PRESENTING MAHINDRA JIVO 365DI 4WD

Integrated with the latest Japanese technology, the new **Mahindra Jivo 365DI 4WD** is the go-to expert for use in vineyards and orchards. Mahindra's renowned **3-cylinder DI Engine** mated with advanced **Japanese Transmission and Hydraulics** systems, is a combination that delivers superior performance in the toughest of conditions. With its robust and **light-weight** design, the new Mahindra Jivo 365DI DI is the ultimate tractor that works with **all kinds of Sprayers**.

POWERFUL 26.8 kW (36 HP) DI ENGINE THAT'S EASY TO HANDLE, HARD TO BEAT.

Jivo 365DI can easily outperform every challenge with a powerful 3-cylinder DI Engine at its heart.

DI ENGINE

HIGHEST PTO POWER

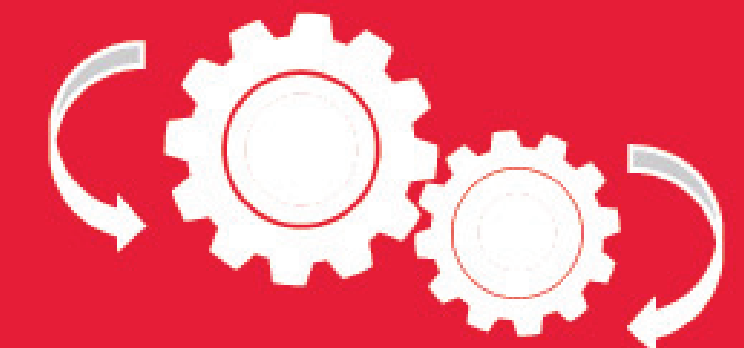

22.37kW (30HP) PTO
Best suited for rotary operations like Spraying & Rotavation

BEST-IN-CLASS TORQUE

118 Nm

Gives better traction and pulling ability even in hard soil

BACKUP TORQUE

High Backup Torque doesn't let the tractor stall even when there's sudden increase in load

Low Rated RPM

Low rated RPM gives less vibrations and longer engine life with superior fuel economy

Excellent Performance with all types of Sprayers

Less RPM drop with Mahindra's 1.2 m rotavator

Ability to work with 7 tyne cultivator

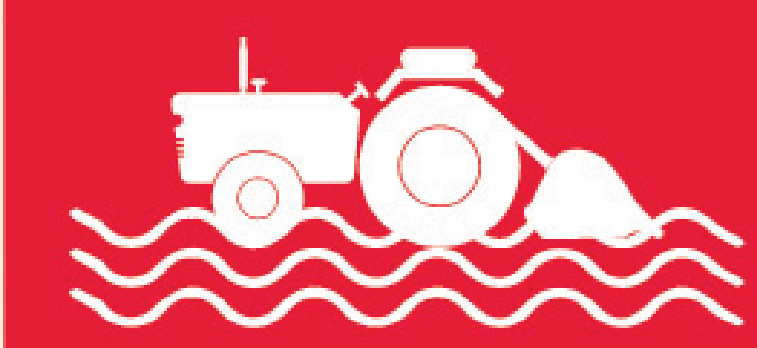

Comfortably pulls 1 MB reversible plough

TRACTOR THAT YIELDS BETTER VALUE, HIGHER PROFITS.

Made to deliver optimum performance and economy, Jivo 365DI ensures higher profit.

LIGHT WEIGHT

Light-weight leads to less fuel consumption

HIGH FUEL CAPACITY

Covers more distance in one fill up with higher fuel tank capacity

LOW MAINTENANCE

Low cost of maintenance due to superior engine

EASY SPARES AVAILABILITY

Minimum downtime with easy access to spares and doorstep service

BEST MILEAGE

Best in class mileage thus lower cost of operation

GREAT PERFORMANCE, MORE VERSATILE.

