

Capacity (kg): 1000 - 1200 - 1500

Lifting Height (mm): 800, 1600, 2500, 3000, 3500

BETA 12V evo

Manual movement, electro-hydraulic lifting with high structural stability to express the maximum lifting power, for maximum lifting power, a solution that is both simple and economical. Single or two-stage mast for lifting up to 3.5 meters.

BETA M evo

Completely manual version to facilitate the easy movement of loads thanks to the handy steering handlebar. Single stage mast for lifting between 800 and 1600 mm.

BETA 12V evo / BETA M evo 08

For lift heights of 800 mm or less, a special short version offers increased visibility, better handling and compact dimensions.

Features in detail: _____

FOOT BRAKE + FOOT GUARD:

Pedal parking brake that is installed in the right steering wheel; fixed crushproof foot guard in both wheels.

STEERING ARM:

Handle bar directly controls the 2 rear steering wheels for manual movement of the truck.

ELECTRO-HYDRAULIC LIFTING (BETA 12V evo):

Lifting and lowering control switches are installed in a protective casing. An Emergency Stop switch cuts the power supply.

MANUAL LIFTING (BETA M evo):

Quick lift hand pump with built-in lowering control makes lifting and lowering fast and easy.
