PARTS CATALOG – CATALOGO PARTI DI RICAMBIO – CATALOGUE DES PIECES DETACHEES
ERSATZTEILKATALOG – CATÁLOGO DE PIEZAS DE REPUESTO

⚠ **WARNING**	-	study the operation and maintenance instruction manual through before starting, operating, maintaining, fueling or servicing this machine
⚠ **ATTENZIONE**	-	leggere attentamente il manuale delle istruzioni per l'Uso e la Manutenzione prima di procedere alle operazioni di avviamento, impiego, manutenzione, rifornimento combustibile od altri interventi sulla macchina
⚠ **ATTENTION**	-	lisez attentivement le manuel d'instruction pour la conduite et l'entretien avant d'effectuer les operations de mise en marche, utilisation, entretien, ravitaillement en combustible ou d'autres operations sur l'engin
⚠ **ACHTUNG**	-	Betriebs - und Wartungsanleitung aufmerksam durchlesen, bevor das Gerät angelassen, gefahren, gewartet, betankt oder eingestellt wird
⚠ **ATENCIÓN**	-	lea atentamente el manual de empleo y cuidado antes de poner manos a las operaciones de puesta en marcha, manejo, mantenimiento, repostado de combustible, y otras que fuere

NOTICE

The right is reserved to change the construction or material of any parts where it seems desirable to do so without incurring the obligation of installing such changes on units already delivered.
Additional publications pertaining to this model and to all other FIATALLIS products are available through FIATALLIS dealers. Publications are generally available in several languages.
Refer to Service Publications Index form 604.07.026 for all such publications; the index is available from FIATALLIS.

INSTRUCTIONS FOR ORDERING PARTS

At the time this parts catalog was published the listed part numbers were current. It is our policy to constantly improve our machines and therefore, part numbers and design may change.
When ordering parts, verify part numbers through your dealer's microfiche and master numerical index which are up to date with all the latest part numbers.

ORDER PARTS FROM THE DEALER COVERING THE LOCAL TERRITORY

Orders for spare parts must include the following data (see page 4):

- Model, Serial Number, Engine model, Engine serial number, marked on engine block.
- Specify the part number (shown on Spare Parts Catalog list), possibly completed by it description. If parts refer to an assembly which has a model or serial number, also include this information.
- Give post office address, town, county and state where parts are to be shipped.
- Also specify whether material is to be shipped by freight, express or parcel post.
- Confirm all telephone or telegraph orders in writing.

Parts can only be returned to/through the dealer from whom the parts were purchased and **must have prior written authorisation.** Each return will be treated individually.
Unless claims for shortages or errors are made immediately upon receipt of goods, they will not be considered.
When broken goods are received, a full description of the damage should be made by the carrier agent on the freight bill.
FIATALLIS responsibility is limited, and ceases upon completion of sale conditions provided for each delivery.

