

AVOID ACCIDENTS

Most accidents, whether they occur in industry, on the farm, at home or on the highway, are caused by the failure of some individual to follow simple and fundamental safety rules or precautions. For this reason MOST ACCIDENTS CAN BE PREVENTED by recognizing the real cause and doing something about it before the accident occurs.

Regardless of the care used in the design and construction of any type of equipment there are conditions that cannot be completely safeguarded against without interfering with reasonable accessibility and efficient operation.

A careful operator is the best insurance against an accident.
The complete observance of one simple rule would prevent many
thousand serious injuries each year
That rule is.

Never attempt to clean, oil or adjust a machine while it is in motion.

WARNING

On machines having hydraulically, mechanically, and/or cable controlled equipment (such as shovels, loaders, dozers, scrapers, etc.) be certain the equipment is lowered to the ground before servicing, adjusting and/or repainting. If it is necessary to have the hydraulically, mechanically, and/or cable controlled equipment partially or fully raised to gain access to certain items, be sure the equipment is suitably supported by means other than the hydraulic lift cylinders, cable and/or mechanical devices used for controlling the equipment.

CALIFORNIA

Proposition 65 Warning

Diesel engine exhaust and some of its constituents are known to the State of California to cause cancer, birth defects, and other reproductive harm.

FD 9

Catálogo de peças de reposição - Catalogo de piezas de repuestos

ATENÇÃO

Leia atentamente o Manual de Operação e Manutenção antes de colocar a máquina em funcionamento, ou efetuar qualquer tipo de intervenção na máquina.

ATENCION

Lea atentamente el manual de empleo y cuidado antes de poner manos a las operaciones de puesta en marcha , manejo, mantenimiento , repostado de combustible , y otras que fuere

É proibida a reprodução do texto e das figuras.

Se prohíbe la imitación o copia del texto y de los grabados

FIATALLIS LATINO AMERICANA S.A. - "TECNOLOGIA GANHANDO TERRENO" - PUBLICAÇÕES TÉCNICAS

3rd Issue - 3^a Edizione - 3^{ere} Edition - 3^{er} Ausgabe - 3^a Edición - 3^a Edição - XII/1993 FA 75314708

NOTICE

The type of binding with glue used for this book allows, if required, to easily insert supplement sheets. For this purpose, it is sufficient to remove the sheet to be replaced, by pulling them across, from top to bottom, along the bond line. Next insert the new sheets in the appropriate position and reassemble book using the binder form N. 8320414, available at your local Dealer.

AVVERTENZA

Il tipo di rilegatura a colla adottato per questa pubblicazione consente, in caso di necessità, il facile inserimento dei fogli di supplemento. A tale scopo, è sufficiente distaccare manualmente i fogli da sostituire, tirandoli trasversalmente dall'alto verso il basso, lungo la linea di incollaggio. Inserire quindi i fogli nuovi nelle rispettive posizioni e ricomporre la pubblicazione mediante raccogliatore ad anelli, ottenibile con il N. di ordinazione 8320414 dal Vostro Concessionario di Zona.

AVERTISSEMENT

Le type de reliure par collage adopté pour cette publication permet, au besoin, le facile des feuilles de supplément. A cet effet, il suffit de détacher à la main les feuilles à remplacer, en les tirant de travers d'en haut en bas, le long de la ligne de collage.caler alors les nouvelles feuilles aux emplacements respectifs et refaire la publication par le classeur à bagues qui peut être demandé au Concessionnaire de votre zone avec le N. de commande 8320414

