoirs et Guides pour Butoirs ● Parachoques y Guías de Parachoques

Mirrex, Proprietary, & AERO CLAD™

Kenworth AERO CLAD™ are now available! These bumpers look great and last longer than other bumpers on many Kenworth vehicles, because they combine a mirror-bright finish with superior resistance to rust, cracking, and peeling.

If the bumper you are looking for isn't available in AERO CLAD, your best bet will be to purchase Mirrex.

Mirrex bumpers offer many advantages over "will-fit" bumpers, including:

- **Consistent OEM quality from the leading supplier of metal bumpers to heavy-duty OEMs**
- **Good availability**
- **Improved interior/exterior packaging to reduce potential freight damage**

Proprietary bumpers have a proven reputation for a long-lasting bright appearance and exceptional durability. These steel chrome proprietary bumpers are copper buffed, which acts as a filler, eliminating most surface imperfections. Kenworth AERO CLAD bumpers provide long-term corrosion resistance because the stainless surface does not pit, crack, or fade despite the inevitable stone impacts and other rough treatment trucks encounter in heavy-duty service. This superior durability allows for a 5-year warranty. Furthermore, AERO CLAD bumpers offer weight savings of up to 70 lbs. compared to steel-chromed bumpers. This means reduced fuel consumption and more payload for the owner.

Mirrex, de Marque et AERO CLAD™

Les butoirs Kenworth AERO CLAD™ sont maintenant disponibles! Ils offrent une belle apparence et durent plus longtemps que d'autres butoirs sur de nombreux véhicules Kenworth, car ils unissent un fini lustré à une résistance supérieure à la rouille, aux craquelures et à l'écaillage.

Si le butoir que vous recherchez n'est pas disponible avec AERO CLAD, nous vous recommandons d'acheter un butoir Mirrex.

Les butoirs Mirrex ont de nombreux avantages sur les butoirs de taille unique, notamment :

- **Qualité uniforme par le premier fournisseur de butoirs en métal aux équipementiers à grande capacité**
- **Bonne disponibilité**
- **Emballage intérieur/extérieur amélioré pour réduire le dommage possible au chargement**

Les butoirs de marque ont une réputation éprouvée pour une apparence lustrée et une durabilité exceptionnelle. Ces butoirs de marque en acier chromé sont bufflés de cuivre, qui agit comme remplissage, éliminant ainsi la plupart des imperfections de surface. Les butoirs Kenworth AERO CLAD procurent une longue résistance à la corrosion parce que leur surface en acier inoxydable ne piquera pas, ne craquellera pas et ne ternira pas malgré les impacts inévitables par des cailloux et les autres durs traitements rencontrés lors d'un service intense. Cette durabilité supérieure permet d'offrir une garantie de 5 ans. De plus, les butoirs AERO CLAD procurent une économie de poids de jusqu'à 70 lb comparativement aux butoirs en acier chromé. Cela signifie une consommation réduite d'essence et une plus grande charge utile pour le propriétaire.

Mirrex, de Marca Registrada y AERO CLAD™

¡Los productos AERO CLAD™ de Kenworth ya están disponibles! Estos parachoques se ven de maravilla y duran mucho más que otros parachoques instalados en muchos vehículos Kenworth, puesto que combinan un acabado de gran brillo con una resistencia superior a la corrosión, las rajaduras y la descamación.

Si el parachoques que busca no está disponible en AERO CLAD, su mejor opción es adquirir uno de Mirrex.

Los parachoques de Mirrex le ofrecen muchas ventajas sobre los parachoques genéricos, incluyendo:

- **Una calidad constante de producto hecho por el fabricante original, proveniente del proveedor principal de parachoques de metal a los fabricantes de equipos originales de uso industrial**
- **Buena disponibilidad**
- **Mejor empaque interior/exterior, para reducir la posibilidad de daños durante el envío**

Los parachoques de marca registrada tienen la reputación comprobada de mantener su apariencia brillante por mucho tiempo y de una durabilidad excepcional. Estos parachoques de acero cromado, de marca registrada, se pulen con cobre, que actúa como relleno y elimina la mayoría de las imperfecciones de la superficie. Los parachoques AERO CLAD de Kenworth ofrecen una resistencia a la corrosión duradera ya que la superficie de acero inoxidable no se marca, resquebraja ni deslucce, a pesar de los inevitables impactos con piedras y demás malos tratos que sufren los camiones durante el trabajo pesado. Esta durabilidad superior nos permite ofrecer una garantía de 5 años. Además, los parachoques AERO CLAD le permiten un ahorro de peso hasta de 70 lb. En comparación con los parachoques de acero cromado. Esto implica un menor consumo de combustible y más carga útil para el propietario.

Bores Bumper Guides and Accessories

- **The original Patented Bumper Guide**
- **Helps prevent costly repairs to damaged fenders**
- **Illuminated tip with an additional feature of turn indicator**
- **Constructed entirely of stainless steel and other non-corrosive materials**
- **Easily and securely installed with specially designed mounting brackets. No drilling necessary in most applications**

Guides pour Butoirs et Accessoires Bores

- **Le guide de butoir breveté original**
- **Aide à prévenir les réparations coûteuses occasionnées par les dommages aux ailes**
- **Extrémité éclairée offrant une caractéristique supplémentaire d'indicateur de virage**
- **Entièrement construit d'acier inoxydable et d'autres matériaux anti-corrosifs**
- **S'installe facilement et solidement à l'aide de supports spécialement conçus. Aucun perçage nécessaire dans la plupart des applications**

Guías de Parachoques y Accesorios Bores

- **La guía de parachoques patentada original**
- **Hayuda a evitar costosas reparaciones a defensas dañadas**
- **Punta iluminada con la función adicional de señal direccional**
- **Construida totalmente de acero inoxidable y otros materiales no corrosivos**
- **Instalación fácil y segura con soportes de montaje especialmente diseñados. No es necesario perforar en la mayoría de las aplicaciones**

Mirrex Bumper "Smart Part Numbers" Tell a Story

Here is a "key" to understanding the "smart" part numbers for Mirrex bumpers.

This key can help you understand the part number nomenclature. Use SmartSearch to find a Mirrex bumper.