https://truckmanualshub.com/

USE OF THE CATALOG

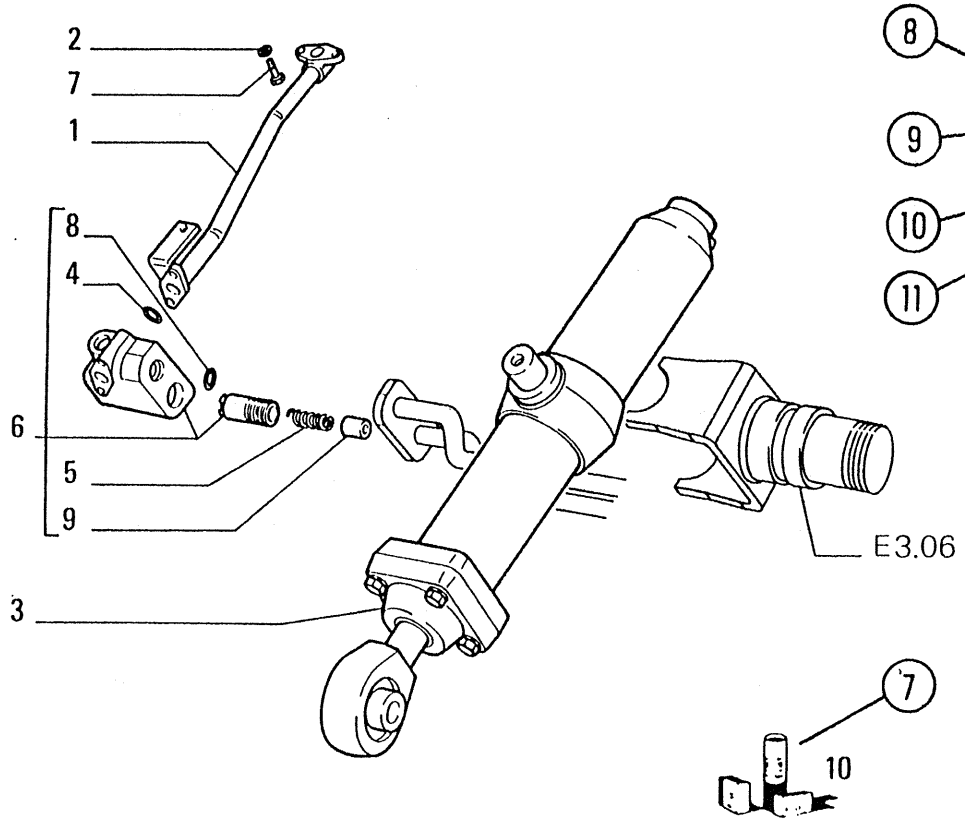

To locate the spare parts correctly, proceed as follows:
a) Consult the **version list** on page 4 to find the code number of the version involved; see following para 1 **(6)**.
b) Consult the illustrations and the associated **spare parts lists** as directed below in **1** and **2**.
c) To identify the component of the possible special equipment of the machine, consult the **optional equipment list** on page **5** to find the code number and subgroup.

1. **Illustrations** (see example on page 2/1)
Illustrations show the spare parts of each subgroup. The spare parts illustrated are identified by a **reference number** (ITEM). This number may be replaced by other indications, for example:
E3.06: Part shown only in subgroup **E3.06**
Moreover, each illustration shows:
— **Subgroup number (1)** — **Sheet number (2)** used when one subgroup covers several sheets, and — **Updating indication (3)**, for example:
Suffix **06**, to print no. **604.01.046**, indicates that subgroup modification is shown in **6th** updating of the catalog dated **23-2-81**. When code **(3)**, is missing, no changes were introduced. **Updating publication description, if any (4)**; **subgroup title (5)** — **version code (6)** whith reference to previous point (a).
In lack of said codes, the illustration applies to all model versions coverd by the catalog.
— **Indication of part kit (7)**, with associated part numbers and part kit symbol. (See page 9 for kit composition).

2. **Spare parts list** (see example on page 2/1)
They list the spare parts of each subgroup contained in the corresponding illustrations. The following is shown for each part:
(8) ITEM: **number associating the part shown with the respective "part number".**
(9) PART NUMBER: **spare part order number.**
(10) Q.TY: **total quantity of the part.** The quantity may be replaced by the following indications:
L = supplied by length, **K** = kit to be ordered in the desired quantity.
(11) TRANS. CODE: **For retrieval of the French, German, Spanish translations** of the part name (consult the basic part names in last section of Catalog; page A1).