Jivo 365DI is designed specially for application in Vineyards and Orchards with many industry leading features.

Jivo 365DI is future ready and will help you to transform your Vineyards by giving superior performance leading to higher productivity.

TRANSMISSION

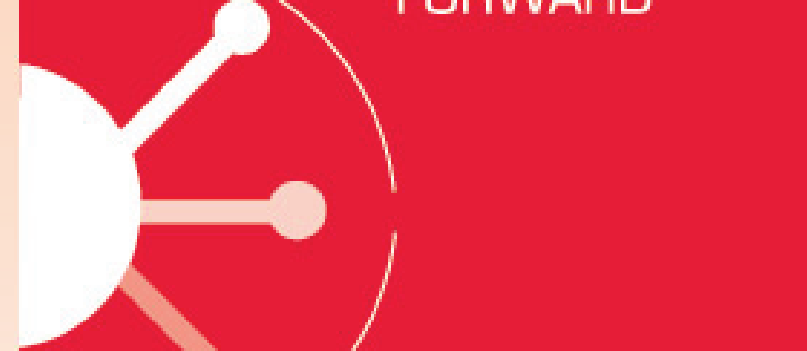

Ability to work in wet and soft soil without getting stuck

LARGE REAR TYRES

Larger tyres and High Lugs reduce slippage and give better traction

8+8 GEAR BOX

With Sync Shuttle for ease in forward-reverse movement

UNMATCHED PTO POWER

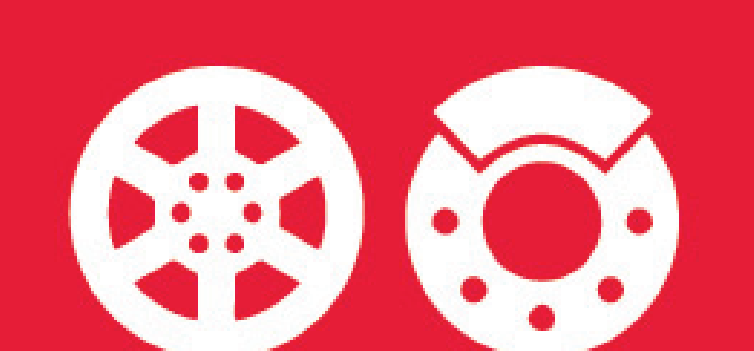

22.4 kW (30 HP) PTO delivers excellent performance with sprayer without engine overheating

ADDC WITH PAC

ADDC with Position Auto-Control Technology increases efficiency in land preparation

