

Medium silencer, Euro 6

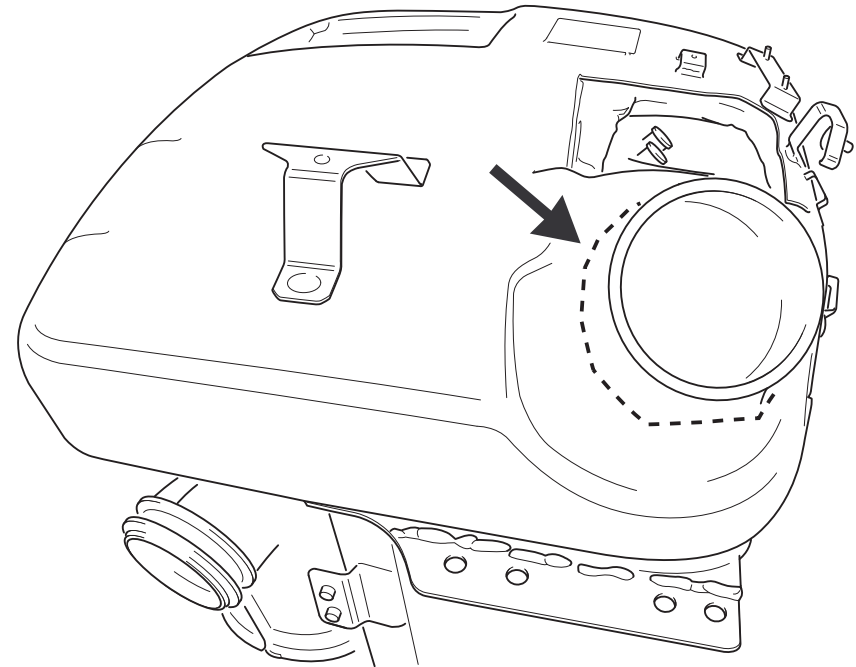

1. Cut a few millimetres outside the welds securing the protective plates.
2. Cut around the exhaust spigot.

344 001

Medium silencer, Euro 6

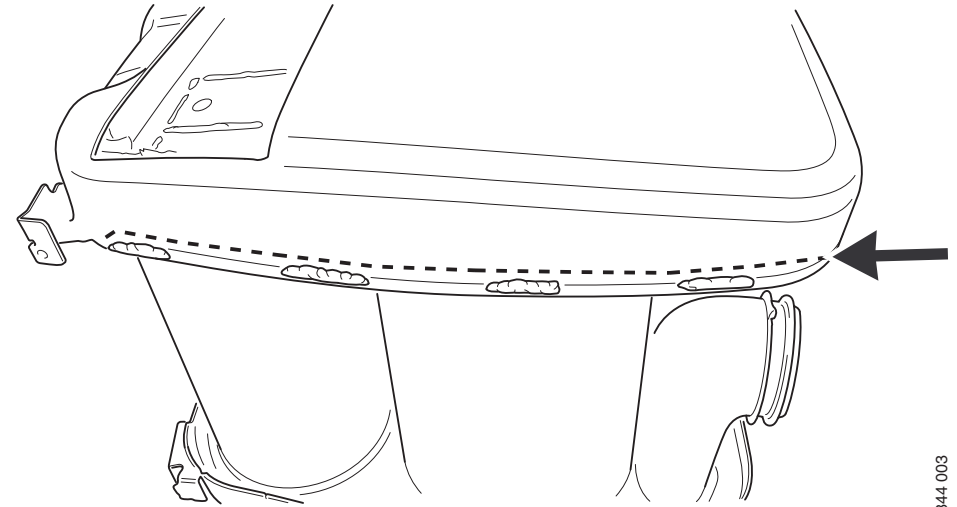

3. Cut around the exhaust spigot.

344 002

Medium silencer, Euro 6

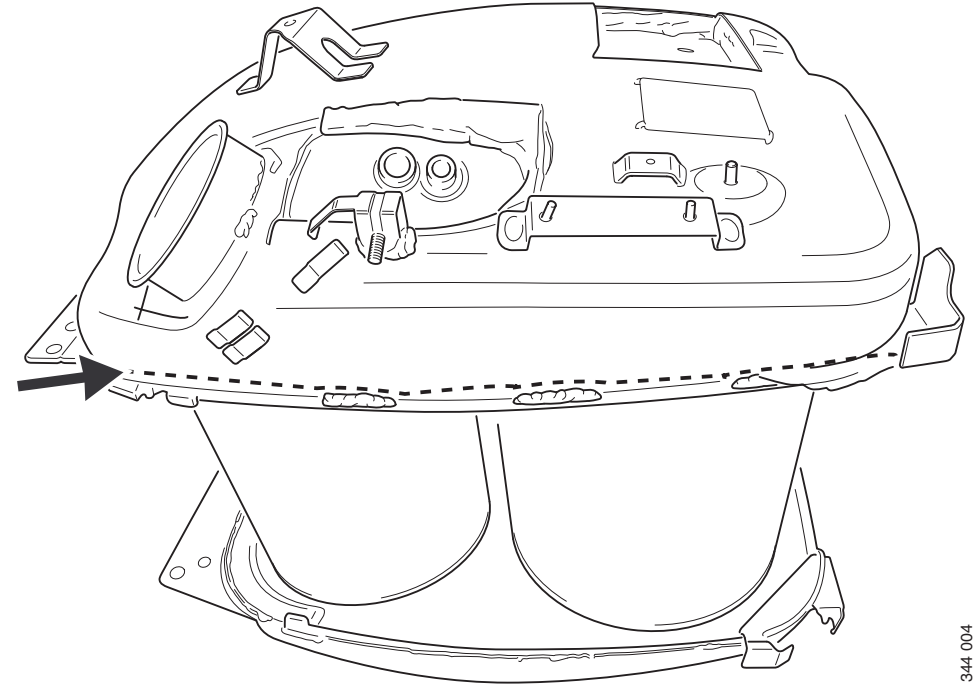