ZUR BEACHTUNG

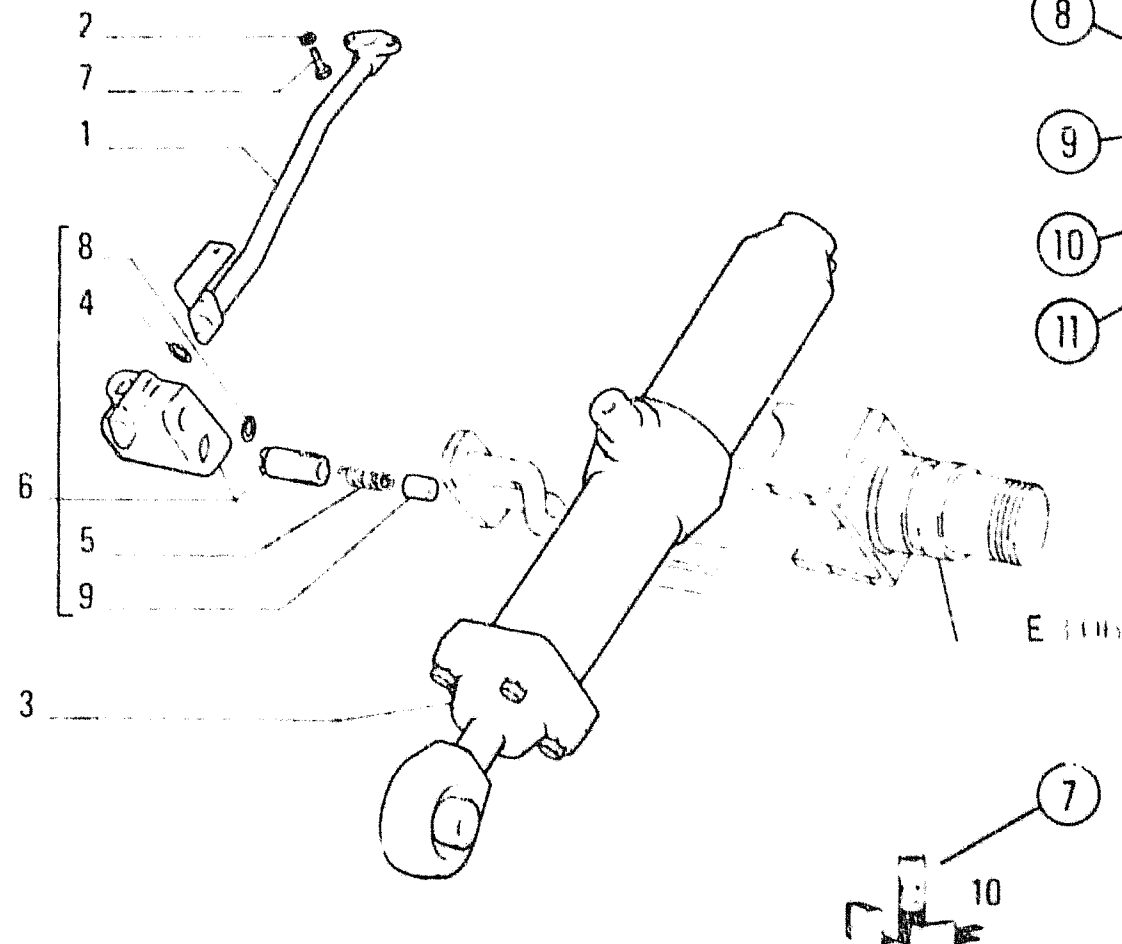

Die für diese Veröffentlichung angewandte Rückenleimung zum Heften der zusammengelegten Bogen soll das Einfügen von Ergänzungsblättern erleichtern. Die auszutauschenden Blätter können durch Ziehen von oben nach unten leicht entfernt werden. Nach dem Einfügen der neuen Blätter empfiehlt es sich, die Veröffentlichung in eine Mappe mit Heftringen einzulegen, die Sie von ihrem Werkshändler unter der Bestellnr 8320414 beziehen können.

ADVERTENCIA

El tipo de encuadernación a base de cola adoptado en esta publicación facilita, cuando sea preciso, la sustitución de las hojas de revisión. Para ello, despegue con la mano las hojas que han de sustituirse, tirando de ellas de arriba abajo, y siguiendo la línea de encolado. Luego inserte las hojas nuevas en la posición que corresponde y reúna la publicación mediante una carpeta de anillos, que puede usted encargar a su concesionario de zona citando el número de catálogo 8320414

ADVERTÊNCIA

Este tipo de encardenação, a base de cola, é feita para permitir a introdução de folhas para atualização. Para este fim, basta remover a folha a ser substituída retirando-a de cima para baixo. Inserir as novas atualizações nos respectivos lugares e recompor o livro utilizando a pasta n.º 8320414 disponível nos concessionários.