(12) DESCRIPTION/DENOMINAZIONE: **Description of the part in English and Italian.** In case of modification, the part name is completed by the EFFECTIVENES INDICATION and DIRECTION FOR REPLACEMENT.
Effectiveness example:
Up to frame no. 004652 **(13)**: installed on machines with frame nos. up to 004652.
From frame no. 004653 **(14)**: installed on machines with frame nos. from 004653.
Examples of direction for replacement:
4606783 = 79021573 **(15)**: on exhaustion of stocks of part 4606783 fit part 79021573.
4606787 = 79021574 + 79021576 **(16)**: on exhaustion of stocks of part 4606787 fit part 79021574 plus 79021576.
4606792 = 79021576 – 4606794 **(17)**: on exhaustion of stocks of part 4606792 fit 79021576 and discard 4606794.
If no directions for replacement are given under effectiveness indication, this means that the old and new parts are not interchangeable and, hence, the former must be supplied as spare.
Other useful indications may be provided **(18)** under DESCRIPTION/ DENOMINAZIONE after sign — (for French, German, Spanish equivalents, see additional list heading the basic part name list, page Ao). Terms RIGHT/DESTRO and LEFT/SINISTRO refer to the direction of machine forward travel.
Should the word WRONG appear next to a part name without the corresponding CORRECT on the line immediately below it means that the associated part was erroneously included at an earlier stage.
(19) Reference symbol for tracing the illustration on the fiche and model.
(20) Subgroup, illustration number (when the subgroup includes more than one illustration), page number (when the listing for one illustration takes more than one page).
(21) Optional equipment code: this number indicates that parts listed and marked (*) belong to that given **equipment.** If on the contrary the code appears on the illustration only, it means that all parts of the subgroup belong to the special equipment in question (See para (c) above).
(22) Standard part dimensional data.

ATTENTION

FIATALLIS se réserve le droit de modifier la construction ou le matériau de toute pièce, si cela se révèle nécessaire, sans devoir apporter ces modifications sur les pièces déjà livrées.
D'autres publications concernant ce modèle et tous les autres modèles FIATALLIS sont disponibles près au des Concessionnaires. En général, ces publications sont disponibles en plusieurs langues.
Pour trouver ces publications, se référer au catalogue des publications techniques 604.07.026. Des exemplaires du catalogue sont disponibles près au des Concessionnaires FIATALLIS.

INSTRUCTIONS POUR LA COMMANDE DES PIECES DE RECHANGE

Les numéros de commande indiqués sur ce catalogue sont mis à jour à la date de sortie de la publication. Nous nous efforçons constamment d'améliorer les machines et, par conséquent, les numéros de commande et les illustrations peuvent ne plus être à jour.
Au moment de passer commande des pièces de rechange, contrôler les numéros de commande près au de Votre Concessionnaire, qui despose des microfiches et de la liste générale des pièces de rechange.

PASSER COMMANDE DE PIECES DE RECHANGE CHEZ LE CONCESSIONNAIRE DE VOTRE ZONE

Les commandes de pièces de rechange doivent comporter les indications suivantes (voir page 4):

- Modèle de la machine, Numéro du chassis, Type du moteur, Numéro du moteur estampillé sur le bâti moteur.
- Indiquer le numéro de commande de la pièce désirée (indiquée sur les listes du catalogue), accompagné si possible de sa désignation. Si les pièces se rapportent à un groupe possédant son propre numéro de modèle ou de série, indiquer aussi ce dernier.
- Indiquer dans l'adresse, le bureau de poste, la ville, la région et le pays où les pièces de rechange doivent être envoyées.
- Indiquer de plus les modalités d'expédition du matériel (par mer, par terre, exprès ou colis postal).
- Confirmer par écrit toutes les commandes anticipées par téléphone ou télégraphe.

En cas de renvois de pièces, ils pourront être effectués seulement à/ou par l'intermédiaire du Concessionnaire chez lequel les pièces ont été achetées et **Ils devront être autorisés au préalable par écrit**. Tour renvoi sera examiné à la fois.
Les réclamations pour manques et défauts, qui ne seront pas présentées immédiatement à la réception de la marchandise, seront rejetées.
En cas de réception de marchandise endommagée, une description complète doit être présentée par l'agent transporteur sur le bordereau d'expédition.
La responsabilité de FIATALLIS se limite et cesse au moment de l'exécution des conditions de vente prévues pour chaque fourniture.