Part no. MX08C0010-06R15 means you are creating this type of bumper:

MX 0 8 C 0010 - 06 R 15

Material

Code	Gauge
0	10-Gauge Steel Chrome
1	10-Gauge Steel Primed
2	.125 Stainless Steel
3	Clad Aluminum
4	Solid Stainless Steel
5	Aluminum Primed
6	.160 Stainless Steel
7	Composite Fiber Technology
8	7-Gauge Steel Chrome
9	7-Gauge Steel Primed
A	Satin Anodized Aluminum
B	Aluminum Polished Aero Bright

Road Light Options

O	Oval
R	Round
S	Square
A	Angled
B	Box End
M	Millenium

6X24BKW-R	Red replacement quarter fender flaps

Mud Flaps

Bavettes Garde-Boue ● Faldones

►► Koneta 1/4" Nyracord® Rear Mud Flaps

- Universal guides can be cut at molded ribs to fit smaller sizes

►► Bavettes Garde-Boue Arrière 1/4" Koneta Nyracord®

- Le guide universel peut être coupé le long des nervures moulées afin de s'adapter à des dimensions plus petites

►► Faldones Traseros Nyracord® de Koneta, de 1/4"

- Las guías universales se pueden cortar por los canales moldeados, para adaptarlos a tamaños menores

Part No.	Description
►► Rubber Classic Guard — Black	
042424	24" x 24"
042430	24" x 30"
042436	24" x 36"
►► Rubber Universal Guard — Black	
062424	24" x 24"
062430	24" x 30"
062436	24" x 36"

►► Koneta 1/2" Nyracord® Rubber Anti-Sail & Anti-Spray Safety Guard

- Tough anti-sail and anti-spray performance
- Designed to release snow and ice during winter driving conditions

►► Protecteur Anti-Projection et Anti-Arrosage en Caoutchouc 1/2" Koneta Nyracord®

- Performance robuste anti-projection et anti-arrosage
- Conçu pour relâcher la neige et la glace pendant la conduite en hiver

►► Protector de Caucho Nyracord® de Koneta, de 1/2", que no Onde ni Salpica

- Desempeño resistente, que no ondea ni salpica
- Diseñado para dejar caer la nieve y el hielo cuando se maneja en invierno

Part No.	Description
082424	24" x 24"
082430KRC	24" x 30"
082436	24" x 36"
082440KRC	24" x 40"

►► Koneta 1/2" Nyracord® Rubber Anti-Sail Splash Guards

- Steel reinforced to prevent whipping and sailing

►► Pare-Éclaboussures Anti-Projection en Caoutchouc 1/2" Koneta Nyracord®

- Armé d'acier pour empêcher le battage au vent et la projection

►► Salpicaderos de Caucho Nyracord® de Koneta, de 1/2", que no Onde ni Salpica

- Reforzados con acero para evitar que revoloteen y ondeen

Part No.	Description
012424KRC	24" x 24"
012430KRC	24" x 30"
012436KRC	24" x 36"

►► Koneta 3/8" Ultra-Rubber™ Premium Anti-Sail and Anti-Spray Guard

- Patented spray-suppression system directs road spray downward and promotes the release of snow and ice

- Enhanced Anti-spray and Anti-sail performance

►► Protecteur Anti-Projection et Anti-Arrosage en Caoutchouc 3/8" Koneta Ultra-Rubber™

- Le système breveté de suppression de l'arrosage oriente les gouttelettes vers le bas et favorise le relâchement de la neige et la glace

- Performance améliorée anti-projection et anti-arrosage

►► Protector de Caucho de Primera Calidad Ultra-Rubber™ de Koneta, de 3/8", que no Onde ni Salpica

- Sistema patentado para contener las salpicaduras; dirige las salpicaduras del camino hacia abajo y deja caer la nieve y el hielo
- Desempeño mejorado contra las salpicaduras y el ondeo

Koneta Nyracord® and Ultra-Rubber™

Nyracord is a unique blend of rubber and nylon cord that has been combined to produce a tough, durable matting material. This material is ideally suited for use in mud flap construction where good oil and abrasion resistance is a necessity.

Ultra-Rubber is a blend of the best characteristics of rubber splash guards and the best of plastic, providing outstanding toughness even in temperature extremes.

Koneta Nyracord® et Ultra-Rubber™

Le Nyracord est un mélange unique de caoutchouc et de corde de nylon qui ont été fusionnés pour produire un matériau de tapis robuste et durable. Ce matériau est idéal pour la fabrication des bavettes garde-boue, où une bonne résistance à l'huile et à l'abrasion est nécessaire.

L'Ultra-Rubber est un mélange des meilleures caractéristiques des pare-éclaboussures en caoutchouc et en plastique, procurant une solidité exceptionnelle même lors des températures extrêmes.

Nyracord® y Ultra-Rubber™ de Koneta

Nyracord es una mezcla exclusiva de caucho y de cuerda de nylon, combinada para crear un material resistente y duradero para alfombrillas. Este material es ideal para hacer faldones que sean resistentes al aceite y a la abrasión.

Ultra-Rubber es una mezcla de las mejores características de los salpicaderos de caucho y lo mejor del plástico; lo que proporciona una resistencia sobresaliente, incluso a temperaturas extremas.

► Hellcat Spring-Loaded Conspicuity Mud Flap Brackets

- Features new Pivottrax technology
- Frame seat accepts studs in either 1.125" or 2.5" hole patterns
- Endcap adjusts to accommodate all mud flap thicknesses
- Rubber gasket helps isolate road and engine vibration

The "Pivot" in Pivottrax technology means that, when caught by landing gear, the bracket will pivot and resist hanging up unevenly when released. It comes back completely and totally to its original designed position.

► Fixations à Ressort pour Bavettes Garde-Boue Conspicuity Hellcat

- Avec la nouvelle technologie Pivottrax
- Le siège du châssis accepte les goujons à intervalles de 1,125" ou 2,5"
- Le bouchon d'extrémité s'ajuste pour s'adapter à toutes les épaisseurs de bavettes garde-boue
- Le joint en caoutchouc aide à amortir les vibrations de la route et du moteur

Le « pivot » dans Pivottrax signifie que, si elle est attrapée par la béquille, la fixation pivotera et ne restera pas suspendue de façon inégale lorsqu'elle sera libérée. Elle se replace complètement à sa position destinée.

► Soportes Hellcat con Resorte, para Faldones, de Apariencia Llamativa

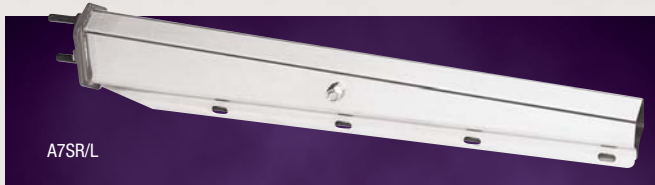

- Ofrecen la nueva tecnología Pivottrax
- El asiento del marco acepta vástagos con un patrón de 1,125" o de 2,5"
- La tapa del extremo se ajusta a faldones de cualquier grosor
- La empaquetadura de goma ayuda a aislar al faldón de la vibración del camino y del motor

El pivote de la tecnología Pivottrax significa que, al engancharse con el mecanismo de puesta a tierra, el soporte gire y evite colgar en forma dispareja al soltarse. Se devuelve completamente a la posición original.

