A technical line drawing of a three-branch pipe assembly. A central horizontal pipe has a red valve or fitting in the middle. Two other pipes branch off from this central pipe at right angles, one pointing upwards and one pointing downwards. Each of the three pipe sections has several flange-like connections along its length. The drawing is a perspective view, showing the 3D structure of the assembly.

A detailed line drawing of a seat assembly, likely for a vehicle or piece of heavy machinery. The seat is mounted on a complex metal frame that is positioned on a wooden pallet. The frame includes a steering wheel, a gear shift lever, and various control mechanisms. The seat itself is a high-back chair with a headrest. The entire assembly is shown from a side-on perspective, highlighting its mechanical components and the way it is supported by the pallet.

This diagram illustrates the chassis and drivetrain of a four-wheeled vehicle, likely a tractor or heavy-duty utility vehicle. It shows the front suspension system, including the steering knuckle, shock absorbers, and the front axle assembly. The rear axle is also shown, featuring a differential and drive shafts connecting to the rear wheels. The wheels are depicted with deep, aggressive tread patterns, suggesting they are designed for off-road use. The overall layout shows the vehicle from a top-down perspective, highlighting the symmetrical design of the chassis.

This exploded view diagram illustrates the assembly of a machine chassis. The central component is a long, flat chassis plate (1) with a circular cutout in the middle. At each end of the plate are two sets of drive sprockets (1) mounted on a frame. A large circular component, likely a pulley or a part of a drive system, is positioned in the center of the chassis plate. Above the chassis plate, there are two rectangular components: a top cover (16) and a side panel (8). The side panel (8) is shown with internal components (5, 6) and a fastener (4). Various other fasteners and small components are labeled with numbers 1 through 16, indicating their specific locations and assembly points on the chassis.

Diagram 1 illustrates the assembly of a mechanical component, likely a bracket or support structure. The main body is shown in the center, with various parts being attached. The assembly sequence is indicated by numbers 1 through 5, which correspond to the parts shown in the exploded view. The parts include:

- Part 1:** The main body of the assembly.
- Part 2:** A small circular component, possibly a pin or a washer, shown being inserted into the main body.
- Part 3:** A cylindrical component, possibly a bush or a sleeve, shown being inserted into the main body.
- Part 4:** A cylindrical component, possibly a bush or a sleeve, shown being inserted into the main body.
- Part 5:** A circular component, possibly a washer or a flange, shown being inserted into the main body.

The diagram shows the assembly of the main body with various components, including a central bracket-like structure, and the subsequent assembly of the outer components (2, 3, 4, 5) onto the main body.