4. Cut a few millimetres outside the welds securing the protective end plate.

344 003

Medium silencer, Euro 6

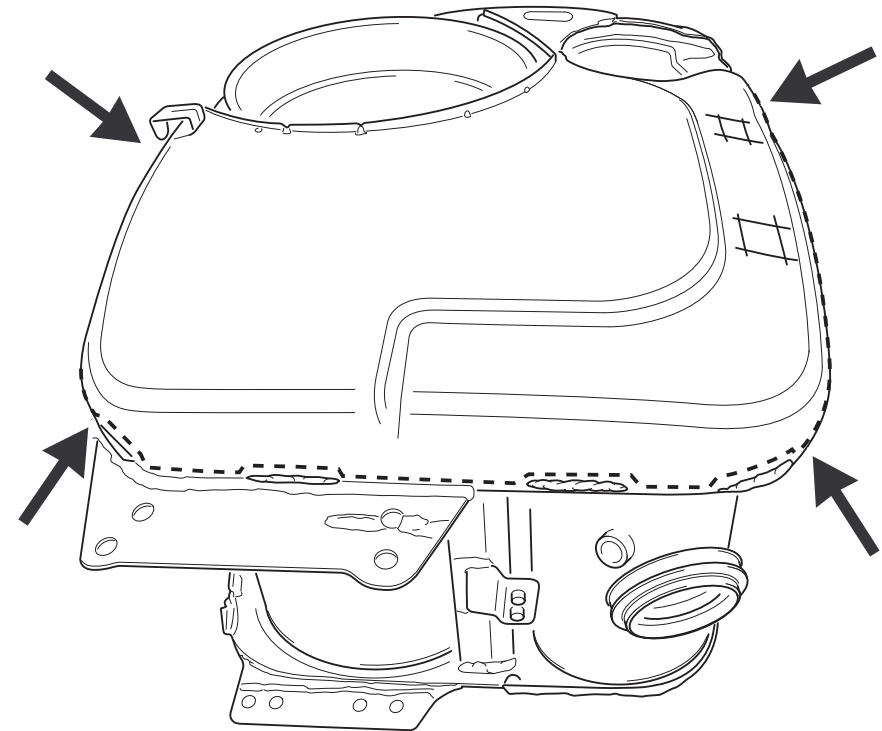

5. Lift off the protective end plate.
6. Turn over the silencer.

344 004

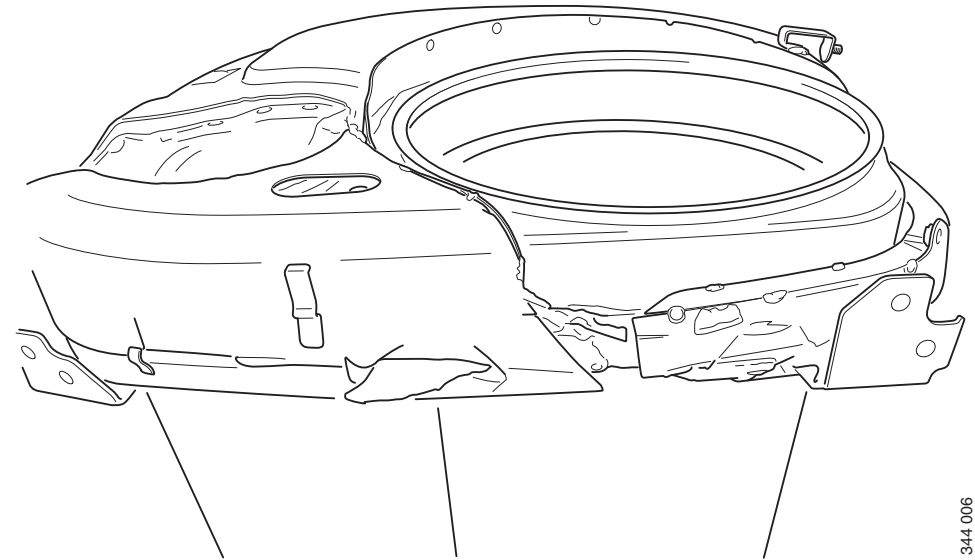

Medium silencer, Euro 6

7. Cut a few millimetres outside the welds securing the protective end plate according to the following illustrations.