1

N.T.R. 63 - 23/2/1981

604.01.046.06

USE OF THE CATALOG

To locate the spare parts correctly, proceed as follows:

- Consult the **version list** on page 4 to find the code number of the version involved; see following para 1 (6).
- Consult the illustrations and the associated **spare parts lists** as directed below in 1 and 2.
- To identify the component of the possible special equipment of the machine, consult the **optional equipment list** on page 5 to find the code number and subgroup.

1. Illustrations (see example on page 2/1)

Illustrations show the spare parts of each subgroup. The spare parts illustrated are identified by a **reference number (ITEM)**. This number may be replaced by other indications, for example:

E3.06: Part shown only in subgroup **E3.06**

Moreover, each illustration shows:

— **Subgroup number (1)** — **Sheet number (2)** used when one subgroup covers several sheets, and — **Updating indication (3)**, for example: Suffix **05**, to print no. **604.01.046**, indicates that subgroup modification is shown in 6th updating of the catalog dated **23-2-81**. When code **(3)**, is missing, no changes were introduced. **Updating publication description, if any (4); subgroup title (5) — version code (6)** with reference to previous point (a).

In lack of said codes, the illustration applies to all model versions covered by the catalog.

— **Indication of part kit (7)**, with associated part numbers and part kit symbol. (See page 9 for kit composition).

2. Spare parts list (see example on page 2/1)

They list the spare parts of each subgroup contained in the corresponding illustrations. The following is shown for each part.

(8) ITEM: number associating the part shown with the respective "part number".

(9) PART NUMBER: spare part order number.

(10) Q.TY: total quantity of the part. The quantity may be replaced by the following indications:

L = supplied by length, **K** = kit to be ordered in the desired quantity.

(11) TRANS. CODE: For retrieval of the French, German, Spanish translations of the part name (consult the basic part names in last section of Catalog; page A1).

(12) DESCRIPTION/DENOMINAZIONE: Description of the part in English and Italian. In case of modification, the part name is completed by the **EFFECTIVENESS INDICATION** and **DIRECTION FOR REPLACEMENT**. Effectiveness example:

Up to frame no. **004652 (13)**: installed on machines with frame nos. up to **004652**.

From frame no. **004653 (14)**: installed on machines with frame nos. from **004653**.

Examples of direction for replacement:

4606783 = 79021573 (15): on exhaustion of stocks of part **4606783** fit part **79021573**.

4606787 = 79021574 + 79021576 (16): on exhaustion of stocks of part **4606787** fit part **79021574** plus **79021576**.

4606792 = 79021576 - 4606794 (17): on exhaustion of stocks of part **4606792** fit **79021576** and discard **4606794**.

If no directions for replacement are given under effectiveness indication, this means that the old and new parts are not interchangeable and, hence, the former must be supplied as spare.

Other useful indications may be provided **(18)** under **DESCRIPTION/DENOMINAZIONE** after sign — (for French, German, Spanish equivalents, see additional list heading the basic part name list, page A6) Terms **RIGHT/DESTRO** and **LEFT/SINISTRO** refer to the direction of machine forward travel.

Should the word **WRONG** appear next to a part name without the corresponding **CORRECT** on the line immediately below it means that the associated part was erroneously included at an earlier stage.

(19) Reference symbol for tracing the illustration on the fiche and model.

(20) Subgroup, illustration number (when the subgroup includes more than one illustration), page number (when the listing for one illustration takes more than one page).

(21) Optional equipment code: this number indicates that parts listed and marked (*) belong to that given equipment. If on the contrary the code appears on the illustration only, it means that all parts of the subgroup belong to the special equipment in question (See para (c) above).

(22) Standard part dimensional data.