https://truckmanualshub.com/

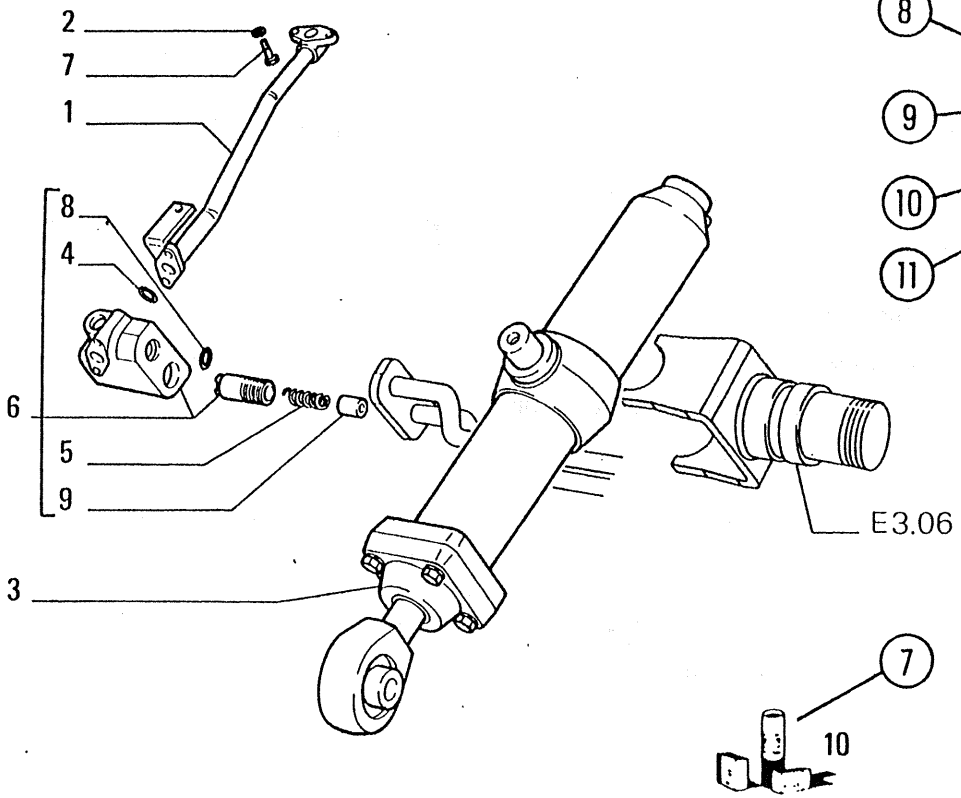

REGLES POUR LA CONSULTATION DU CATALOGUE

En vue d'une recherche correcte des pièces de rechange, il est nécessaire de:
a) Consulter la **liste des versions** à page 4, pour repérer le code numérique éventuel de la version concernée; voir paragraphe 1, point **(6)** ci-après.
b) Consulter les **planches illustrées** et leurs **listes de pièces de rechange**, comme indiqué aux paragraphes **1 et 2.**
c) Pour les modèles comportant des variantes, consulter la **liste des variantes** à page 5, où il est reporté le numéro code correspondant, par ordre progressif, et la liste des sous-groupes concernés.

1. **Illustrations** (voir exemple page 2/5)
Elles représentent les pièces de rechange de chaque groupe dans lesquels la machine est divisée.
Les pièces de rechange représentées sont repérées par le **numéro de référence** (ITEM). Le numéro de référence peut être remplacé par d'autres indications, par exemple:
E3.06: pièce illustrée exclusivement au Sgr. **E3.06.**
Chaque illustration reporte en outre:
Code de sous-groupe (1) — numéro de feuille (2), utilisé lorsque ce même sous-groupe comporte plusieurs planches — **indications de mise à jour (3)**, par exemple:
Le suffixe **06**, ajouté au numéro d'imprimé **604.01.046**, indique que le sous-groupe a été modifié avec la 6ème mise à jour du catalogue, parue en date **23 février 1981.** Le manque de l'indication **(3)** signifie qu'aucune modification n'a été apportée. **Indication de la parution d'une mise à jour éventuelle (4) — désignation du sous-groupe (5) — code de la version (6)**, avec référence au point **(a)** précédent. L'absence de codes veut dire que la planche est valable pour toutes les versions du modèle auquel se rapporte le catalogue — **indication de l'existance de kits de rechange (7)**, avec les numéros de référence correspondants (pour la composition des trousses voir page 9).

