Introduction

This reference guide targets high wear items on all Gleaner Rotary Combines. It is intended to help dealers identify OEM parts currently available from AGCO Parts. This guide contains fast-moving, high wear items only. Not included are thousands of additional parts also available from AGCO Parts for these machines. AGCO OEM parts are stocked in U.S. and Canadian parts distribution centers for fast, convenient availability. Now is the time to evaluate your maintenance needs before the busy harvest season.

Processor

The durability of chrome offers performance that typically lasts twice as long as conventional bars.

15

71371520

- All cylinder bars are chrome plated and reversible for extended wear life
- 1/2" spaced bars improve hard threshing cereal crops
- 3/4" spaced bars reduce horsepower requirements, while improving separation and grain quality

FEATURES

Kit Part No. 79028121

- Protects grain from moisture
- Allows overnight storage with grain in the bin
- Fitted and designed specifically for the Gleaner 330 bushel bin extension that comes standard on the R72, R75, and R76
- Quick and easy installation
- Can be quickly disassembled with no tools and stored inside the bin for transportation
- Heavy 18 oz. fabric is coated with UV-inhibitors to resist fading
- Heavy-duty 2-piece steel bows provide support for the cover
- Kit includes cover, 2 bows, and all necessary mounting hardware