MODO DE USAR O CATÁLOGO

Para pedir corretamente as peças de reposição é necessário:

- a) Consulte a lista de versões, pág. 4, para identificar, no seu caso o código numérico da versão que lhe interessa, veja o parágrafo 1, item 6).
- b) Consulte as figuras e as respectivas listas de peças, conforme é explicada nos parágrafos 1 e 2.
- c) Para os modelos que contenham opcionais, consulte a lista de opcionais, pág. 5 que indica o n.º do opcional por ordem crescente e os subgrupos afetados.

1. Figuras (veja o exemplo, pág. 2/11)

Representam as peças de reposição de cada subgrupos em que se divide a máquina. As peças de reposição representadas se designam mediante um número de referência (ITEM), o qual pode ser substituído por outras indicações, exemplo:

E 3.06: peça ilustrada unicamente no SBG. E 3.06

O código do subgrupo (1) e o número do quadro (2); quando o mesmo subgrupo compreende mais de uma figura. A indicação de sua revisão (3) exemplo; o sufixo 06, que se agrega ao n.º da publicação 604.01.046, significa que o subgrupo foi modificado na 6.ª revisão do catálogo, editado em 23/2/81; quando faltar a indicação (3), significa que não houve modificações. Caso falte a indicação da publicação da revisão (4), a denominação do subgrupo (5), o código da versão (6) com referência ao item (a) dito anteriormente; entende-se que a figura é aplicável a todas versões do modelo que trata o catálogo.

A indicação da existência de Kits de reposição (7), com os respectivos números (veja na pág. 9 a respectiva composição).

2. Lista das peças de reposição (veja o exemplo, pág. 2/11)

Nelas se dispõe as peças de reposição de cada subgrupo representadas nas figuras correspondentes, indicando para cada peça: (3) ITEM: É o número de cada peça representada, que é acompanhada do número da peça para reposição.

(9) PART NUMBER: número de catálogo de cada peça de reposição.

(10) QTY: número total de peças representadas na figura, este número pode ser substituído pelas seguintes indicações: L = pedaços com a medida necessária; K = quantidade necessária para a reparação.

(11) TRANS. CODE: código para buscar a tradução para o francês, alemão e espanhol, da denominação (consulte a lista das denominações no final do catálogo, pág. A1).

(12) DENOMINAÇÃO/DESCRIPTION: denominação da peça em português e inglês.

No caso de modificações, a denominação vem acompanhada pela INDICAÇÃO DE SUA APLICAÇÃO Ou pelas NORMAS DE REPOSIÇÃO.

Exemplo de indicação de aplicação na modificação:

- até o chassi n.º 004652 (13): utilizada nas máquinas com chassi até o n.º 004652;

- a partir do chassi n.º 004653 (14): utilizada nas máquinas a partir do chassi n.º 004653.

Exemplo de normas de reposição:

4606783 = 79021573 (15): ao esgotar o estoque da peça 4606783 use a peça 79021573;

4606783 = 79021574 + 79021576 (16): ao esgotar o estoque da peça 4606783 use a peça 79021574 mais a peças 79021576;

4606792 = 79021576 - 4606794 (17): ao esgotar o estoque da peça 4606792 use a peça 79021576 eliminando a peça 4606794.

Supondo que a indicação de utilização não acompanhe normas de reposição, significa que a reposição da peça ante-modificação, deve ser mantida, por não ser intercambiável com a peça pós-modificação.

Outras indicações úteis (18) podem ser acrescentadas na coluna DENOMINAÇÃO/DESCRIPTION, depois do sinal -- (a tradução destas palavras ao francês, alemão e espanhol, estão na lista de palavras suplementares que precede a lista de denominações (pág. A0). As palavras DIREITO/RIGHT e ESQUERDO/LEFT se referem ao sentido de marcha da máquina.

Supondo que numa denominação acompanhada a palavra ONDE SE LÊ/WRONG e na linha seguinte não aparece a correspondente LEIA-SE/CORRECT, significa que a peça sobra por erro.