2. **Listes des pièces de rechange** (voir exemple page 2/5)
Ces listes énumèrent les pièces de rechange de chaque groupe, contenues dans les illustrations correspondantes, et elles reportent pour chaque pièce:
(8) ITEM: **numéro d'apparlage de la pièce représentée avec son « part number ».**
(9) PART NUMBER: **numéro de commande de la pièce de rechange.**
(10) Q.TY: **quantité totale de la pièce**, rapportée à la planche. La quantité peut être remplacée par les indications suivantes:
L: livré par longueur, **K**: kit à demander dans les quantités désirées.
(11) TRANS. CODE: **code pour la recherche de la traduction en français, allemand, espagnol** de la description (consulter la liste des désignations base au fond du catalogue, page A1).
(12) DESCRIPTION/DENOMINAZIONE: **description de la pièce en anglais et en italien.** En cas de modification, la désignation est complétée par l'INDICATION D'EFFECTUATION et les INSTRUCTIONS DE RECHANGE éventuelles.
Exemple d'indication d'effectuation d'une modification:
jusqu'au châssis n° 004652 **(13)**: montée sur les tracteurs avec numéro de châssis jusqu'à 004652;
à partir du châssis n° 004653 **(14)**: montée sur les tracteurs avec numéro de châssis à partir de 004653.
Exemple d'instructions de rechange:
4606783 = 79021573 **(15)**: dès l'épuisement des stocks de la pièce 4606783, monter la pièce 79021573;
4606787 = 79021574 + 79021576 **(16)**: dès l'epuisement des stocks de la pièce 4606787, monter la pièce 79021574 plus la pièce 79021576;
4606792 = 79021576 – 4606794 **(17)**: dès l'épuisement des stocks de la pièce 4606792, monter la pièce 79021576 en éliminant la pièce 4606794.
Si l'indication d'effectuation est suivie d'instructions de rechange, cela veut dire que la pièce avant-modification doit être toujours livrée de rechange, du fait qu'elle n'est pas interchangeable avec celle modifiée.
D'autres indications utiles **(18)** peuvent figurer dans la colonne DESCRIPTION/DENOMINAZIONE, après le signe — (pour la traduction de ces termes de l'anglais ou de l'italien en français, allemand et espagnol voir la liste des désignations supplémentaires au début de la liste des désignations de base, page Ao). Les termes RIGHT/DROIT et LEFT/GAUCHE se rapportent à la direction de roulement avant du tracteur.
Si le terme WRONG/ERRATA figure à côté de la désignation sans le terme correspondant CORRECT/CORRIGEZ à la ligne suivante, cela veut dire que cette pièce avait été incluse par erreur.
(19) Réference pour trouver la planche sur la fiche et modèle.
(20) Sous-groupe, numéro de planche (si le sous-groupe comporte plusieurs illustrations), numéro de page (si la liste des pièces de rechange d'une illustration occupe plus d'une page).
(21) Numéro-code de la variante: indique que les pièces énumérées et repérées par (*) concernent la variante indiquée; si par contre le code ne figure que dans l'illustration, cela signifie que toutes les pièces du sous-groupe appartiennent à la variante indiquée (voir point c précédent).
(22) Dimensions des pièces normalisées.

ADVERTENCIA

FIATALLIS se reserva el derecho de modificar la construcción o el material de cualquier pieza, si ello resultase procedente, pero sin obligarse a aplicar tales modificaciones a las unidades ya en servicio.
Otras publicaciones referentes a este modelo, lo mismo que a todos los restantes modelos FIATALLIS, son disponibles en los Concesionarios. Tales publicaciones, por lo general, son disponibles en diversas lenguas.
Para conocer tales publicaciones consúltese el catálogo de las publicaciones técnicas 604.07.026. Ejemplares de este catálogo obran en los Concesionarios FIATALLIS.

