UNIT PUMP

UNIT INJECTOR

As Atakul Endustry we are remanufacturing unit pumps, unit injectors, common rail injectors and HPI injectors for European trucks and buses. The products are remanufactured by experienced staff and being tested with latest technology test machines.

- All wearable parts like gaskets, O-rings and bearings are replaced %100 for best performance.
- All products are completely disassembled, thoroughly cleaned and inspected.
- All components are renewed or replaced with new one to ensure best quality and durability.
- The products being assembled by experienced staff, calibrated and tested using OE specifications.

We also produce high quality new fuel feed pumps for commercial vehicles at our factory in Istanbul / Turkey. The fuel feed pumps are manufactured with state of the art latest technology German and Japan CNC machineries. We follow the strict quality controls during production in accordance with ISO 9001. All of the pumps are tested individually after the production.