Quarter Fender Accessories

- Accessoires pour Garde-Boue
- Accesorios para la Cubierta de un Cuarto de la Salpicadera

Part No.	Description
▶▶ Fender Plug	
GMX1127	Chromed, for early RT1176 and RT1177

GMX1127

- Durable 18-gauge formed metal
- 25" fender shield width provides enhanced spray suppression
- Tube cradle support for added rigidity
- Métal profilé durable de calibre 18
- La largeur de 25" du garde-boue améliore la suppression de l'arrosage
- Berceau de soutien tubulaire pour une rigidité accrue
- Durable metal formado, de grosor No. 18
- Escudo de 25" de ancho para la salpicadera, con capacidad mejorada para eliminar los salpicones
- Soporte tipo cuna para el tubo, para mayor rigidez

Extreme Weather Polyline Braceless Quarter Fender

- High density polyethylene construction is guaranteed not to chip, crack or break
- 25" fender shield width
- Molded tube cradle support for added rigidity
- Tested to -100°F without failure

GMX1900K1T

- Garde-Boue sans Renfort
- Polyline pour Conditions Climatiques Sévères
- La pièce en polyéthylène haute densité est garantie contre l'écaillage, la fissuration et le bris
- Garde-boue large de 25 pouces
- Berceau de soutien tubulaire moulé pour une rigidité accrue
- Éprouvé jusqu'à -100 °F sans défaillance
- Cubierta de Polyline para un Cuarto de la Salpicadera, Resistente a la Intemperie
- Se garantiza que su polietileno de alta densidad no se descascara, cuarteo ni rompe
- Escudo de 25" de ancho para la salpicadera
- Soporte moldeado tipo cuna para el tubo, para mayor rigidez
- Superó sin fallas la prueba a -100° F

Inline LED Lights & Accessories

Lumières DEL et Accessoires Inline ● Luces de Diodos LED y Accesorios Inline

INLINE: OEM-Quality Products for Critical Components

The LED Advantage

- Light emitting diodes produce light without the use of a filament, making them a safer, more durable, energy efficient alternative to incandescent lighting

More Durable

- 100,000 hour life equals a decade of normal use
- Virtually impervious to shock and vibration
- Completely sealed for protection from the elements
- Internal components are encapsulated in epoxy for resistance to moisture and corrosion
- Polycarbonate lenses reduce impact damage

Safer

- Brightness increases vehicle conspicuity
- Instantaneous illumination means more reaction time for trailing vehicles

DOT Approved

- Complies with FMVSS 108/CMVSS 108

Energy Efficient

- Up to 85% less power consumption means more power for other vehicle applications

Warranty

INLINE LED lamps are covered by a ten-year, unlimited miles replacement parts warranty to the original purchaser. During this period any INLINE LED lamp that fails due to a defect in materials or workmanship will be replaced free by any Kenworth authorized dealer. The warranty does not apply to certain severe applications or chemical agents. The standard internal multiple pin connector integral to the lamp is covered by a five-year, unlimited miles replacement parts warranty. Other limitations and exceptions may apply. See your authorized dealer for details.

INLINE : Produits de Qualité Fournis par des Équipementiers pour les Composants Critiques

L'Avantage des DEL

- Les diodes électroluminescentes n'ont pas besoin de filament pour produire de la lumière, ce qui fait d'elles une alternative plus sûre, plus durable et plus écoénergétique à l'éclairage incandescent.

Plus Durables

- Leur durée de vie de 100 000 heures équivaut à dix années d'usage normal
- Elles résistent presque complètement aux chocs et aux vibrations
- Elles sont complètement scellées pour offrir une protection contre les éléments
- Les composants internes sont encapsulés dans de la résine époxyde afin de résister à l'humidité et à la corrosion
- Les lentilles en polycarbonate réduisent les dommages causés par les impacts

Plus Sécuritaire

- La luminosité augmente la perceptibilité du véhicule
- L'illumination instantanée accorde aux véhicules qui suivent davantage de temps pour réagir

Approuvées par le DOT

- Respecte les normes FMVSS 108/CMVSS 108

Écoénergétiques

- Leur consommation en énergie réduite de 85 % signifie qu'il reste davantage d'énergie pour d'autres applications

Garantie

Les lumières à DEL INLINE sont couvertes par une garantie de dix ans, distance illimitée, à l'acheteur original, pour les pièces de remplacement. Pendant cette période, une lumière à DEL INLINE qui fait défaut en raison d'une défaillance de matériel ou de main-d'œuvre sera remplacée gratuitement par n'importe quel concessionnaire autorisé Kenworth. La garantie ne s'applique pas à certaines applications intensives ou à des produits chimiques. Le connecteur interne standard à multiples broches est couvert par une garantie de cinq ans, distance illimitée, pour les pièces de remplacement. D'autres limitations et exceptions peuvent s'appliquer. Demandez des détails à votre concessionnaire autorisé.

Inline: Productos de Calidad Original para Componentes de Importancia Crítica

La Ventaja de los Diodos

Electroluminiscentes (LED)

- Los diodos electroluminiscentes producen luz sin emplear un filamento, lo que los hace más seguros y duraderos, y los convierte en la alternativa de menor consumo de energía a las luces incandescentes

Más Duraderos

- Una vida útil de 100.000 horas equivale a una década de uso normal
- Son prácticamente inmunes a los choques y las vibraciones
- Completamente sellados, para protegerse de la intemperie
- Los componentes internos están encapsulados en epoxy, para resistir a la humedad y la corrosión
- Los cristales de polycarbonato reducen los daños causados por impactos

Más Seguros

- Su resplandor aumenta la visibilidad del vehículo
- La iluminación instantánea significa un mayor tiempo de reacción para los vehículos que vienen atrás

Aprobados por el Ministerio de Transporte

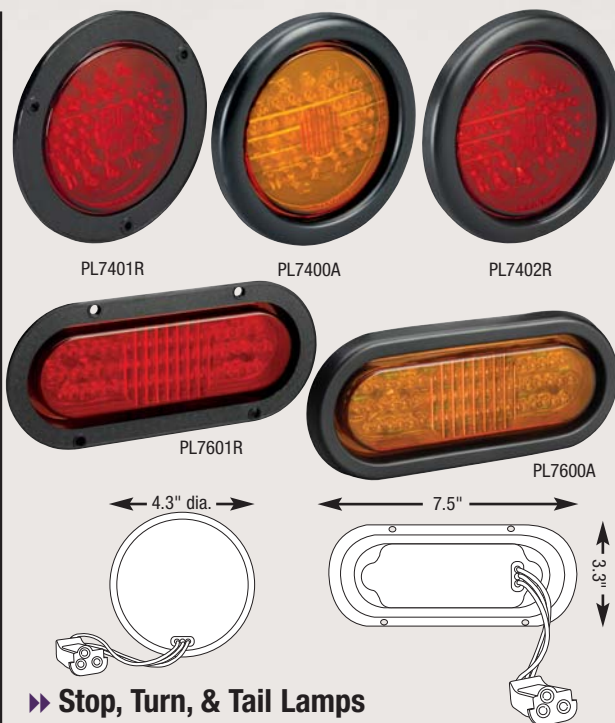

- Cumplen la norma FMVSS 108 / CMVSS 108

De Bajo Consumo de Energía

- Un consumo hasta de 85% menos energía significa mayor potencia para otras funciones del vehículo