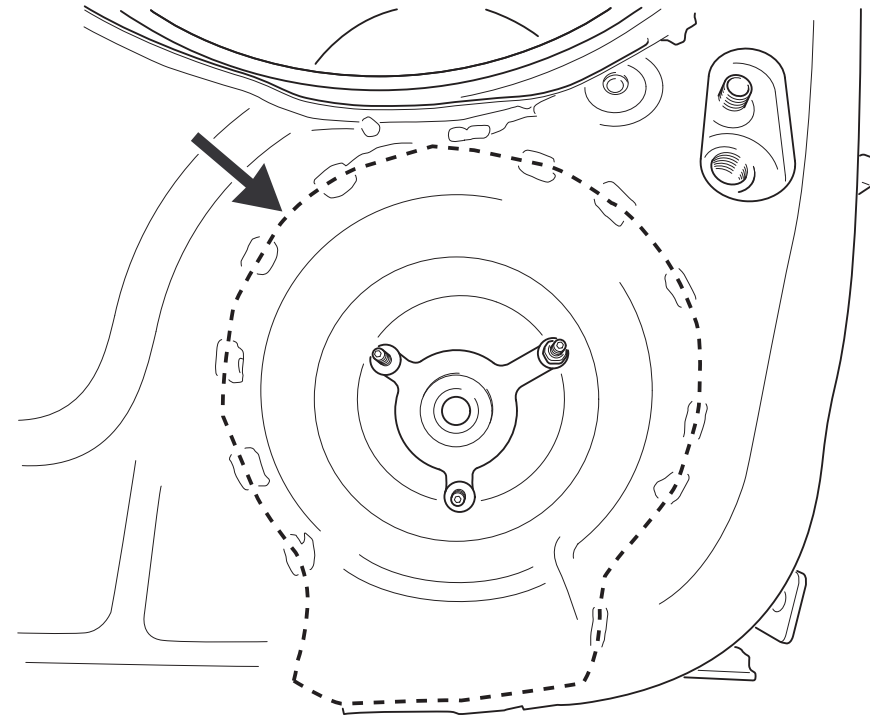

344 005

Medium silencer, Euro 6

344 006

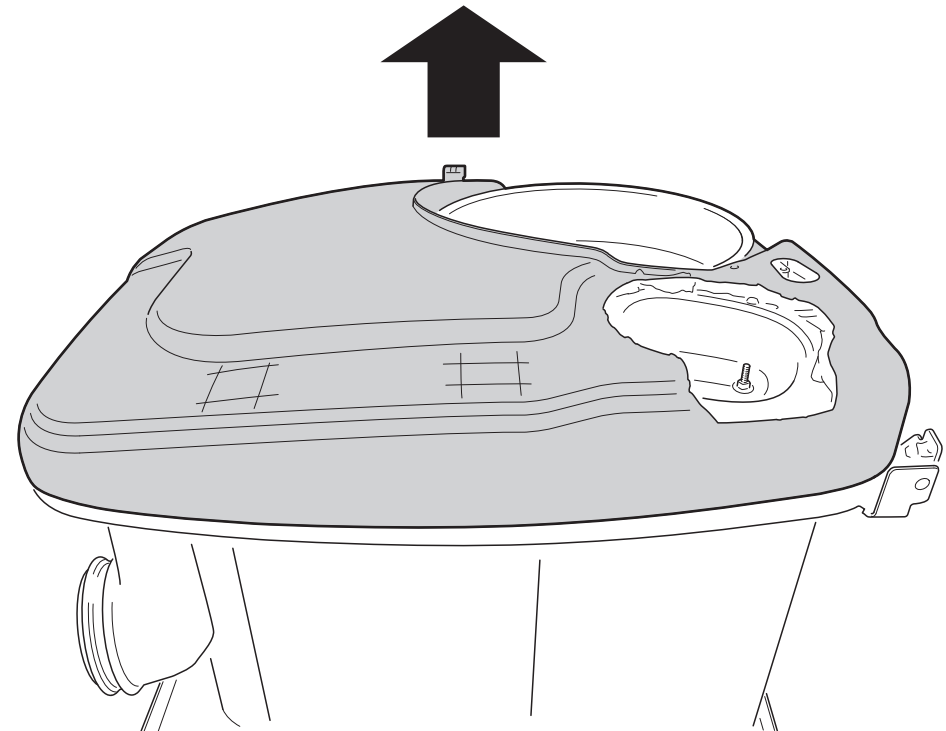

Medium silencer, Euro 6

344 007

Medium silencer, Euro 6

8. Lift away the protective end plate.

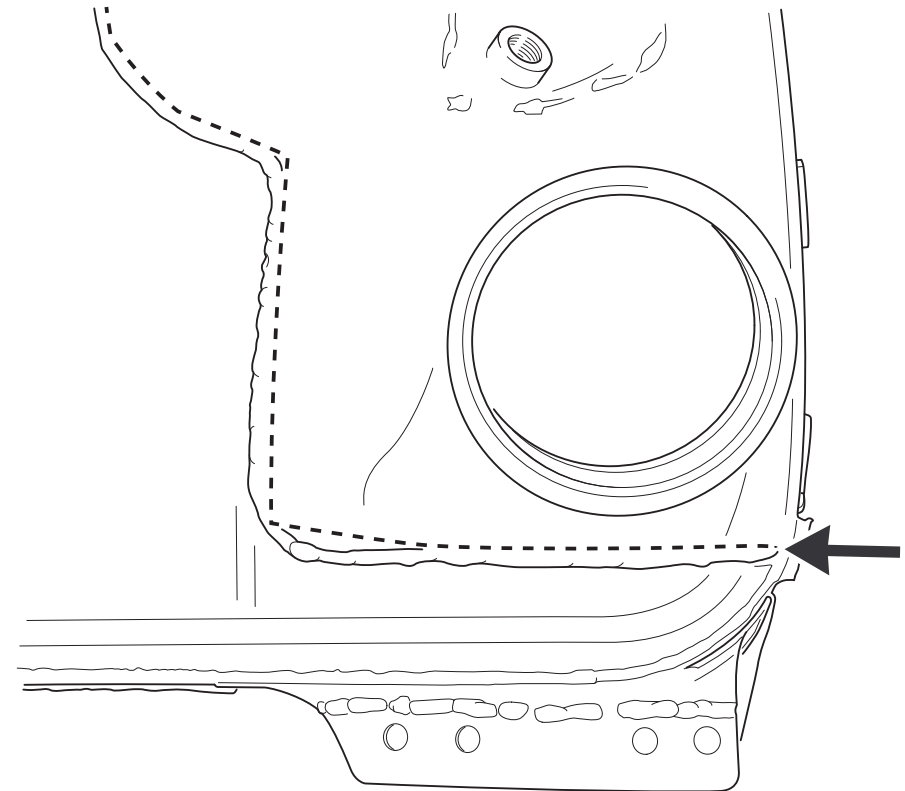

344 008

Medium silencer, Euro 6

9. Cut according to the weld on the end plate as illustrated.

Note:

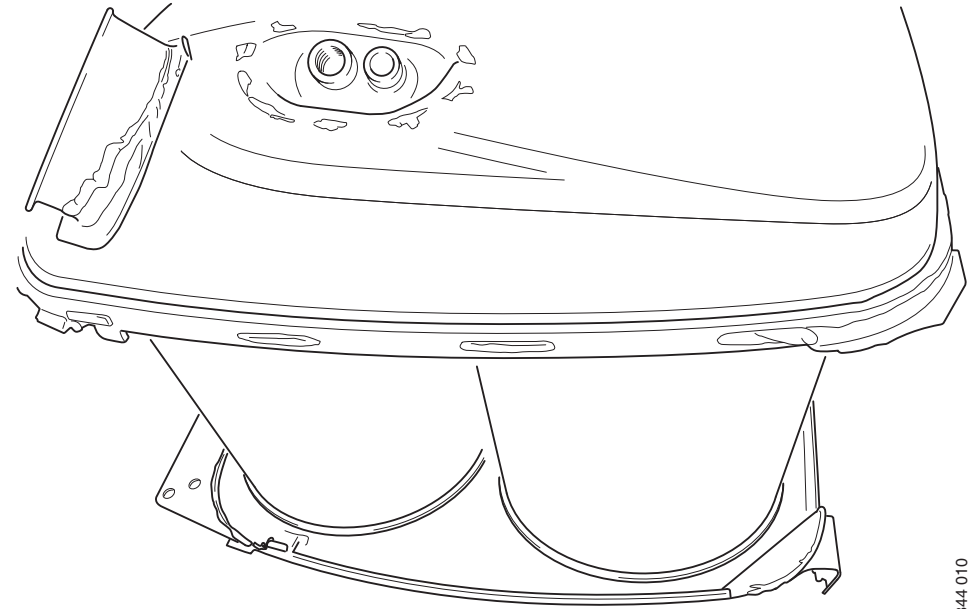

Use as small teeth as possible on the cutting tool so as not to damage the oxidation catalytic converter!

344 009

Medium silencer, Euro 6

10. Lift out the end plate.

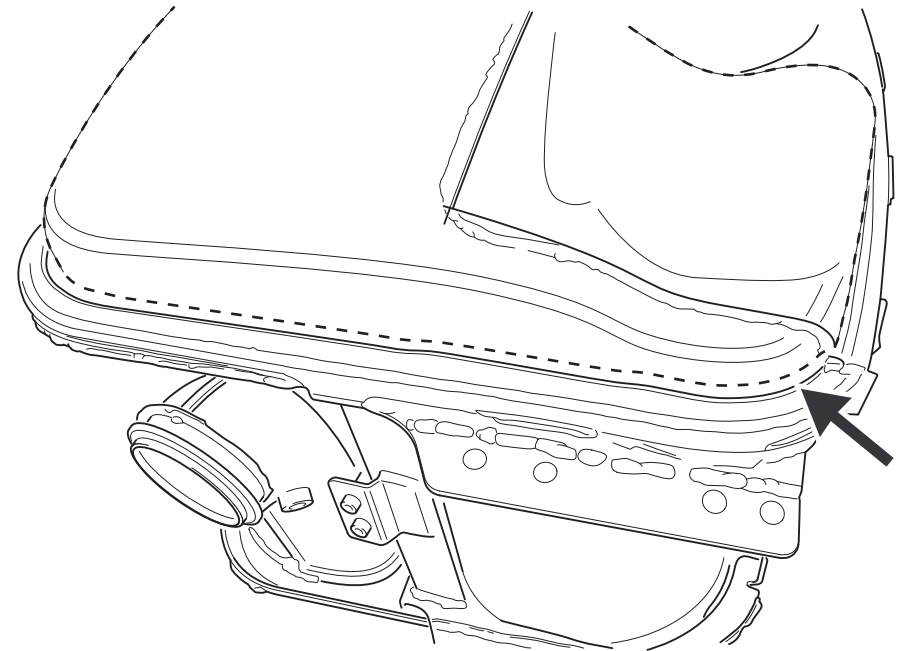

344 010

Medium silencer, Euro 6

11. Cut according to the weld on the end plate as illustrated.

Note:

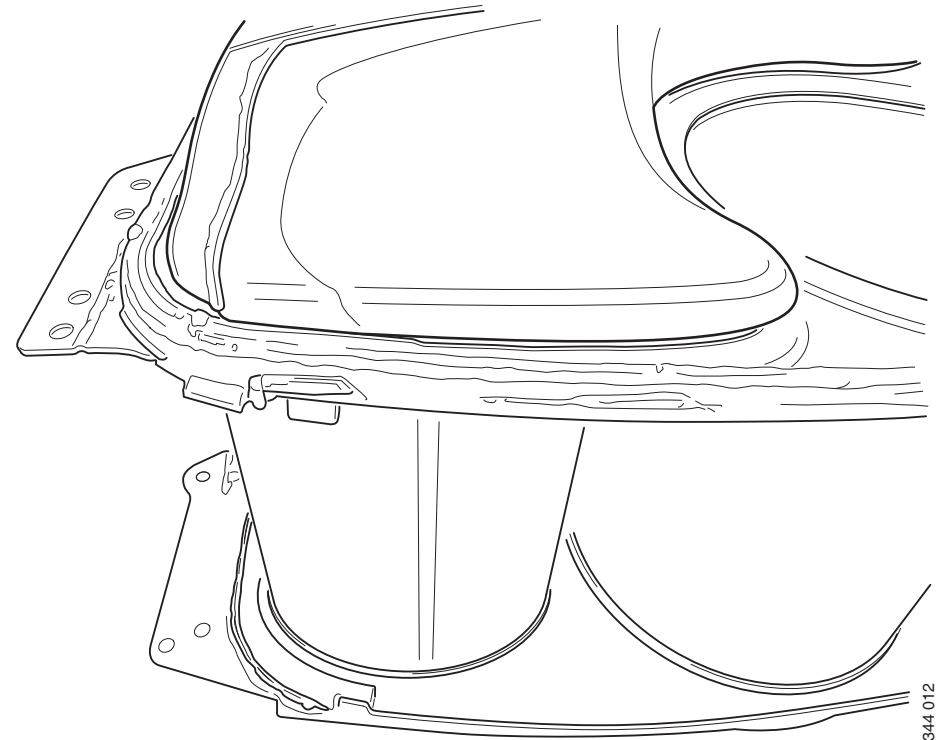

Use as small teeth as possible on the cutting tool so as not to damage the catalytic converter!