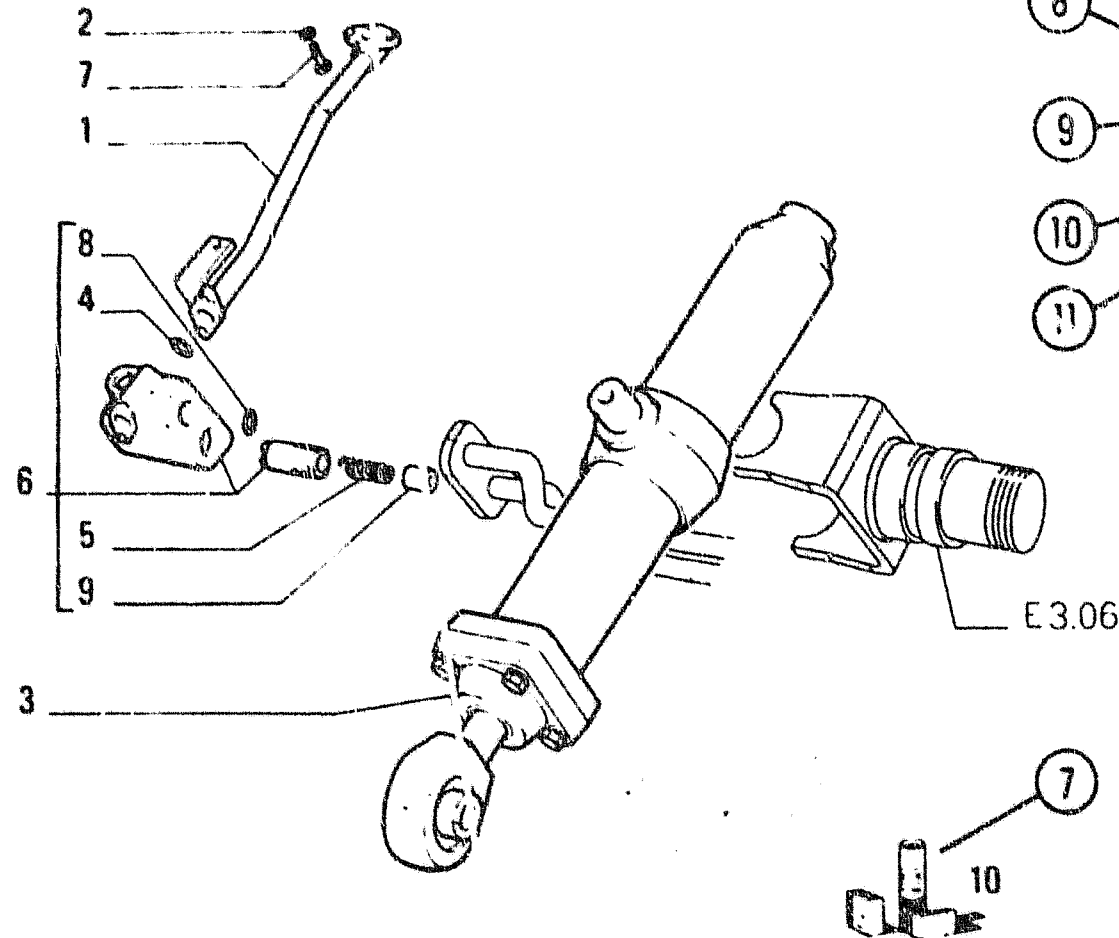

(19) ideograma para localizar a figura na microficha.

(20) Subgrupo, número da figura (quadro), número da página

(21) Número de código do opcional: indica que as peças com a marcação (*) pertencem ao opcional indicado.

Se o código aparece na figura, significa que todas as peças desta subgrupo pertencem a este opcional (veja item C) dito anteriormente.

(22) Dimensões das peças normalizadas.

N.T.R. 63 23/2/1981

604.01.046.06

ATENÇÃO

A FIATALLIS reserva o direito de modificar a construção ou o material de qualquer peça, se julgar necessário, mas sem obrigar-se a aplicar tais modificações às unidades já em serviço.