Garantía

Las luces de diodos LED Inline están amparadas por una garantía de reposición de piezas de diez años, sin límite de kilometraje, al comprador original. Durante este lapso, cualquier luz de diodo Inline que falle debido a defectos de materiales o de mano de obra será repuesta sin costo por cualquier distribuidor autorizado Kenworth. La garantía no cubre ciertos usos intensivos ni las sustancias químicas. El conector interno estándar de varias clavijas, que forma parte integral de la luz, está amparado por una garantía de reposición de piezas de cinco años, sin límite de kilometraje. Pueden existir otras limitaciones y excepciones. Obtenga mayor información de su distribuidor autorizado.

► Stop, Turn, & Tail Lamps

- Hardwired, with standard 3-pin connector
- Draws approximately 345 milliamps at 12.8 volts
- UV resistant polycarbonate lens
- Round lamps use with bezel GMX0102 or GMX0106; Oval lamps use with bezel GMX0104 or GMX0107

► Feux d'Arrêt, Signaux de Virage et Feux de Freinage

- Déjà câblés, avec un connecteur standard à 3 broches
- Soutirent environ 345 milliampères à 12,8 volts
- Lentilles en polycarbonate résistant aux ultraviolets
- Les feux ronds doivent être utilisés avec la plaque d'encastrement GMX0102 ou GMX0106; les feux ovales doivent être utilisés avec la plaque d'encastrement GMX0104 ou GMX0107

► Luces de Frenos, de Cambio de Canal y de la Parte Posterior

- Vienen cableadas con el conector estándar de 3 clavijas
- Consumen aproximadamente 345 miliamperios a 12,8 voltios
- Cristal de polycarbonato, resistente a los rayos UV
- Las luces redondas usan la luneta GMX0102 o GMX0106; las luces ovaladas usan la luneta GMX0104 o GMX0107

Part No.	Description
► 44 LED 4" Round	
PL7401R	Red STT, flange mount
PL7400R	Red STT, grommet mount
PL7401A	Amber STT, flange mount
PL7400A	Amber STT, grommet mount

Inline LED Lights & Accessories

Lumières DEL et Accessoires Inline ● Luces de Diodos LED y Accesorios Inline

►► Clearance & Marker Lamps

- Uses standard 2-pin connection
- UV resistant polycarbonate lens
- Round and beehive versions available
- 13 LED use with bezel GMX0101 or GMX0105; 9 LED use with bezel GMX1615 or GMX1616

►► Feux de Gabarit et d'Encombrement

- Utilisent des raccords standard à 2 broches
- Lentilles en polycarbonate résistant aux ultraviolets
- Disponibles en version ronde et en version conique
- Le modèle à 13 DEL doit être utilisé avec la plaque d'encastrement GMX0101 ou GMX0105; le modèle à 9 DEL doit être utilisé avec la plaque d'encastrement GMX1615 ou GMX1616

►► Luces de Espacio Libre e Indicadoras

- Usa una conexión estándar de 2 clavijas
- Cristal de policarbonato, resistente a los rayos UV
- Disponible en versión redonda o de panal
- La luz de 13 diodos usa la luneta GMX0101 o GMX0105; la luz de 9 diodos usa la luneta GMX1615 o GMX1616

Part No.	Description
►► 13 LED 2-1/2" Round	
PL7100R	Red round clearance marker lamp
PL7100A	Amber round clearance marker lamp
PL7102R	Red beehive clearance marker lamp
PL7102A	Amber beehive clearance marker lamp

Part No.	Description
►► 9 LED 2" Round	
PL7300R	Red round clearance marker lamp
PL7300A	Amber round clearance marker lamp
PL7302R	Red beehive clearance marker lamp
PL7302A	Amber beehive clearance marker lamp

►► Round Combination Clearance & Marker Lamps

- Uses standard 2-pin connection
- UV resistant polycarbonate lens
- Meets P2PC requirements for 45° mounting
- 7 LED use with bezel GMX0101 or GMX0105; 5 LED use with bezel GMX1615 or GMX1616

►► Feux de Gabarit et d'Encombrement Ronds Combinés

- Utilisent des raccords standard à 2 broches
- Lentille en polycarbonate résistant aux ultraviolets
- Satisfont les exigences P2PC pour une fixation à 45°
- Le modèle à 7 DEL doit être utilisé avec la plaque d'encastrement GMX0101 ou GMX0105; le modèle à 5 DEL doit être utilisé avec la plaque d'encastrement GMX1615 ou GMX1616

►► Luces Redondas Combinadas, de Espacio Libre e Indicadoras

- Usa una conexión estándar de 2 clavijas
- Cristal de policarbonato, resistente a los rayos UV
- Cumple con los requisitos de la norma P2PC para el montaje en 45°
- La luz de 7 diodos usa la luneta GMX0101 o GMX0105; la luz de 5 diodos usa la luneta GMX1615 o GMX1616

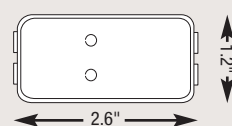

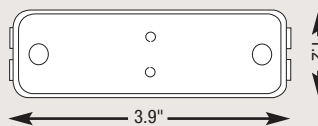

Part No.	Description
►► 7 LED 2-1/2" Round	
PL7101R	Red round combination clearance marker lamp
PL7101A	Amber round combination clearance marker lamp
►► 5 LED 2" Round	
PL7301R	Red round combination clearance marker lamp
PL7301A	Amber round combination clearance marker lamp

Inline LED Lights & Accessories

Lumières DEL et Accessoires Inline ● Luces de Diodos LED y Accesorios Inline

EXTERIOR

▶ Rectangular Clearance & Marker Lamps

- 12 LED replaces Truck-Lite Model 19; 8 LED replaces Truck-Lite Model 15
- Uses standard 2-pin connection

▶ 2 LED Oval Clearance & Marker Lamps

- Uses standard 2-pin connection
- UV resistant polycarbonate lens
- Comes with chrome bezel
- Made in the USA

▶ Feux de Gabarit et d'Encombrement Ovale à 2 DEL

- Utilisent des raccords standard à 2 broches
- Lentilles en polycarbonate résistant aux ultraviolets
- Fournis avec une plaque d'encastrement en chrome
- Fabriqués aux États-Unis

▶ Luces Ovaladas de Espacio Libre e Indicadoras, de 2 Diodos (LED)

- Usa una conexión estándar de 2 clavijas
- Cristal de policarbonato, resistente a los rayos UV
- Viene con luneta cromada
- Hecho en EE. UU.