COMO SE ENCARGAN LOS RECAMBIOS

Los números de catálogo de las piezas reseñadas en esta publicatión están al día hasta la fecha de salida a luz de la misma. Nuestra política estriba en el afán de mejorar constantemente las máquinas, y por lo tanto, los números de catálogo y los grabados a veces puede no sean más efectivos. Con motivo, pues, de ir a encargar piezas de repuesto, verifique los números de catálogo con su Concesionario, el cual dispone de las microfichas y de la lista general de los recambios puesta al día.

ENCARGUENSE LOS RECAMBIOS AL CONCESIONARIO DE SU ZONA

Los encargos de piezas de repuesto tienen que incluir los datos siguientes (véase página 4):

- Modelo de la máquina, Número de fabricación del chasis, Modelo del motor, Número de fabricación del motor, punzonado en el bloque de cilindros.
- Indicar el número de catálogo de cada pieza encargada - tal cual figura en las listas del catálogo - posiblemente acompañado de la denominación que corresponde.

Si los recambios pertenecen a un conjunto que posee su propio número de modelo o de serie, indíquense incluso tales datos.

- En la dirección indíquense la oficina de correos, la ciudad, provincia y nación a donde han de remitirse los recambios.
- Además, indíquense las modalidades de expedición del material: transporte marítimo, terrestre, expreso, o paquete postal.
- Confirmar per escrito todos los encargos anunciados por teléfono y por cable.

Eventuales devoluciones de piezas podrán hacerse tan sólo al/o por conducto del Concesionario al cual se han comprado las piezas, y **deberán ser previamente autorizadas por escrito**. Cada devolución se tomará en cuenta según se merece.
Las reclamaciones por faltas o defectos no se tomarán en cuenta, a no ser que vengan efectuadas inmediatamente después de recibir la mercancía.
En caso de que se reciba mercancía que ha sufrido daños, una completa descripción del daño debería ser efectuada por el agente del transportista en el mismo documento de expedición.
La responsabilidad de FIATALLIS es limitada y cesa al complirse las condiciones de venta provistas para cada aprovisionamiento.