344 011

Medium silencer, Euro 6

12. Lift out the end plate.
13. Turn over the silencer.

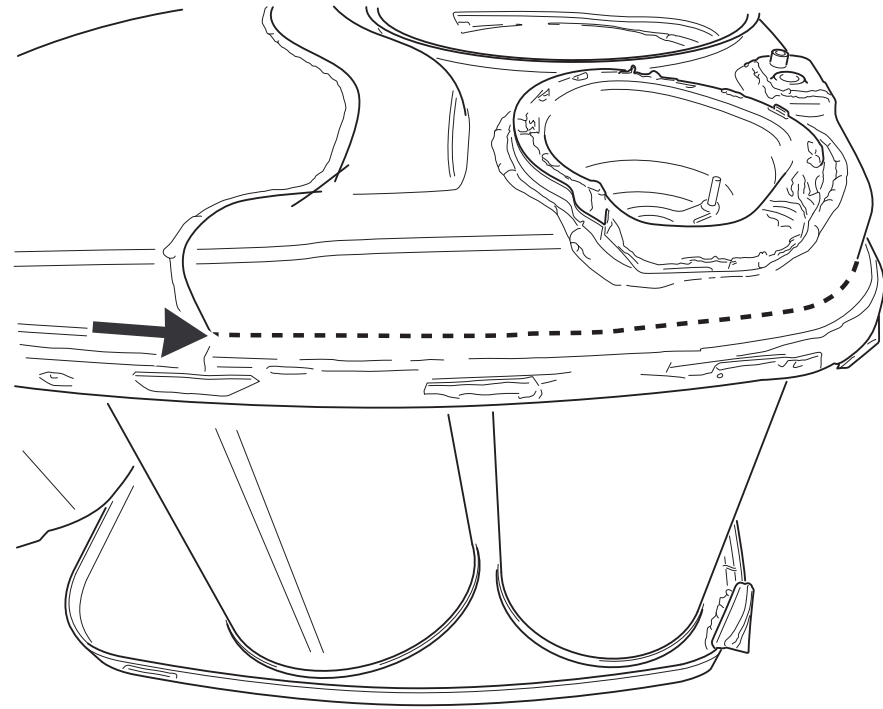

344 012

Medium silencer, Euro 6

14. Cut according to the weld on the end plate as illustrated.

Note:

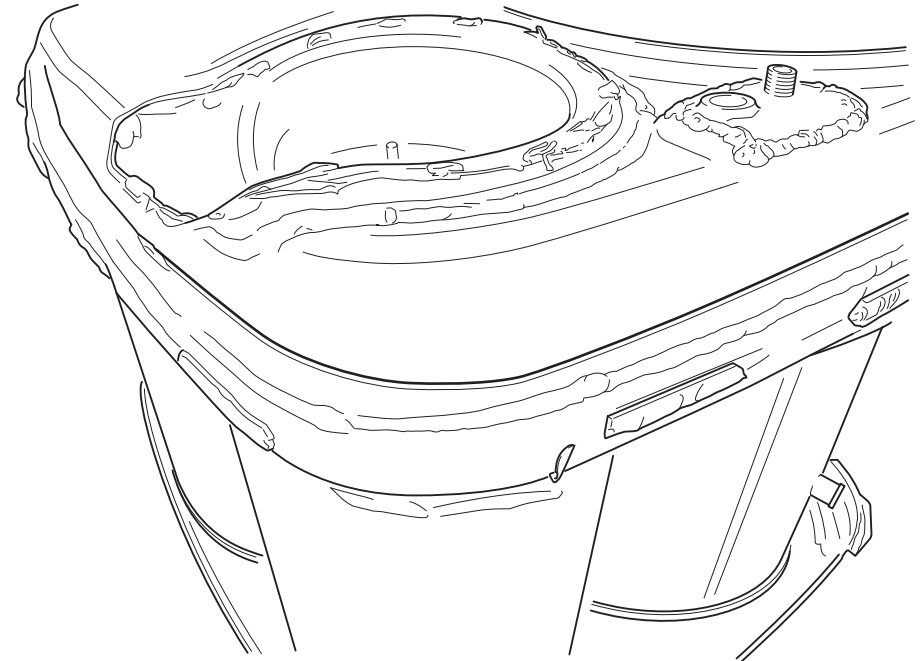

Use as small teeth as possible on the cutting tool so as not to damage the catalytic converter!

344 013

Medium silencer, Euro 6

15. Lift out the end plate.

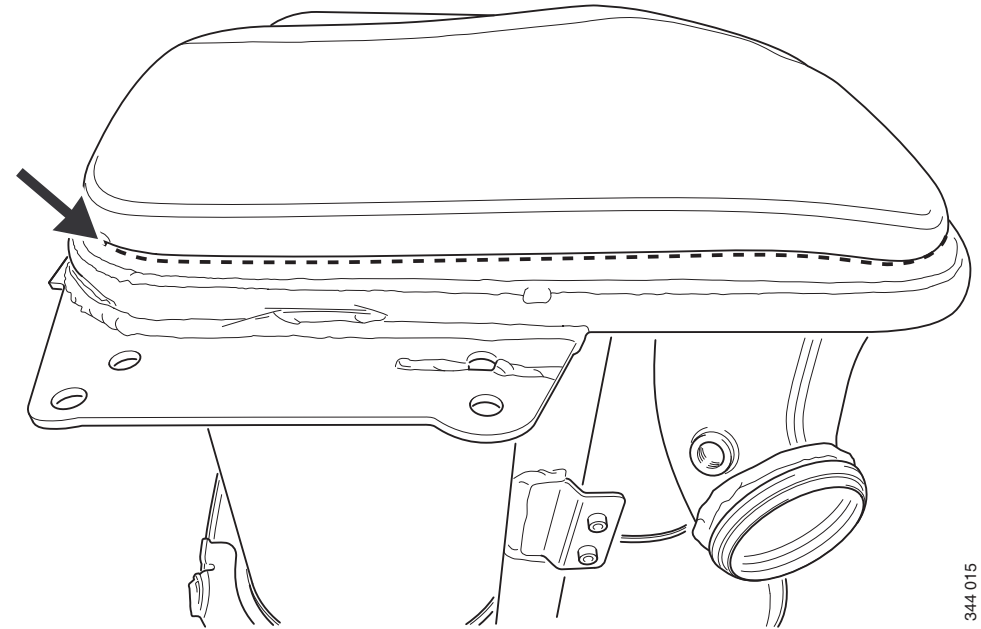

344 014

Medium silencer, Euro 6

16. Cut according to the weld on the end plate as illustrated.

Note:

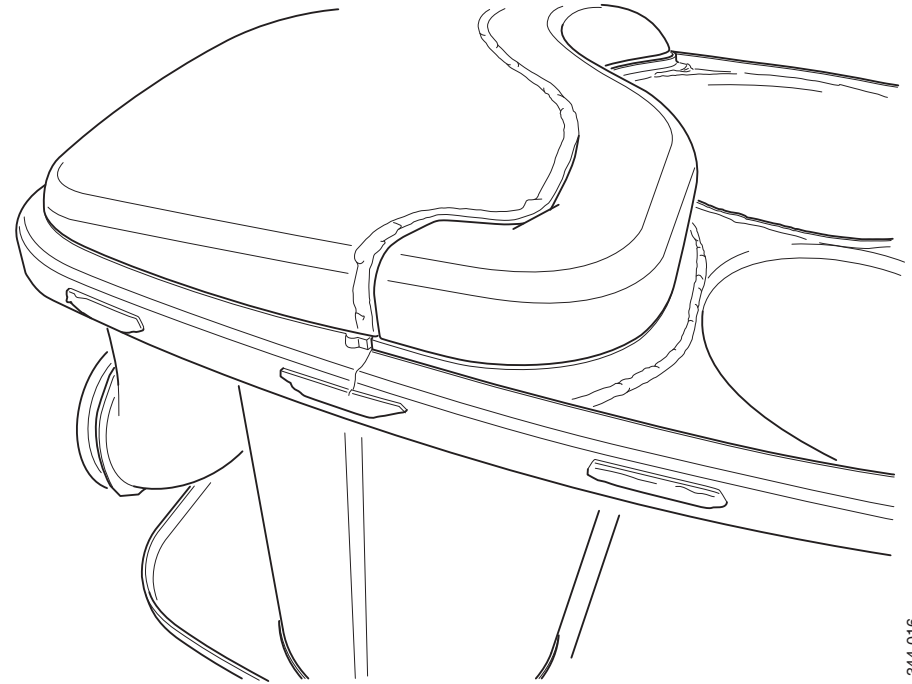

Use as small teeth as possible on the cutting tool so as not to damage the catalytic converter!