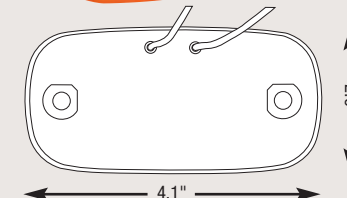

Part No.	Description
PL7160R	Red clearance marker lamp
PL7160A	Amber clearance marker lamp
PL7160RC	Red clearance marker lamp with clear lens
PL7160AC	Amber clearance marker lamp with clear lens

▶ 16 LED Double Bulls-Eye Clearance & Marker Lamps

- Uses standard 2-pin connection
- UV resistant polycarbonate lens
- Use with bezel GMX8973

▶ Feux de Gabarit et d'Encombrement Doubles à 16 DEL en Forme d'œil de bœuf

- Utilisent des raccords standard à 2 broches
- Lentilles en polycarbonate résistant aux ultraviolets
- S'utilisent avec la plaque d'encastrement GMX8973

▶ Luz de Espacio Libre e Indicadora, de Tipo Ojo de Buey Doble, con 16 Diodos (LED)

- Usa una conexión estándar de 2 clavijas
- Cristal de policarbonato, resistente a los rayos UV
- Para usar con la luneta GMX8973

Part No.	Description
PL7120R	Red clearance marker lamp
PL7120A	Amber clearance marker lamp

▶ 4 LED Oblong Clearance & Marker Lamps

- Popular oblong design
- Uses standard 2-pin connection
- UV resistant polycarbonate lens
- Comes with chrome bezel
- Made in the USA

PL7141A

▶ Feux de Gabarit et d'Encombrement Allongés à 4 DEL

- Conception allongée très prisée
- Utilisent des raccords standard à 2 broches
- Lentilles en polycarbonate résistant aux ultraviolets
- Fournis avec une plaque d'encastrement en chrome
- Fabriqués aux États-Unis

▶ Luces Alargadas de Espacio Libre e Indicadoras, de 4 Diodos (LED)

- Diseño alargado popular
- Usa una conexión estándar de 2 clavijas
- Cristal de policarbonato, resistente a los rayos UV
- Viene con luneta cromada
- Hecho en EE. UU.

Part No.	Description
PL7140R	Red clearance marker lamp
PL7140A	Amber clearance marker lamp

Accessoires Divers pour l'Extérieur ● Accesorios Exteriores Misceláneos

►► Aerocab Conversion Kit

Convert T600, T800, and W900 Aerocab sleepers into day cabs with this conversion kit designed and engineered by Kenworth. Maximize vehicle resale value with proper OEM fit and finish. Unique one-piece design reduces installation time by approximately 50% over other brands, increases cab interior by 6", seat travel by 2", and rearwall storage by 2 cubic feet.

Complete conversion kit consists of:

- 1 back panel
- 1 cab structure kit
- 1 soft trim kit
- 1 hard trim kit

►► Trousse de Conversion pour Aerocab

Transformez les cabines couchettes Aerocab T600, T800 et W900 en cabines de jour au moyen des trousse de conversion conçues par les ingénieurs de Kenworth. A un prix attrayant, cette conception en une pièce augmente l'espace à l'intérieur de la cabine, l'espace du siège de voyage et l'espace de rangement arrière. Il rehausse également la valeur de revente en raison de sa capacité d'utilisation avec les équipements des équipementiers appropriés et de son fini.

La trousse de conversion complète comprend :

- Un panneau arrière
- Un bâti de cabine prêt à assembler
- Un jeu de garnitures souples
- Un jeu de garnitures dures

►► Juego de conversión de Aerocab

Convierta los dormitorios Aerocab T600, T800, y W900 en cabinas de uso diario, con el juego de conversión diseñado y fabricado por Kenworth. Su diseño de una sola pieza, de precio atractivo, aumenta el espacio interior, el recorrido del asiento, la capacidad de almacenamiento de la pared trasera y el precio de reventa del vehículo, con un ajuste y un acabado original correcto.

El juego de conversión completo está formado por:

- 1 panel trasero
- 1 juego estructural para la cabina
- 1 juego de marcos acojinados
- 1 juego de marcos rígidos

Heavy-Duty Radios

Panasonic has been building specially designed radios for trucks longer than anybody.

Panasonic heavy-duty radios are different because they are built with the trucker in mind. Their stout design is only the beginning. They have dual-function displays that show both time and radio frequency—no need to push a button—and L.E.D. lighting that will never burn out.

Each heavy-duty radio features a built-in alarm clock. Some have an input for a temperature probe so it can be displayed on the face of the radio.

Visit your local Kenworth dealer to view the full lineup of Panasonic heavy-duty radios. Whether you want a cassette or CD player, they have the right model for your truck!

Radios Robustes

Panasonic a été le premier à fabriquer des radios spécialement conçues pour les camions.

Les radios robustes Panasonic sont différentes parce qu'elles sont conçues spécialement pour le camionneur. Leur conception solide n'est que le premier élément. Elles possèdent des afficheurs doubles qui montrent à la fois l'heure et la fréquence radio, sans devoir appuyer sur un bouton, et qui sont dotés d'une DEL qui ne grillera jamais.

Chaque radio robuste contient un réveil intégré. Certaines d'entre elles ont un port d'entrée pour une sonde de température, qui permet d'afficher la température sur la radio.

Visitez votre concessionnaire local Kenworth afin de voir toute la gamme des radios robustes Panasonic. Que vous vouliez avoir un lecteur de cassettes ou de CD, nous avons le modèle convenant à votre camion!

Radios Superresistentes

Panasonic ha estado fabricando radios de diseños especiales para camiones por más tiempo que otras compañías.

Los radios superresistentes de Panasonic son distintos, ya que se fabrican pensando en los camioneros. Su sólido diseño es sólo el principio. Tienen pantallas de doble función que muestran tanto la hora como la frecuencia radial—sin tener que oprimir un botón—e iluminación por diodos (LED) que nunca se queman.

Cada radio superresistente viene con un reloj de alarma integrado. Algunos tienen entradas para sondas de temperatura, de modo que la misma pueda aparecer en la pantalla del radio.