https://truckmanualshub.com/

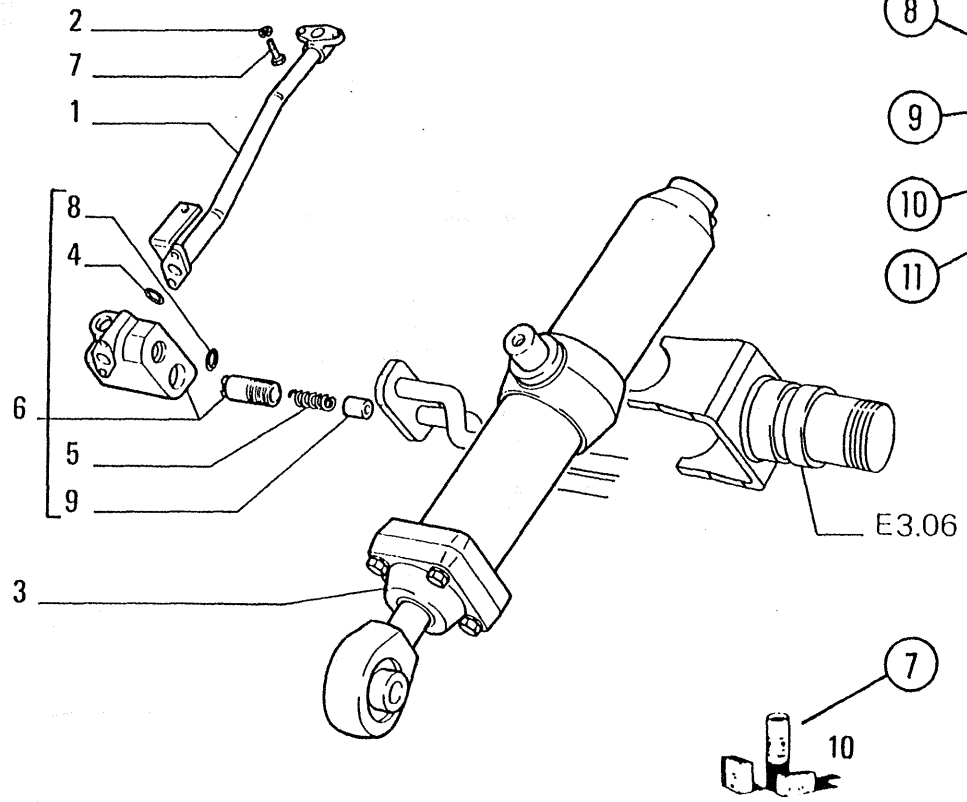

CÓMO SE MANEJA EL CATÁLOGO

Para buscar correctamente las piezas de repuesto, es preciso:
a) Consultar **la lista de versiones**, pág. 4, para identificar, en su caso, el código numérico de la versión que interesa; véase el siguiente párrafo **1**, punto **(6)**.
b) Consultar las **láminas** y las respectivas **listas de piezas de repuesto**, conforme se explica en los párrafos **1** y **2**.
c) Para los modelos que comprenden variantes, consultar la **lista de variantes**, pág. 5, donde se indica incluso el correspondiente número de código por orden progresivo, y la lista de los subgrupos afectados.

1. **Láminas** (véase el ejemplo, pág. 2/9)
Representan las piezas de repuesto de cada subgrupo en que se divide la máquina. Las piezas de repuesto representadas se designan mediante un **número de referencia** (ITEM), el cual puede ir sustituído por otras indicaciones; ejemplo:
E3.06: pieza ilustrada únicamente en el Sgr. **E3.06.**
Además, en cada lámina figuran:
El código del subgrupo (1) — el número de la hoja (2), cuando el mismo subgrupo comprende más de una lámina — **la indicación de su revisión (3)**; ejemplo: el sufijo **06**, que se agrega al número de la publicación **604.01.046**, significa que el subgrupo ha sido modificado en la **6ª** revisión del catálogo, editado en fecha de **23 de febrero de 1981**; de carecer la indicación **(3)**, significa que no ha habido modificaciones; — **la indicación, en su caso, de la publicación de la revisión (4) — la denominación del subgrupo (5) — el código de la versión (6),** con referencia al punto **(a)** que antecede; de faltar ese código, se entiende que la lámina es aplicable a todas las versiones del modelo de que se trata en el catálogo; — **la indicación de la existencia de fornituras de recambios (7),** con los respectivos números de referencia (véase en la pág. 9 la composición de las fornituras).

2. **Listas de las piezas de repuesto** (véase el ejemplo en la pág. 2/9)
En ellas se reseñan las piezas de repuesto de cada subgrupo representadas en las láminas correspondientes, indicando para cada pieza:
(8) ITEM: **el número de cada pieza representada que se acompaña a su « part number »**.
(9) PART NUMBER: **número de catálogo de cada pieza de repuesto**.
(10) Q.TY: **número total de la pieza** representada en la lámina; este número puede reemplazarse con las indicaciones siguientes: **L** = se entrega en trozos de suficiente longitud; **K** = fornitura que debe encargarse en la cantidad deseada.
(11) TRANS. CODE: **código para buscar la traducción al francés, alemán y español** de la denominación (consúltese la lista de las denominaciones base al final del catálogo, pág. A1).
(12) DESCRIPTION/DENOMINAZIONE: **denominación de la pieza en inglés e italiano**. En caso de modificaciones, la denominación viene integrada por la INDICACIONES DE SU APLICACIÓN y, en su caso, por las NORMAS DE RECAMBIO.
Ejemplo de indicación de aplicación de la modificación:
hasta el chasis nº 004652 **(13)**: incorporada a las máquinas con chasis hasta el número 004652;
a partir del chasis nº 004653 **(14)**: incorporada a las máquinas a partir del chasis con número 004653.
Ejemplo de normas de recambio:
4606783 = 79021573 **(15)**: al agotarse las reservas en almacén de la pieza 4606783, aplíquese la 79021573;
4606787 = 79021574 + 79021576 **(16)**: al agotarse las reservas en almacén de la pieza 4606787, aplíquese la 79021574 más la 79021576;
4606792 = 79021576 – 4606794 **(17)**: al agotarse las reservas en almacén de la pieza 4606792, aplíquese la 79021576 eliminando la 4606794.
Suponiendo que a la indicación de incorporación no se acompañen normas de recambio, ello significa que siempre tiene que entregarse el recambio de la pieza ante-modificación, por no ser intercambiable con aquella post-modificación.
Otras indicaciones útiles **(18)** pueden consignarse en la columna DESCRIPTION/DENOMINAZIONE, después del signo — (la traducción de estas voces del inglés o italiano al francés, alemán y español, figura en la lista de voces suplementarias que precede a la lista de denominaciones base (pág. Ao). Las voces RIGHT/DERECHO y LEFT/IZQUIERDO se refieren al sentido de marcha de la máquina.
Suponiendo que a una denominación se acompañe la palabra WRONG/DONDE DICE, y en el renglón siguiente no aparezca la correspondiente CORRECT/LEASE, significa que la pieza sobra, por un error.
(19) Ideograma para localizar la lámina en la ficha y modelo.
(20) Subgrupo, número de la lámina (si acaso el subgrupo comprende grabados diversos), número de la página (si acaso la lista de piezas de repuesto de una misma lámina ocupa más páginas).
(21) Número de código de la variante: indica que las piezas reseñadas y contraseñadas con (*) pertenecen a aquella misma variante. En cambio, si el código aparece tan sólo en la lámina, significa que todas las piezas de ese subgrupo pertenecen a esa variante (véase el punto c) que antecede.
(22) Dimensiones de las piezas normalizadas.

