“GEARED FOR THE FUTURE”

INTERNET USERS:

BTP is a unique business that combines Manufacturing New components with Salvaging Old tractors in order to provide Quality Components and Reman Assemblies for significantly less money. Repeat business is very important to the success of our company and we take steps to make sure that what we sell and how we sell it insures that. There is no shortage of salvage yards available, and they may even sell you a good part, which will save you money up front, but in the end you risk getting a bad part. "Remanufacturing" implies that the assemblies are not just washed and painted, instead they are completely disassembled, carefully inspected, and through strict standards these assemblies are assembled. This process often requires that we fix damaged housings, install all new bearings, and finally replace all components that would not operate as good as a new part.

Thank you for looking at our web page. Big Tractor Parts (BTP) hopes that you will find this catalog usefull. For a list of current prices please call us at 1800.982.1769.

REGARDS,

Ben McIntyre

Co-Owner/Mgr

WARRANTY/RETURN POLICY:

- 500hr/1year warranty on all new and remanufactured components and assemblies provided that the items were installed/maintained properly and used in normal operation conditions, a more detailed warranty statement will be provided upon requires.
Used parts are guaranteed to be in good working condition and can be returned for replacement or refund up to 10 days after the date of purchase, refunds will not be issued unless BTP determines that the part is defective.
Warranties do not apply to used parts.
- Please provide BTP with a copy of your invoice and contact us prior to shipment of items.
- Follow our shipping/freight instructions closely to avoid further charges.
you could be responsible for the extra shipping charges should you not follow our instructions.
- Returns will be accepted for any reason (unless the item has been installed or used in any way), however you will be responsible for all return shipping fees. No reimbursement or credits will be issued until the items are received. If the items are returned to BTP damaged you may be responsible. Therefore you should utilize any insurance options that are made available by the shipping carrier.

FREIGHT INSTRUCTIONS: (EXCLUDING INTERNATIONAL, AK, AND HI CUSTOMERS)

ITEMS OVER 140LBS

BTP has negotiated for freight discounts. As a result all new and remanufactured hubs, differentials, axles, transmissions, and transfer cases are quoted with the cost of shipping to the customer. Furthermore many of those assemblies include the cost of shipping the core to us. The following information describes how you should complete the shipping forms regardless if BTP is assuming the cost of shipping.

Use the shipping companies listed below.

Do not select "Freight Collect" unless specifically requested by BTP.

Enter the following information into the "Description of Articles".

Describe the item as a "core exchange" and then include relevant assembly description such as "differential", "hub", "transmission", or "transfer case".

Classify the items as shown below for each carrier.

Midwest Motor Express (toll free:800-741-4097, fax: 701-224-1894)

"RVNX 10¢/lb, USED PARTS CLASS 50"

You are responsible for finding a pallet or crate in good condition and properly securing the items.

ITEMS UNDER 140LBS

Use the carrier of your choice when shipping items at your own expense. UPS is the BTP preferred shipper for items under 140lbs. Unless requested otherwise send items via UPS Ground rather than overnight or 2nd day.