Visite su distribuidor Kenworth más cercano para ver la línea completa de radios superresistentes de Panasonic. Bien sea que quiera un reproductor de cassettes o de CD, encontrará el modelo perfecto para su camión!

▶▶ Panasonic® Stereo Truck Radios with Cassette or CD Play

- Designed to withstand the rigors of the road
- Tape mechanisms and CD players are mounted on a floating "anti-shock" suspension
- Super bright LED display is easier to read than typical pilot lights

▶▶ Radios Stéréo Panasonic® pour Camions avec Lecteur de Cassettes ou de CD

- Conçues pour résister aux rigueurs de la route
- Le mécanisme des lecteurs de cassettes et de CD sont fixés sur une suspension flottante « anti-chocs »
- L'afficheur à DEL très brillant est plus facile à lire que les lampes-témoin habituelles

Part No.	Description
▶▶ Truck Radios with Cassette Play	
CQ4300-3A	Radio/HD cassette with 7 channel band radio
CQ2100B3A	AM/FM Radio/cassette with 7 channel weatherband radio

▶▶ Panasonic® CX-DP88 8-Disc CD Changer

- 8-disc changer in the size of a 6-disc model
- Anti-shock floating mechanism
- Heavy duty power supply circuit
- Isolated audio cable free from control signal noise

▶▶ Changeur de CD Panasonic® CX-DP88 à 8 Disques

- Le changeur à 8 disques a la même dimension qu'un changeur à 6 disques
- Mécanisme flottant anti-chocs
- Circuit d'alimentation électrique robuste
- Câble audio isolé, sans interférence des signaux de contrôle

▶▶ Cambiador de CD Panasonic® CX-DP88, para 8 CD

- Cambiador para 8 discos, con el tamaño de un modelo para 6 discos
- Mecanismo flotante contra-impactos
- Circuito de fuente de poder superresistente
- Cable de audio aislado, sin ruidos de la señal de control

Part No.	Description
CXDP880	8-disc CD changer

CQ4300-3A

CQ5300-3A

▶▶ Radios Estereofónicos Panasonic® para el Camión, con Reproductor de Casetes o de CD

- Diseñados para tolerar las condiciones del camino
- Los mecanismos del reproductor de cassetes y de CD están montados sobre un mecanismo de suspensión flotante "contra-impactos"
- La pantalla superbrillante con diodos es más fácil de leer que las luces piloto comunes

Part No.	Description
CQ2000B3A	Radio/cassette
CQ1000	Radio/cassette with auto reverse
▶▶ Truck Radios with CD Play	
CQ5300-3A	Radio/CD player with dual function display and alarm clock

▶▶ Panasonic® CD Changer FM Modulator

- No need to connect to your vehicle sound system
- Plays CDs through your existing vehicle FM receiver

▶▶ Changeur de CD Panasonic® avec Modulateur FM

- N'a pas à être branché à la chaîne audio de votre camion
- Permet de jouer des CD par le récepteur FM existant de votre véhicule

▶▶ Cambiador de CD y Modulador de FM Panasonic®

- No necesita conectarlo al sistema de sonido de su vehículo
- Reproduce CD a través del receptor FM existente de su vehículo

Part No.	Description
CHMS665RF	CD Changer FM Modulator

▶▶ Panasonic® 4-Inch Coaxial Speakers

- Includes speaker grille

1 each per package

▶▶ Hauts-Parleurs Coaxiaux Panasonic® de 4 Pouces

- Comprend une grille pour le haut-parleur

1 par paquet

▶▶ Altavoces Coaxiales Panasonic® de 4 Pulgadas

- Viene con parrilla para el altavoz

1 de cada uno por paquete

► Cobra Professional CB Microphones

- 9' HighFlex™ cord
- Wire mesh grille
- Heavy-duty ABS
- shell
- 4-pin connector
- 1-year warranty

► Microphones Professionnels pour Radio BP Cobra

- Cordon Highflex® de 9'
- Grillage métallique
- Boîtier robuste en plastique ABS
- Connecteur à 4 broches
- Garantie d'un an

► Micrófonos Cobra de Uso Profesional para Banda Ciudadana (CB)

- Cable HighFlex® de 9' de largo
- Parrilla de malla
- Conector de 4 patas
- Cubierta superresistente de ABS
- Garantía de 1 año

Part No.	Description
HGM73	Dynamic hand Mic
HGM75	Power hand Mic
HGM77	Noise canceling hand Mic
HGM84W	High-gear Mic with wood grain

► Cobra AC Power Inverters

- Convert 12VDC to 120VAC
- Features mounting ears so unit can be mounted out of sight
- Available in 150, 500, 700, 1000, and 2000 watt versions

All three of these power inverters feature thermal shutdown, reverse-polarity protection, over-voltage shutdown, low-voltage shutdown and low-voltage alarm.

► Convertisseurs Continu-Alternatif Cobra

- Convertit 12 V CD à 12 V CA
- Peut être installé hors de la vue
- Disponibles en modèles de 150, 500, 700, 1000 et 2000 watts

Ces trois convertisseurs possèdent des fonctions d'arrêt thermique, de protection contre la polarité inverse, d'arrêt en cas de surtension, d'arrêt en cas de faible tension et d'alarme de faible tension.

► Cobra Inversores Energía AC

- Convierten 12VCD en 120VAC
- Poseen orejas para montaje de manera que la unidad puede montarse donde no se vea
- Disponibles en versiones de 150, 500, 700, 1000 y 2000 watts

Estos inversores de energía ofrecen apagado térmico, protección inversión-polaridad, apagado exceso-voltage, apagado bajo-voltage y y alarma bajo-voltage.

Part No.	Description
CP1800	500-watt continuous/1000-watt surge
CP11500	1000-watt continuous/2000-watt surge

► Cobra CB Radios with NightWatch® Illumination

- 40 CB Channels
- Switchable noise blanker for increased noise reduction
- NightWatch® illuminated front panel with dimmer control
- SWR Calibration
- Front panel microphone connector
- 9' microphone cord

► Radios BP Cobra avec Éclairage NightWatch®

- 40 canaux BP
- Supprimeur de bruit commutable pour une réduction accrue du bruit
- Panneau avant avec éclairage NightWatch® avec gradateur
- Calibrage ROS
- Prise pour micro sur panneau avant
- Cordon de 9' pour micro

► Radios de Banda Ciudadana Cobra, con Iluminación NightWatch®

- 40 canales de banda ciudadana
- Interruptor para anular ruidos, que reduce aún más el ruido
- Tablero delantero con control atenuador, iluminado con sistema NightWatch®
- Calibración de la relación de la onda estacionaria (ROE)
- Toma para el micrófono en el tablero delantero
- Cable para micrófono de 9' de largo