HOSE – TUBO FLESSIBILE – TUYAU FLEXIBLE – MANGA FLEXIBLE – SCHLAUCH

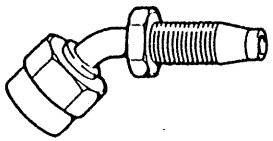

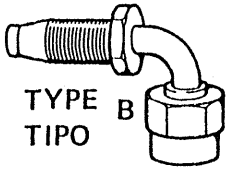

TYPE E
TIPO

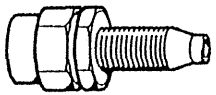

TYPE A
TIPO

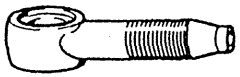

TYPE B
TIPO

TYPE D
TIPO

TYPE C
TIPO

NOTE : In the right hand column (1) the crimped–type hose assembly (fittings not re usable) is identified. Assembly number shown in the left hand column (1) indicates available replacement hose assembly (no crimped–type) with reusable components; the other columns indicate the components numbers for hose constructions in the field.

NOTA : La colonna (1) all'estrema destra identifica il tubo completo del tipo graffato dotato di raccordi non riutilizzabili. La colonna (1) all'estrema sinistra indica il tubo completo non graffato, dotato di raccordi riutilizzabili; le altre colonne riportano i numeri dei componenti per consentire la costruzione del tubo sul campo.

NOTE : La colonne (1) à l'extrême droite, indique le flexible complet plissé, muni de raccords non réutilisables. La colonne (1) à l'extrême gauche indique le flexible complet non plissé, muni de raccords réutilisables; les autres colonnes fournissent les numéros des composants permettant de construire le flexible sur place.

NOTA : La primera columna (1) a la derecha designa la manguera completa del tipo de solapa y dotado de racoros non recuperables. La primera (1) a la izquierda señala la manguera completa dotada de racores recuperables; las restantes columnas señalan los números de los componentes para facilitar la construcción del tubo en obras.

HINWEIS: In Spalt (1, ganz rechts) ist der komplette Schlauch der gefalteten Bauart mit nicht wieder anwendbaren Anschlüssen angegeben. In Spalt (1, ganz links) ist der komplette, faltenlose Schlauch mit wieder anwendbaren Anschlüssen angegeben. Die weiteren Spalte enthalten die Nummern der Bestandteile zum Zusammenbau des Schlauches auf dem Feld.

(1)	(2)	L	(3)	TYPE (3)	(4)	TYPE (4)	(5)	(6)	(1)