344 015

Medium silencer, Euro 6

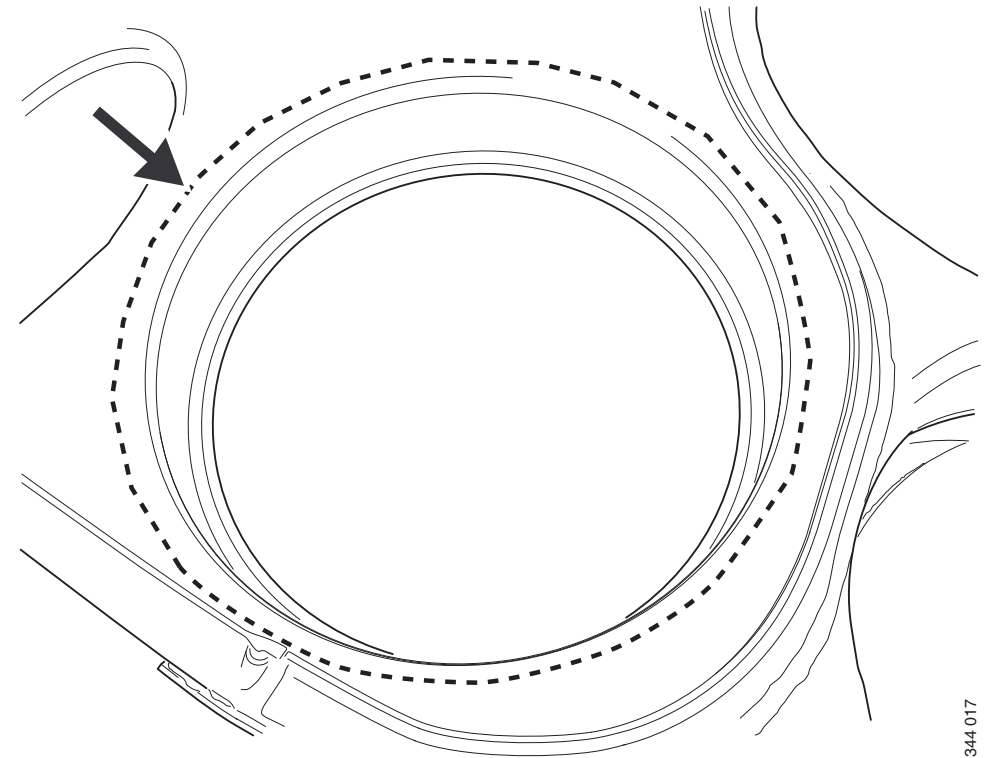

17. Lift out the end plate.

344 016

Medium silencer, Euro 6

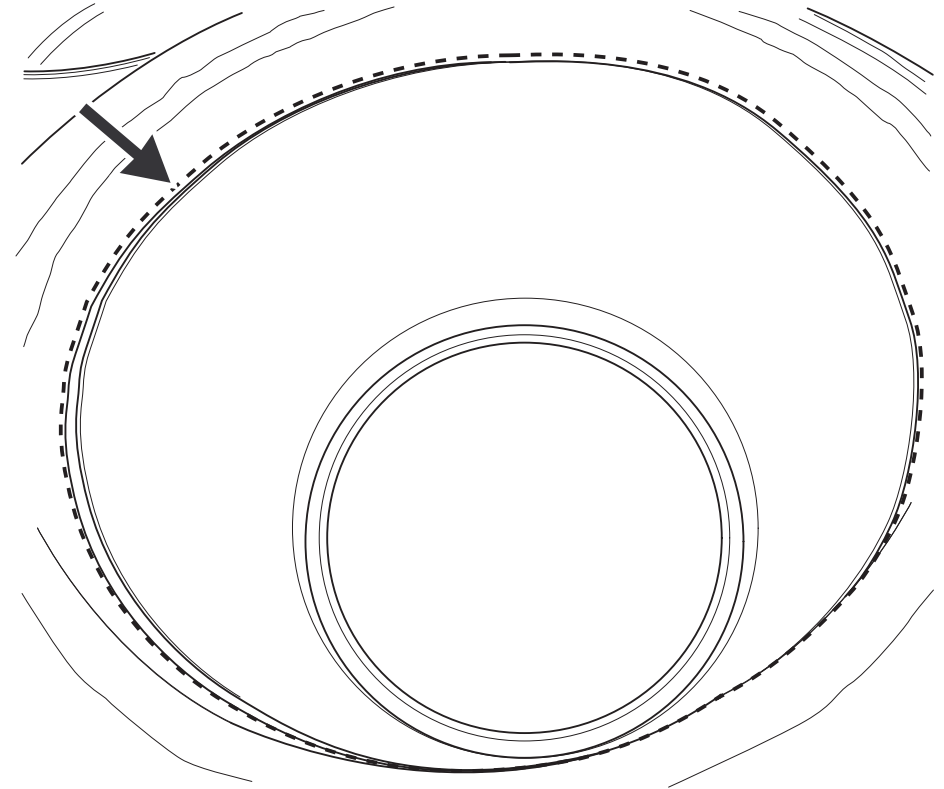

18. Cut around the catalytic converters.

344 017

Medium silencer, Euro 6

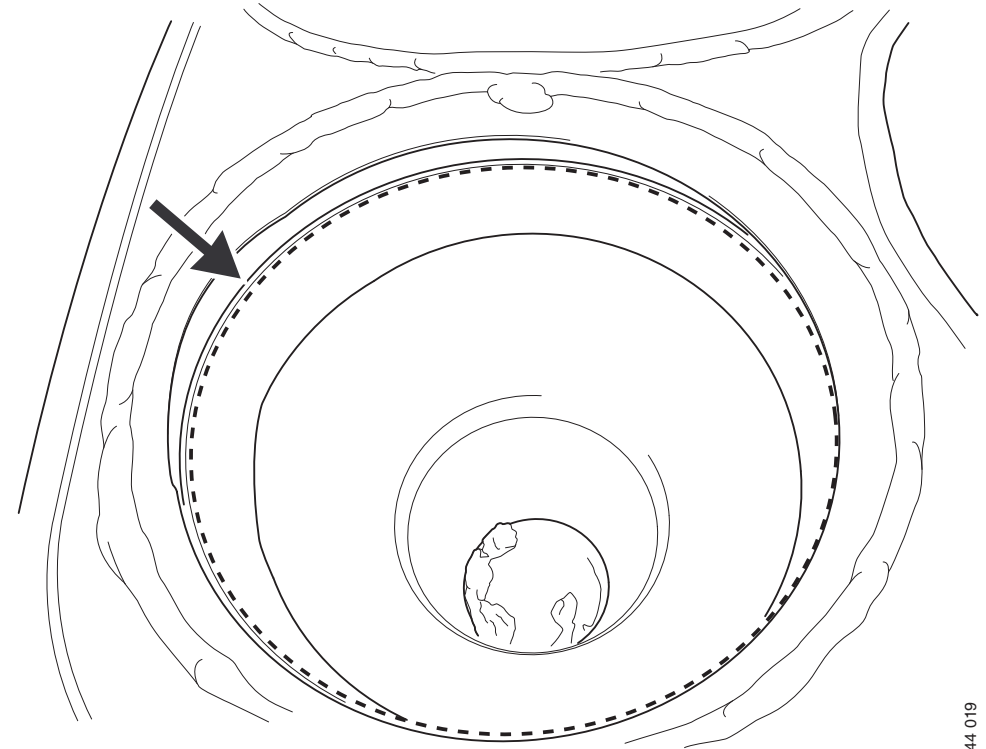

19. Cut around the inside of the oxidation catalytic converter tube.

344 018

Medium silencer, Euro 6

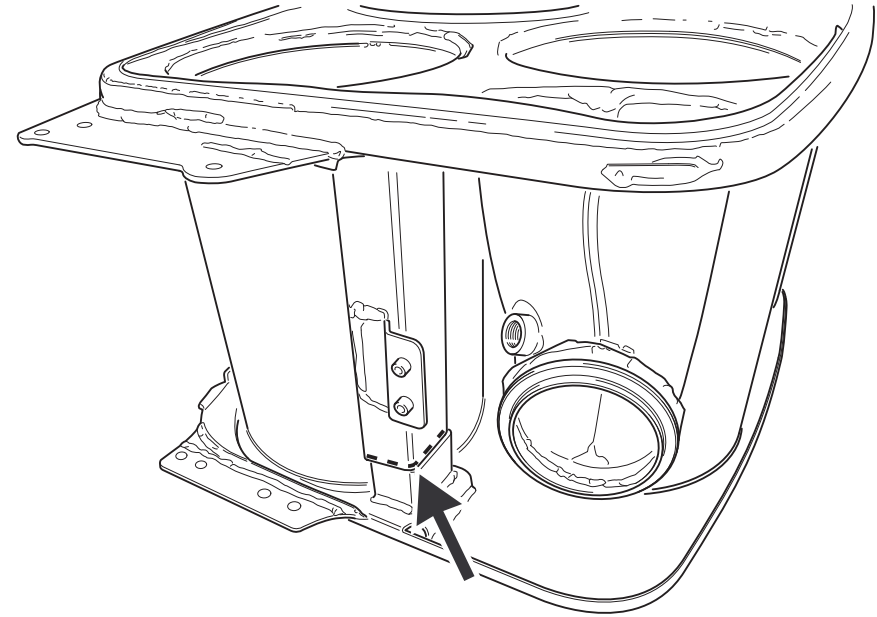

20. Cut around the inside of the other tube.

344 019

Medium silencer, Euro 6