Part No.	Description
25NW	Classic CB radio, with 7 NOAA weatherband channels
29NW	Premium CB radio, with 7 NOAA weatherband channels

► Cobra Standard CB Radio with NOAA Weather

► Radio BP Standard Cobra avec Météo Provenant de NOAA

► Radio Cobra Común de Banda Ciudadana, con Canal del Tiempo NOAA (Administración Nacional Atmosférica y Oceánica de EE. UU., por Sus Siglas en Inglés)

Part No.	Description
18WXST11	Standard CB Radio with 3 NOAA Weatherband Channels

► Engine Block Heater Lights

- Dual-light system with specially designed wire harness enables fleet personnel to quickly determine power availability and heater operation
- Can be retrofitted to existing ZEROSTART™ heavy-duty heaters
- Indicator lights visible up to 50 feet
- Chrome-plated, four-hole mount, square-flanged weatherproof receptacle
- Molded, one-piece weatherproof power cord
- Thermostat option operating range: 100°–120°F (38°–49°C) greatly reduces energy consumption
- Mounting plate dimensions: 3.56" x 2.56" (65mm x 90mm)
- 120V–15 Amp rating
- CSA approved

1 kit per package

► Lumières pour Chauffe-Blocs

- Le système à lumière double avec harnais métallique spécialement conçu permet au personnel de la flotte de vérifier rapidement la disponibilité de l'alimentation et le fonctionnement du chauffe-bloc
- Peut être adapté aux chauffe-blocs robustes existants ZEROSTART™
- Lampes témoin visibles jusqu'à 50'
- Boîtier à bride carrée, à l'épreuve de l'eau, à quatre trous, chromé
- Cordon d'alimentation moulé, monopiece, à l'épreuve de l'eau
- Intervalle de fonctionnement du thermostat : 100° à 120°F (38° à 49° C); réduit de beaucoup la consommation d'énergie
- Dimensions de la plaque de montage : 3,56" x 2,56" (65 mm x 90 mm)
- Valeur nominale : 120 V, 15 A
- Homologué par le CSA

1 trousse par paquet

► Luces del Calefactor para el Bloque del Motor

- Sistema de dos luces con arnés de cables especialmente diseñado, que permite que el personal de la flotilla determine fácilmente si se dispone de energía y si el calefactor funciona
- Puede ser readaptado a los calefactores ZEROSTART™ de uso industrial existentes
- Las luces indicadoras son visibles hasta a 50 pies de distancia
- Cromado, con montura de cuatro orificios, toma cuadrada y con reborde, a prueba de intemperie
- Cable eléctrico moldeado, de una sola pieza, a prueba de intemperie
- Termostato opcional con límite de operación de 100° a 120° F (38° a 49° C), que reduce en gran medida el consumo de energía
- Tamaño de la placa de montura: 3.56" x 2.56" (65 mm x 90 mm)
- Corriente nominal de 15 amperios y 120 V
- Aprobado por CSA

1 juego por paquete

► High-Capacity Heater Kit	
330-0092	Indicator light with high-capacity heater

Cab & Engine Heaters

Équipement de Chauffage des Moteurs et des Cabines • Calefactores para la Cabina y el Motor

▶▶ Webasto Tandem 717 Sleeper Air Heater and Engine Preheat Kit

- Combines the TSL 17 Coolant Heater and Air Top 2000 Air Heater Kits
- Eliminates the need to idle for sleeper heat or engine preheat

▶▶ Trousse de Préchauffage du Moteur et Chauffe-Air de Cabine Webasto Tandem 717

- Combine les trousse d'équipement de chauffage pour liquide de refroidissement TSL 17 et de chauffe-air Air Top 2000
- Élimine le besoin de fonctionner au ralenti pour réchauffer la cabine ou préchauffer le moteur

▶▶ Juego de Calefactor para el Dormitorio y de Calefactor para Calentar el Motor Webasto Tandem 717

- Combina los juegos de calefactor para enfriador TSL 17 y de calefactor de aire Air Top 2000
- Elimina la necesidad de mantener el motor en marcha para calentar el dormitorio o el motor

Part No.	Description
923058WNA	Webasto Tandem 717 heater kit

▶▶ Webasto Air Top 3500 Sleeper Heater Kit

- Heat output — up to 12,000 BTU/h
- 3.0 Amp/h power consumption on high setting
- Up to 9 hours of operation on 1 gallon of fuel

▶▶ Trousse de Chauffage pour la Cabine Webasto Air Top 3500

- Chaleur produite : jusqu'à 12 000 BTU/h
- Consommation d'énergie de 3,0 A/h au réglage le plus élevé
- Peut fonctionner pendant 9 heures avec un gallon d'essence

▶▶ Juego de Calefactor para el Dormitorio Webasto Air Top 3500

- Salida térmica — hasta de 12,000 BTU/h
- Consume 3.0 amperios/h de energía en el modo elevado
- Rinde hasta 9 horas de funcionamiento por galón americano de combustible

CA206985	HEATER-BUNK Airtronic D2
CA221920	HEATER -Engine Pre-Heater Hydronic 5

▶▶ Webasto Air Top 2000 Sleeper Heater Kit

- Heat output — variable 3,100 to 7,000 BTU/h
- Low 0.75 to 1.8 Amp/h power consumption
- Lightweight, compact, and quiet
- Up to 20 hours of heating on a gallon of fuel
- Fuel type — diesel #1, #2, Arctic
- Full variable temperature control
- Blink-code diagnostics with PC interface

▶▶ Trousse de Chauffage pour la Cabine Webasto Air Top 2000

- Chaleur produite : variable, 3 100 à 7 000 BTU/h
- Faible consommation d'énergie de 0,75 à 1,8 A
- Légère, compacte et silencieuse
- Peut chauffer pendant 20 heures avec un gallon d'essence
- Type d'essence : diesel #1, #2, Arctic
- Contrôle de température entièrement variable
- Diagnostics avec code de clignotement avec interface pour ordinateur

▶▶ Juego de Calefactor para el Dormitorio Webasto Air Top 2000

- Salida térmica — regulable entre 3,100 y 7,000 BTU/h
- Bajo consumo de energía, de 0.75 a 1.8 amperios/h
- Liviano, compacto y silencioso
- Rinde hasta 20 horas de calefacción por galón americano de combustible
- Tipo de combustible: Diesel No. 1, No. 2, ártico
- Control de temperatura completamente ajustable
- Diagnóstico por encendido y apagado de luces, con interfase para PC

- Opera con 12-24VDC
- Refrigeradora y congela (compartimiento congelador separado)
- Compresor Danfoss BD35F (BD50F en el modelo RPD190)

Part No.	Description	Dimensions / Weight
RPD50	1.7 cu.-ft., 12-24VDC	15"W x 20.5"H x 19.25"D, 42 lbs.
RPD65	2.3 cu.-ft., 12-24VDC	17.5"W x 20.5"H x 21.12"D, 46 lbs.
RPD80	2.8 cu.-ft., 12-24VDC	18.75"W x 24.75"H x 20.5"D, 52 lbs.
RPD110	3.8 cu.-ft., 12-24VDC	20.5"W x 29.12"H x 21.5"D, 62 lbs.
RPD190	6.6 cu.-ft., 12-24VDC; 110/220 VAC	23.125"W x 52.125"H x 24"D, 99 lbs.