COMO FAZER OS PEDIDOS

Os números de peça do catálogo inclusas nesta publicação estão em dia até a data de saída deste da FIATALLIS. Nossa política consiste no intento de melhorar constantemente nossas máquinas, e portanto, os números de peças do catálogo as vezes podem não ser efetivos. No momento de pedir as peças de reposição, verifique os números de peças do catálogo com seu Concessionário, o qual dispõe de microfichas e da lista de peças geral atualizada.

FAÇA OS PEDIDOS AO CONCESSIONÁRIO DE SUA REGIÃO

Os pedidos de peças de reposição, devem conter os seguintes dados (veja pág. 4):

- Modelo da máquina, número de série do chassi, modelo do motor, n.º de série do motor.
- Indicar o n.º da peça pedida - tal qual ilustrada na lista de peças - possivelmente acompanhada da denominação correspondente.

Se as peças pertencem a um conjunto que possui seu próprio número de modelo ou de série, indique este dado.

- No endereço indique o código de endereçamento postal, a cidade, o estado e a nação para que se possa remeter as peças pedidas.
- Indique a modalidade de expedição do material: marítimo, terrestre, expresso ou via correio.
- Confirme por escrito todos os pedidos anunciados por telefone ou por telegrama.

Eventuais devoluções de peças poderão efetuar-se somente por intermédio do Concessionário ao qual as peças foram compradas, e **deverão ser previamente autorizadas por escrito**. Cada devolução será analisada conforme cada caso.

As reclamações por faltas ou defeitos não serão levadas em conta, a não ser que venham efetuadas imediatamente após o recebimento do material.

No caso de receber material que sofreu danos, uma descrição completa do dano deve ser feita pelo agente transportador no documento de expedição.

A responsabilidade da FIATALLIS é limitada e cessa ao cumprir-se as condições de venda previstas para cada aquisição.

NOTICE

The right is reserved to change the construction or material of any parts where it seems desirable to do so without incurring the obligation of installing such changes on units already delivered.

Additional publications pertaining to this model and to all other FIATALLIS products are available through FIATALLIS dealers. Publications are generally available in several languages.

INSTRUCTIONS FOR ORDERING PARTS

At the time this parts catalog was published the listed part numbers were current. It is our policy to constantly improve our machines and therefore, part numbers and design may change.

When ordering parts, verify part numbers through your dealer's microfiche and master numerical index which are up to date with all the latest part numbers.

ORDER PARTS FROM THE DEALER COVERING THE LOCAL TERRITORY

Orders for spare parts must include the following data (see page 4).

- Model, Serial Number, Engine model, Engine serial number, marked on engine block.
- Specify the part number (shown on Spare Parts Catalog list), possibly completed by its description. If parts refer to an assembly which has a model or serial number, also include this information.
- Give post office address, town, county and state where parts are to be shipped.
- Also specify whether material is to be shipped by freight, express or parcel post.
- Confirm all telephone or telegraph orders in writing.

Parts can only be returned to/through the dealer from whom the parts were purchased and **must have prior written authorisation**. Each return will be treated individually.

Unless claims for shortages or errors are made immediately upon receipt of goods, they will not be considered.

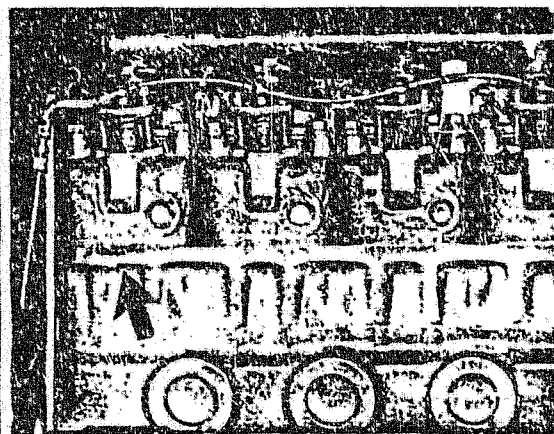

When broken goods are received, a full description of the damage should be made by the carrier agent on the freight bill. FIATALLIS responsibility is limited, and ceases upon completion of sale conditions provided for each delivery.

IDENTIFICATION AND VERSION LIST - IDENTIFICAZIONE ED ELENCO DELLE VERSIONI