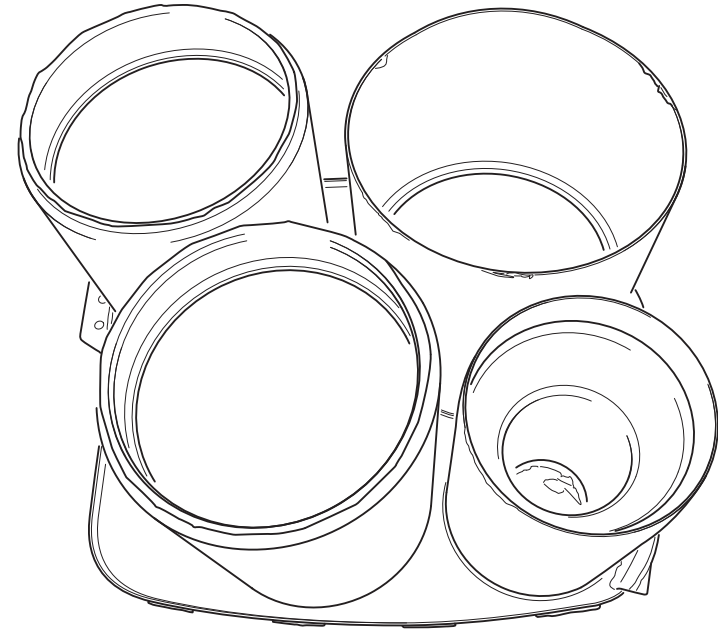

21. Cut the beam and lift off the plate.

344 020

Medium silencer, Euro 6

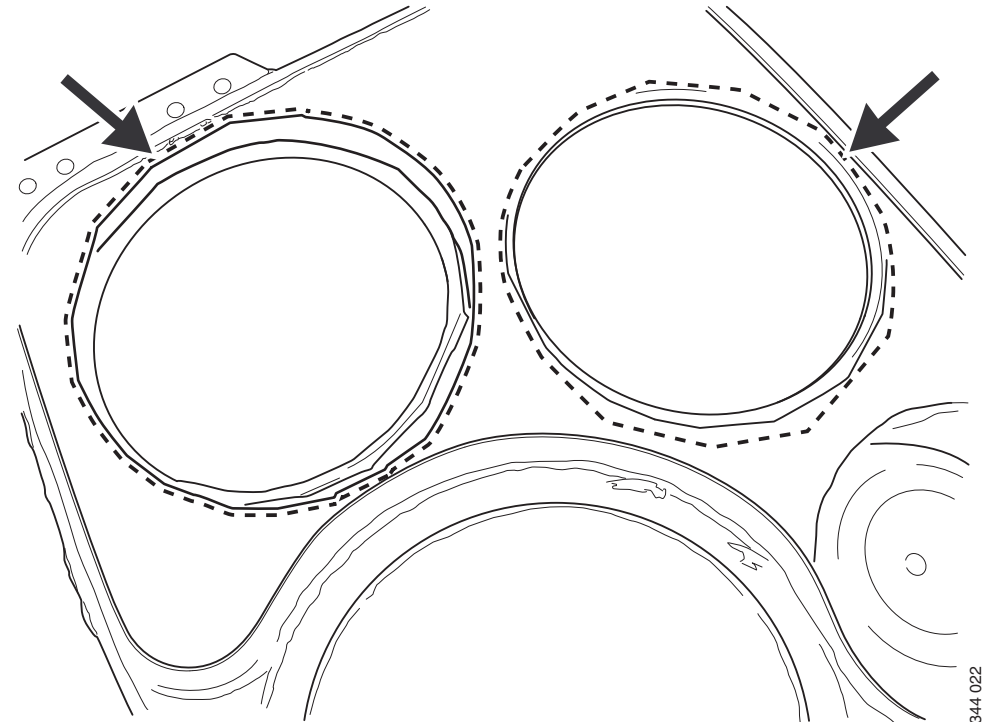

22. Turn the remains of the silencer over.

344 021

Medium silencer, Euro 6

23. Cut around the catalytic converters and the oxidation catalytic converter.

344 022

Medium silencer, Euro 6

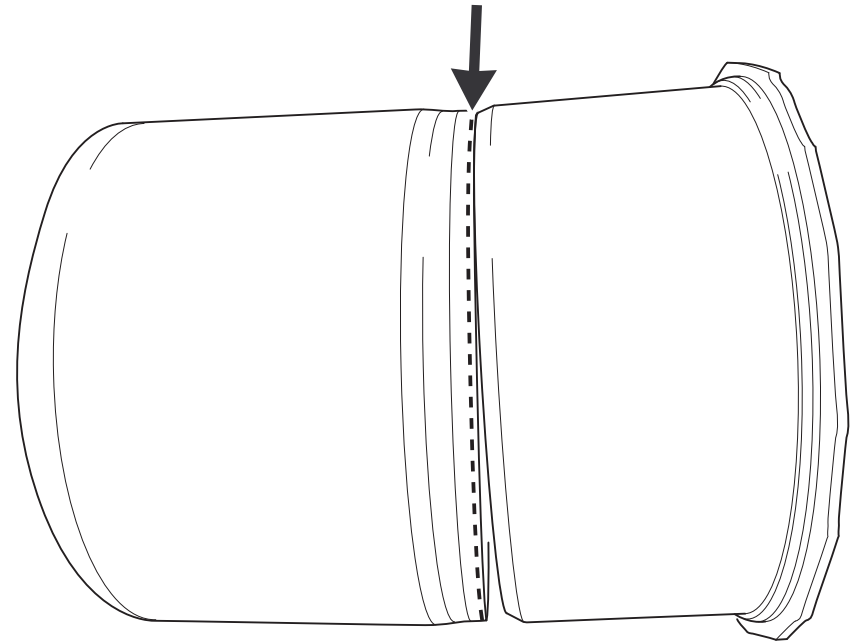

24. Lift out the plate.

344 023

Medium silencer, Euro 6

25. . Cut the oxidation catalytic converter tube as illustrated.

344 024