OIB

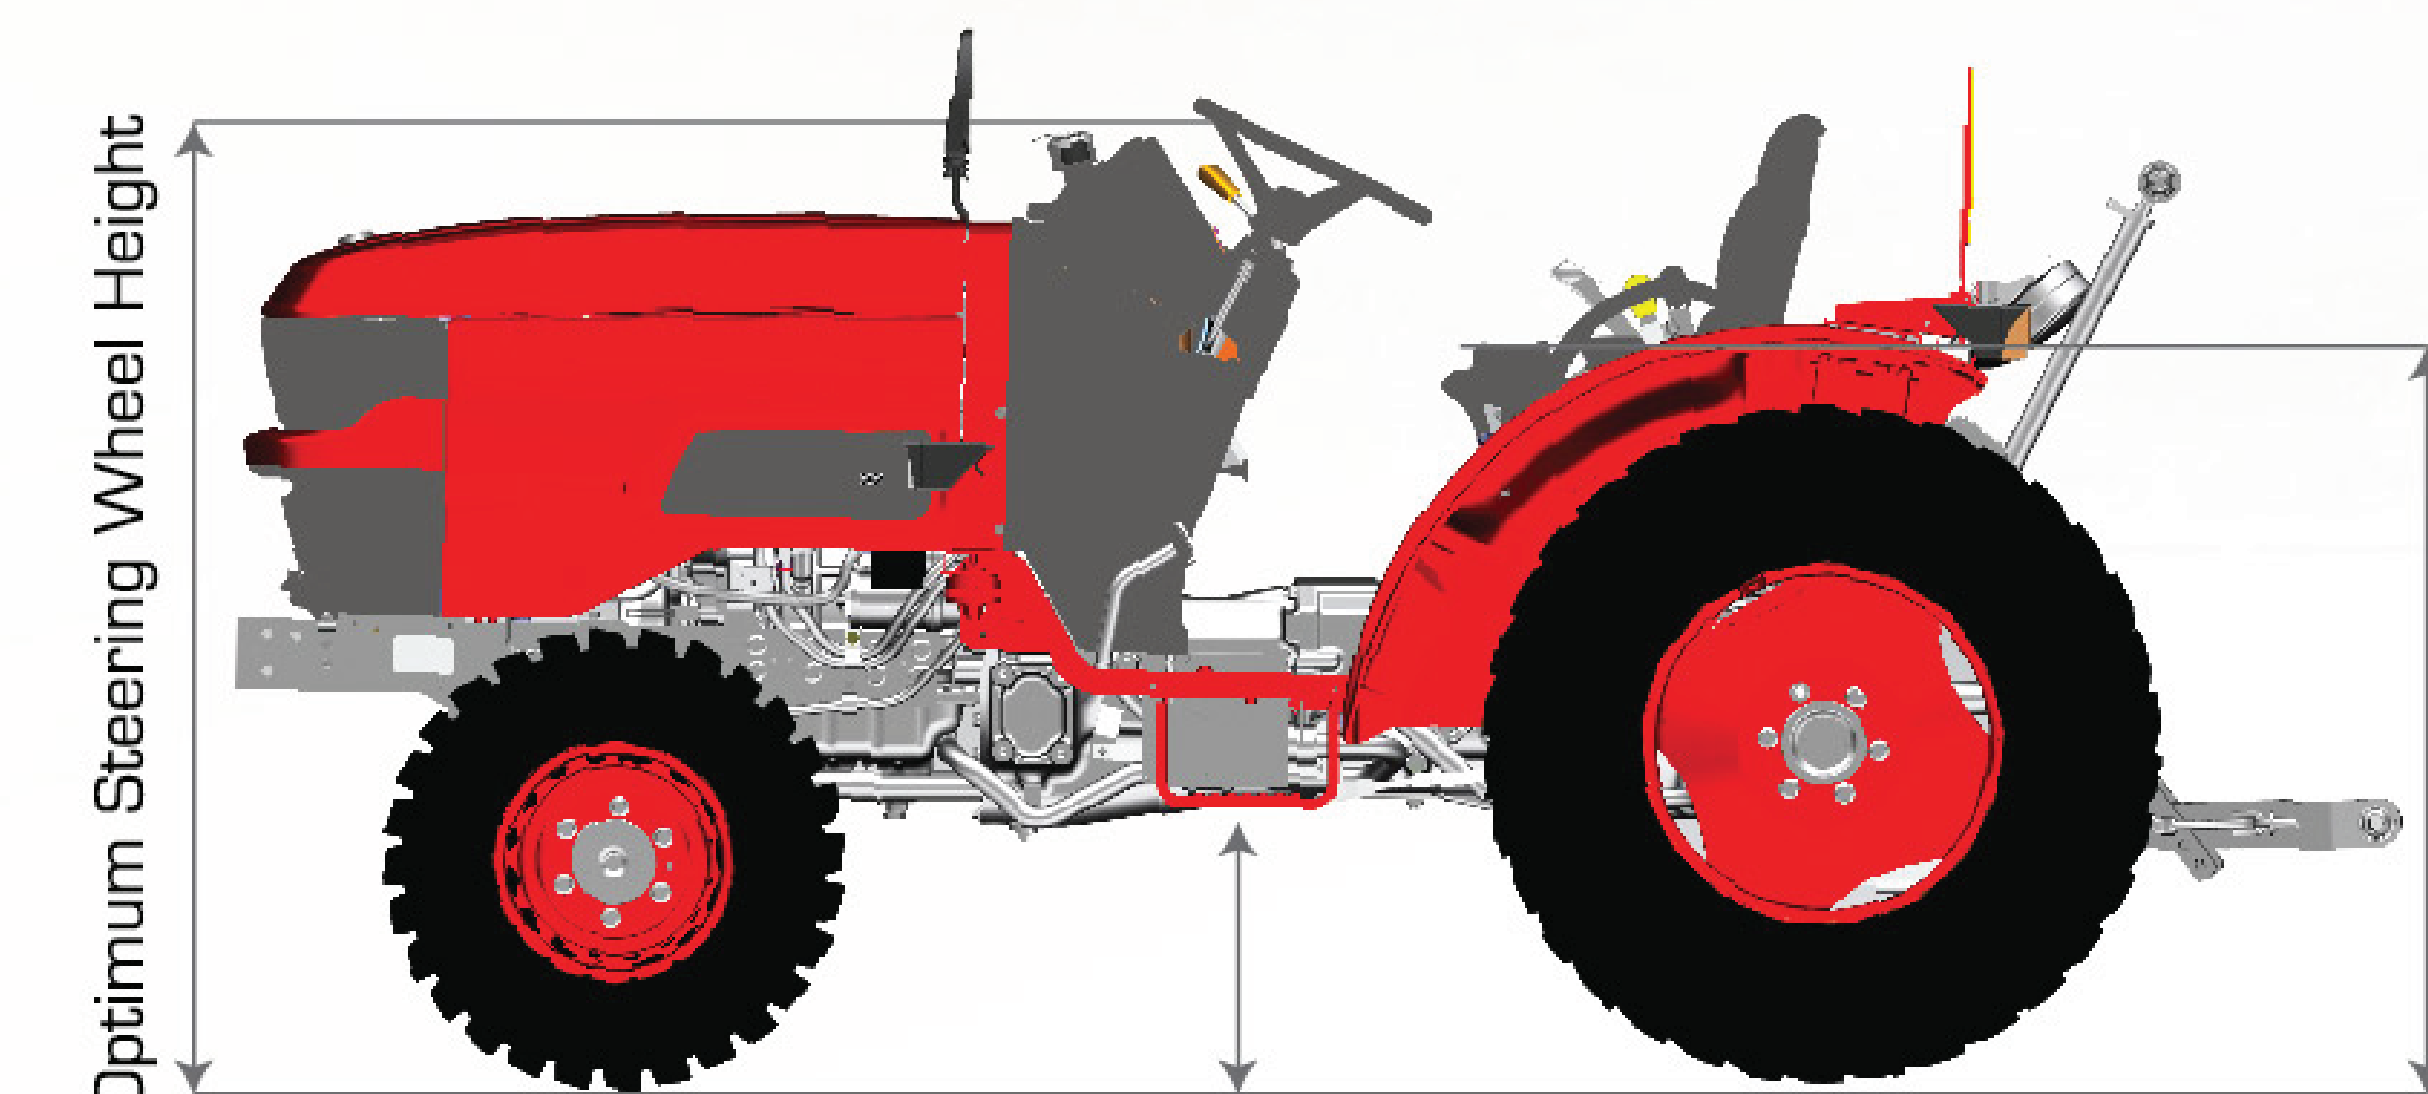

OIB with 3 discs for effective braking

LIGHTWEIGHT BUILT, HEAVY-DUTY PERFORMANCE.

- Ideal for wet muddy conditions of vineyards and orchards
- Unlike other tractors, pulls larger sprayers and implements with ease in wet muddy soil
- Less soil compaction at rootstock and no damage to plant roots

Narrow Track Width

High Ground Clearance

Low Seat Pan Height