► Waeco Cooly® Road Portable Coolers/Warmers

- Cools up to 36°F below ambient (room) temperature
- Heats up to 149°F
- Operates on 12VDC
- Carrying handles fold away when not in use
- Standing height for standard 2-liter bottles
- Extremely quiet running

► Glacières/Réchauds de Modèle Portatif Waeco Cooly®

- Rafrâchit jusqu'à 2,2° C sous la température ambiante de la pièce
- Réchauffe jusqu'à 65° C
- Fonctionne sur courant 12 VDC
- Poignées de transport repliables lorsque non utilisées
- Capacité de recevoir debout les contenants standards de 2 litres
- Fonctionnement extrêmement silencieux

► Enfriadores/Calentadores Portátiles Waeco Cooly®

- Enfría hasta 36°F bajo temperatura ambiente
- Capacidad de calentamiento de hasta 149°F
- Opera con 12VDC
- Asas que se pliegan cuando no se utilizan
- Capacidad para alojar envases de 2 litros en posición vertical
- Funcionamiento extremadamente silencioso

Part No.	Description	Dimensions / Weight
CR20	21 qt., 12VDC	15.3"L x 17"H x 11.4"W, 9.5 lbs.
CR32	32 qt., 12VDC	18.8"L x 18.5"H x 13"W, 16.8 lbs.

► Waeco Coolmatic® Built-In Refrigerator Drawer

- Fits in confined spaces
- Operates on 12-24VDC
- Versatile mounting options
- Refrigerate or freeze
- Danfoss BD35F compressor
- Extremely quiet operation

► Tirol de réfrigérateur encastré Waeco Coolmatic®

- S'adapte aux espaces restreints
- Fonctionne sur courant 12-24 VDC
- Options d'installation variées
- Réfrigère ou congèle
- Compresseur Danfoss BD35F
- Fonctionnement extrêmement silencieux

► Refrigerador Integrado tipo Cajón Waeco Coolmatic®

- Cabe en espacios confinados
- Opera con 12-24VDC
- Versátiles opciones de montaje
- Refrigeradora o congela
- Compresor Danfoss BD35F
- Funcionamiento extremadamente silencioso

Part No.	Description	Dimensions / Weight
CD30	31 qt., 12-24VDC	17"W x 9.8"H x 28.7"D, 44 lbs.

INTERIOR

▶▶ Norcold® DC-0040 Built-In Refrigerator

- Exceptionally quiet compressor
- Operates on 12-24VDC
- Includes a freezer shelf with ice tray

Dimensions: 15.25"W x 20.5"H x 17.75"D, Weight: 42 lbs, Capacity: 1.7 cu-ft

▶▶ Réfrigérateur Encastré Norcold® DC-0040

- Compresseur extrêmement silencieux
- Fonctionne avec 12-24 V DC
- Comprend une étagère de congélateur avec bac à glaçons

Dimensions : 15,25" de largeur x 20,5" de hauteur x 17,75" de profondeur
Poids : 42 lb Capacité : 1,7^{cu}

▶▶ Refrigerador Integrado Norcold® DC-0040

- Compresor extremadamente silencioso
- Funciona con corriente continua de 12 a 24 V
- Incluye una repisa congeladora con bandeja para cubitos de hielo

Dimensiones: 15.25" ancho x 20.5" alto x 17.75" largo – Peso: 42 lb. – Capacidad: 1.7 pies cúbicos

Part No.	Description
DC0040	1.7 cu-ft, 12-24VDC
DC0040K	DC0040 with PACCAR connector

▶▶ Norcold® DE/DC-0051 Built-In Refrigerator

- Convenient top-mounted controls
- Operates on 12-24VDC and 120VAC (DE model only)
- Large freezer shelf holds an ice cube tray and more

Dimensions: 18-1/2"W x 20-1/2"H x 21"D, Weight: 49 lbs, Capacity: 2.7 cu-ft

▶▶ Réfrigérateur Encastré Norcold® DE/DC-0051

- Commandes commodées sur le dessus de l'appareil
- Fonctionne avec 12-24 V CD et 120 V CA (modèle DE seulement)
- La grande étagère de congélateur contient un bac à glaçons et plus encore

Dimensions : 18-1/2" de largeur x 20-1/2" de hauteur x 21" de profondeur
Poids : 49 lb Capacité : 2,7^{cu}

▶▶ Refrigerador Integrado Norcold® DE/DC-0051

- Prácticos controles instalados en la parte superior
- Funciona con corriente continua de 12 a 24 V y corriente alterna de 120 V (sólo el modelo DE)
- Gran repisa congeladora con capacidad para una bandeja de cubitos de hielo y más

Dimensiones: 18 1/2" ancho x 20 1/2" alto x 21" largo – Peso: 49 lb. – Capacidad: 2.7 pies cúbicos

Part No.	Description
DC0051	2.7 cu-ft, 12-24VDC

▶▶ Panasonic Thermoelectric Mobile Refrigerator

- Advanced heat exchanger provides continuous, reliable cooling
- Operates on 12VDC and includes over/under voltage protection

Dimensions: 15-1/8"W x 21-7/8"H x 20-7/8"D, Weight: 27 lbs, Capacity: 1.34 cu-ft

▶▶ Réfrigérateur Mobile Thermoélectrique Panasonic

- L'échangeur thermique perfectionné fournit un refroidissement continu et fiable
- Fonctionne avec 12 V DC, et comprend une protection contre la surtension et la sous-tension

Dimensions : 15-1/8" de largeur x 21-7/8" de hauteur x 20-7/8" de profondeur
Poids : 27 lb Capacité : 1,34^{cu}

Part No.	Description
NRA4UT1K	1.34 cu-ft, 12VDC

▶▶ Refrigerador Termoelectrico Portátil Panasonic

- Su avanzado intercambiador de calor ofrece una refrigeración continua y fiable
- Funciona con corriente continua de 12 V e incluye protección contra picos de voltaje

Dimensiones: 15 1/8" ancho x 21 7/8" alto x 20 7/8" largo – Peso: 27 lb. – Capacidad: 1.34 pies cúbicos
